OSU Evening School To Open October 19

The Adult Evening School of Ohio State University will reopen Monday evening, Oct. 19, with a restricted program of war-related courses.

The school's program was suspended several weeks ago in view of proposals pending at that time for a greater use of university facilities by the government.

Evening school headquarters will be in the Horticulture and Forestry Building on Neil-av, where an office will be open each evening during the week starting Oct. 20 to receive registrations. Daytime inquiries and requests for schedules may be directed now to the Bureau of Special and Adult Education, Room 321, Arps Hall, on the campus. Mrs. R. L. Pounds is assistant director of the school, in active charge of the work. The work carries no college credit.

Among the courses to be offered are languages, mathematics and science courses, English courses, general business practices and home defense subjects.

Wartime Adv. Program Is An Essential

Our country is at war with a dangerous enemy, because we are determined to hold and keep those freedoms which the American people prize above all else. Until this desperate struggle is won, we can allow no secondary considerations to stand in the way.

Every economic segment of our society is devoted first of all to winning the war. So it should be—and so it must be.

This concentration of purpose has brought some bewilderment and indecision about certain business activities that are essential in maintaining our national economic structure. Advertising is such an activity.

Always an important element of modern business, advertising is a flexible tool readily adapted to the special needs of war. There is important work for it in the national war economy and in our direct war efforts.

Yet in some quarters there is uncertainty about wartime advertising policies. There has been a search for practical principles to guide the application of advertising in a manner that will best serve our country's interests.

The need for defining such principles is recognized by the Advertising Federation of America, an organization representing the producers of advertised products, the practitioners of advertising craftsmanship, and the proprietors of advertising media—the users, the creators, and the sellers of advertising.

The Advertising Federation believes that a clarification of the basic functions of advertising in this time of war should be helpful both to industry and to the government in our united efforts to intensify the nation's economic power and to win the war.

Advertising is a tremendous force. It has been a vital tool in the creation of our vast industrial power and our fast-moving distribution system.

The unparalleled ability of American advertising to inform and persuade is one of the great assets of this country, in time of war as well as in time of peace. Its force is urgently needed in this period of national peril. Only slight change of direction is required, to meet war conditions and today's national objectives.

For the war, American advertising has four major functions to perform:

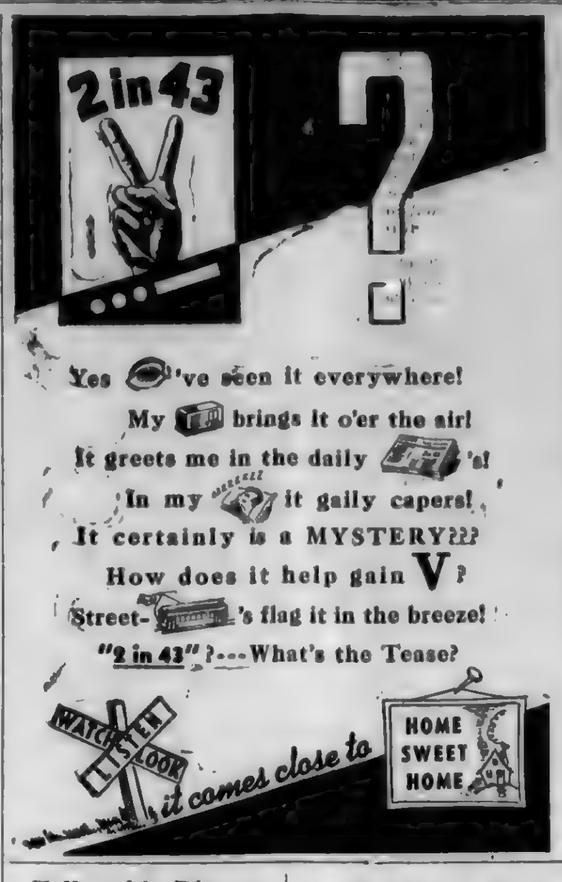
A—To continue advertising's indispensable role in the process of distribution and in the maintenance of the business structure.

B—To guide general consumer demand to channels most readily supplied, and away from scarce materials.

C—To assist the government directly in its appeals to the people on specific war efforts.

D — To help maintain public morale.

All four functions are most vital to the national welfare and to the survival of every individual business. All four can be performed capably by advertising, used as a sound, economical procedure on the part of individual business enterprises operating in our free competitive economy.



The need for continuing its advertising during wartime is important for every company which normally uses advertising in conducting its business.

One of the most valuable assets of every established business, and the most difficult to replace, is the distribution mechanism it has created, the company's reputation and good will in the minds of its customers and the general public. But experience has shown that people forget quickly, and every year many new consumers come into the market.

Companies which temporarily neglect or abandon their distribution mechanisms seldom are able to rebuild them. That is the experience of the past. But these valuable assets can be saved from destruction. They can be preserved through intelligent use of advertising, especially planned for the purpose.

It is of vital interest to our national welfare that every going enterprise should maintain intact its valuable mechanism of distribution.

The Advertising Federation of America urges all users, creators and sellers of advertising to cooperate in united effort to perform capably these wartime tasks of advertising, in helping our country to win the war and to maintain intact the economic structure for lasting peacetime prosperity.

AUTUMN DAYS

These are the days the heart has awaited
Through spring's soft glory and summertime's heat;
These are the days the year dedicated
To beauty's fulfillment. Heady and sweet
Fragrance of clover, cut; autumn fires burning
Goldenglow, thistle and bittersweet flame
A riot of color that leaves the heart yearning
For words to express what the lips cannot name.
These are the days when far blue haze spreading
Like silken nets has ensnared beauty's wings;
Late summer birds that have lingered are heading
Into the southlands; today the earth sings!
Yet deep in the heart is a strange, numbing sorrow
Knowing that winter will claim them tomorrow.

Questions and Answers About Vitamins

WHAT ARE VITAMINS?
"Minute quantities of substances which are to the human machine what the ignition spark is to the automobile." We know what they DO, but we do not know exactly what they are.

WHAT DO VITAMINS DO?
Under ordinary conditions they promote growth, maintain body tone and vigor, protect the body against infection, effect successful reproduction, possibly increase length of life, assist the body to function properly and to get the full benefit of other food constituents. Specific starvation of any vitamin produces a characteristic disease.

WILL VITAMINS INSURE HEALTH?
Not necessarily. We recognize that while the selection of proper food has a profound effect upon average and ordinary conditions, we should bear in mind that not all illness is of dietary origin and hence can not be expected to succumb to food.

WHAT FOODS ARE RICHEST IN VITAMINS?
Dairy products, cod liver oil, eggs, vegetables, especially leafy vegetables and fruits, glandular organs such as liver.

WHAT FOODS ARE POOREST IN VITAMINS?
Cereals, deprived of their outer coating (white flour, white rice, etc.)
Muscle tissues of ordinary meats.
Sweets.

WHY IS IT UNNECESSARY TO SEEK VITAMINS IN ARTIFICIALLY PREPARED FORMS?
Because vitamins are most economically available through the proper selection of natural foods and tanning.

DOES COOKING IMPAIR VITAMINS?
It may. Vegetables should be cooked as quickly as possible with the least loss of juices. Cooking with alkali (soda) injures some vitamins.

ARE VITAMINS LOST WHEN JUICES COOK OUT OF VEGETABLES?
Yes. Vegetable juices should no more be thrown away than should the juices which cook out of meat or fruits.
No more water should be used in cooking vegetables than is necessary to prevent sticking.

HOW CAN WE BE SURE OF GETTING ENOUGH OF SUCH VITAMINS AS MAY BE DESTROYED OR INJURED BY HEAT?
Eat regularly some fresh raw fruits and vegetables. Salads frequently furnish this. The juice of raw cabbage and raw grated carrots will help to protect young children over a long period such as the winter months.

DO VITAMINS HAVE ANY INFLUENCE ON THE FORMATION OF BONES AND TEETH?
Yes. Only when sufficient Vitamins A, B, C, and D are present does the body seem able to make use of the materials of which bones and teeth are made.

DOES THE BODY STORE VITAMINS?
Not to any great extent, except that the liver, the lungs, and other internal organs appear to be especially adapted to the storage of some vitamins. We must depend largely on a continual supply of most of them in food.

DO WE MAKE OUR OWN VITAMINS FROM FOOD?
It is more likely that they are only transferred from foods.

HALF-PAST

Half-past summer; the locust's hum
Beats more insistently; for some
The constant monotones express
The end of summer's loveliness.

Half-past living; the throbbing mind
Suggests, each day, one be more kind.
Infinite wisdom strangely sends
A response to this, labeled "Friends."

EARTH AND THE PIPER

Animate — these wooded spaces lie
Beneath their golden-tufted canopy,
Conscious of the scented breath of night
Upon their curved regions, and the mad moon's flight.
Knowing of rapture in the swift dark's embrace,
Kin to the uncreated winging through space
Dreaming of being for the first time taught
The subtleties of life, though living not.
Alive to the lessening shadows, the hills
Rest on their couches as the new sun spills
Yellow upon them the gods' rich gold.
Suddenly shy (the withdrawal of the bold.
Who, elbowed by memory's compound caresses,
Wax naive again from ectasy's excesses,)
The wayward earth's conscience, at war with itself,
Makes haste to pay the piper with the sad sun's pelf.

Faye Chilcote Walker, in QUICKENING SEED.

A city youngster, in the country for the first time, rushed to his mother and said:

"I've seen a man who makes horses. He had one nearly finished when I saw him. He was just nailing on its back feet."

"Is 'trousers' singular of plural?"

"They're singlar at the top and plural at the bottom."

THE HIGHWAY TO ALASKA

That road will be ready for travel
About December the first
Safe over muck and shifting gravel
Road building of the very worst.
Terminus, Dawson Creek, British Columbia
Over fifteen hundred miles long.
Through the desert to dismal Alaska
Sounds like a weird jungle song.
Costs enormous, fifty-six million dollars
The surface twenty-two feet wide,
Up there they wear wolf tails for collars
Where the bear and wildcat hide.
The northern terminus, Fairbanks, Alaska,
A gloomy land few care to fare
I may take a walk clear around Nebraska
But I swear I'll never go there.

Six months seasoning is recommended to convert green wood into top-quality fuel. Fallen trees for fuel use should not be trimmed for at least two weeks because the leaves help draw the moisture from the wood.

Even in a state as populous as Massachusetts full-grown and huge forests are growing on thousands of acres which once grew other crops for food. The replanting in trees was done almost entirely by nature.

Trees are the most suitable crop for about 25 percent of the land area of the United States. Actually, however, trees are growing on about 33 percent of this country's total acreage.

About 519,000,000,000 cubic feet of wood is now standing in the forests in this country, and about 11,500,000,000 cubic feet of new wood is grown annually.

Rev. R. E. McAlister

Rev. R. E. McAlister, Canadian Bible Expositor, will be at the Trinity Gospel Tabernacle, 50 Hayden-av, from Oct. 20 to 25. A few of his subjects will be "The Sure Way to Prosperity," "The Blood Covenant," and "Overcomers." Rev. D. C. Scott is pastor of the church.

More than 60 percent of the area of the southern states is forest land, upon which pine trees are the predominant tree species.

During the past 40 years, 22,000 land owners in Pennsylvania have planted 170 million seedling trees.

"NEVER FOR GRAFT OR GREED"

My filling station, now in operation,
I was out looking for a scrap;
I said, as a soldier I'd save the nation,
They said I looked like a Jap.
A slogan forgotten now comes to mind
First heard when I was a child,
Spoken by people trying to be kind
When I was headstrong and wild.

"Wise men often change their mind
But foolish men never will."
Remember that slogan and you will find
It'll help you over the hill.
My station is the same as other days
Supplying the things you need,
Soliciting your trade in various ways
But never for graft or greed.

Wartime Recipes

Baked Peach Custard
2-3 C. sweetened condensed milk
2¼ C. hot water
3 eggs, slightly beaten
½ tsp. salt
6 halves of fresh or canned peaches
Nutmeg

Mix sweetened condensed milk and hot water. Pour gradually over eggs. Add salt. Place peach halves in greased baking dish. Pour mixture over peaches. Sprinkle with nutmeg. Place in pan filled with hot water to depth of custard. Bake in slow oven, 325 degrees, about 1 hour or until custard is set. (A knife blade inserted will come out clean when custard is done). Serves 8.

Stuffed Tomatoes Au Gratin
6 to 8 medium size tomatoes
½ lb. pkg. cream cheese
1 C. cooked meat
½ C. cooked rice
1 tsp. salt
¼ tsp. pepper
2 Tbsp. butter
1 small onion
1 egg, well beaten
¼ C. buttered bread crumbs

Cut thick slice from stem end of tomatoes, scoop out pulp, being careful not to break skin. Sprinkle inside of tomatoes with salt and invert while preparing filling. Put cheese and meat through food chopper. Mix with cooked rice, tomato pulp, salt and pepper. Mince onion and saute in butter 5 minutes until tender; but not brown. Add egg and onion to cheese mixture and blend. Fill tomatoes with mixture and sprinkle bread crumbs over top. Bake in moderate oven, 350 degrees, 30 minutes or until tender. Serves 6 to 8.

Carrot and Barley Soup
¼ C. barley
5 C. cold water
1 C. diced carrots
2 Tbsp. chopped onion
Salt and pepper
3½ C. milk

Soak the barley in the water overnight. Cook in the same water for about 1 hour or until tender. Add the carrots, onion, 1 tsp. of salt and a few grains of pepper about 30 minutes before the end of the cooking time. Stir frequently and add more water if necessary to keep it from burning. Add the milk and season with salt and pepper. Reheat, stirring constantly. Six servings.

West High Students To Conduct Subscription Campaign

A community-wide campaign to secure subscriptions to The Hilltop Record will begin today and will be conducted for the next three weeks by the Journalism and Athletic Departments of West High School.

A liberal commission is being allowed the school for each yearly subscription they turn in and this money will be used to help eliminate recent deficits incurred in athletics and will assist in making it possible to provide new equipment for the athletic teams.

Beginning today and continuing until the territory has been surveyed, a student representative of the school will call on each Hilltop home and ask local families to become paid subscribers to The Record at the rate of $1.50 per year, cash in advance.

Announcement of the paid circulation plan was made in The Record last week. Local families who do not subscribe by either paying $1.50 in advance for a year's subscription or pay at the rate of 15c per month will not be assured continuous delivery of the paper each week.

Effective date of the new subscription plan will be announced at the termination of the solicitation campaign.

Decision to charge for The Record was made after a cross sectional survey of the Hilltop in which it was indicated local residents would rather pay a small fee for the paper than to have it reduced in size and quality or have a portion of the circulation cut off.

The very rapid growth of the community in recent years and the fact that advertising revenues have been reduced due to the war have made the charge plan necessary. Increased costs of production of all newspapers has been indicated in recent months in the fact that many papers all over the country have advanced their subscription rates. This has been true in some instances in Columbus.

Persons who subscribe to the paper are requested to ask the solicitor to present his official identification card.

Since the announcement of the paid circulation plan in last week's Record there has been a generous response from the public and many have come to The Record office to pay their subscription and others have been received by mail. Subscriptions will continue to be accepted at the office, 2465 W. Broad-st, or by mail when the cash accompanies the order.

Hilltop Scrap Drive Goes Over Top

The Hilltop is a cleaner community and localities have contributed much toward the war effort in their recent response to the scrap drive.

Robert Draper, local chairman, this week announced that approximately 150 tons had been collected in this section. He has expressed his appreciation to his lieutenants, Whitie Looker, Dave Cornwell and Art Bellar.

The Hilltop is to be congratulated on their fine response.

Mrs. Weakley Cited For Fine Job

Mrs. Esther Weakley, 3 Belvidere-av, has been cited by the editor of "The Illuminator," Rail-Lite publication, for her fine work in connection with organization of Red Cross training classes.

The magazine states "the list of persons she contacted numbered well over 2400 and before that she notified prospective firemen and police that basic training classes were ready for them. In addition she has done typing and card indexing for the local Civilian Defense office."

Mrs. Weakley writes a regular column in the Rail-Lite magazine known as "Listen, Girls!", is poetry editor of the Citizen and Hilltop Record.

A. P. Lamneck

Democratic Candidate for Representative in CONGRESS

Why You Should Vote For Him

- A. P. Lamneck has had previous legislative experience.
- He is pledged to support President Roosevelt in a vigorous prosecution of the war.
- He is pledged to the peace aims of America so that another war will not soon occur.
- In 1931 when lack of confidence threatened a financial collapse he introduced in Congress a bill guaranteeing bank deposits.
- Had this bill been passed then bank failures in 1932 and 1933 would have been prevented and millions of dollars of depositor's money would have been saved.
- In 1937 he attempted to stop shipment of scrap iron to Japan. Had Congress adopted his proposal our scrap could not now be used against us by the Japs. This would have saved thousands of American lives and billions of dollars.
- He has proven by his record that he was farsighted and patriotic in peace and when war threatened us.
- Has always been friendly to labor. Recently endorsed by the Brotherhood of Railroad Trainmen and various other labor organizations.

ANNOUNCEMENT

Due to the fact that advertising revenues have been drastically reduced on account of the war, and because of the large increase in the number of homes on the Hilltop, it has become necessary to make a charge for The Hilltop Record.

It has become a matter of either reducing the present free distribution of The Record and likewise greatly reducing the news content of the paper or make a charge for the paper. After a survey of the community we have determined that a majority of the people would rather pay a small price for The Record than have it reduced in quality.

Effective immediately The Hilltop Record will accept subscriptions at the rate of $1.50 per year, cash in advance, or 15c per month to be collected by an authorized Record collection agent.

West High School to Conduct Subscription Campaign

Starting today a community-wide subscription campaign will be conducted by a select group of students of West High School journalism and athletic departments.

Within a few days a representative will call at your home or place of business and ask for your subscription. Your approval will mean that you will be insured receiving The Record continuously and at the same time you will be contributing to the West High athletic and activity fund making it possible for the school to carry on a more complete program of extra-curricular activities.

West High will get a very liberal commission on every subscription these student solicitors bring in. This offer will continue for three weeks. Be prepared to sign up when the student solicitor calls at your home. And too, remember that he will get a far better commission on his sale if you sign up for a full year's subscription.

Less Than 3c Per Week

Surely The Hilltop Record is worth much more than 3c per week to every family on the Hilltop. But that's what it will actually cost you if you take a subscription by the year and pay in advance.

This amount alone will be saved many times over through savings you will find in the advertising section of the paper each week. No Hilltop family can afford to be without it.

Statement From Principal

"Volunteers from our Journalism and Business Advertising classes and our active W Association members have agreed to help in The Hilltop Record subscription campaign.

"This work will give the members of these activities practical newspaper subscription experience and make it possible for them to render financial assistance to West High School athletics. Our students appreciate this educational opportunity."

Dr. H. H. Reighley, Principal
West High School.

Help West Make The Drive Successful

West High students who are participating in this drive are working for their school. West High needs funds to take care of their deficits in athletics and in order to meet an ever expanding athletic program that is not otherwise provided for in the regular educational program.

Each yearly subscription turned in to a West student means that the school will receive 50c. Then too, at the conclusion of the campaign, all students who have completed their agreed assignment will receive a commission on their sales and a $25 War Bond will be given the student having the best record of sales.

Churches, Lodges, Clubs, Etc.

Since the founding of The Record over 26 years ago every Church, Lodge or Club and organization in the community has had free access to its pages at all times.

We sincerely believe The Record has been a distinct asset in the building of the fine community spirit so evident on the Hilltop, and that we have a definite job to play in the future.

We are asking but a very small fee for subscriptions to The Hilltop Record. We sincerely believe you will not want to be without it.

Your cooperation in seeing that your members become subscribers will be greatly appreciated.

Preserve Your Receipt

When you have subscribed to The Record be careful to preserve your receipt. It is valuable to you.

And too, ask the person who solicits your subscription to show their card of identification. Unless the signature on the card tallies with that on your subscription please do not pay the solicitor.

Your Cooperation Appreciated

Students will start this solicitation campaign at once. When they call at your home you will be assisting them greatly if you will give them an immediate answer to their request that you subscribe. However, they are prepared to give you any information you may desire.

Your cooperation will be greatly appreciated.

While your subscription receipt states it is effective at once, your subscription will date from a time to be announced within a short time in The Record, at the conclusion of the circulation drive.

SOME OF OUR UNNECESSARY LUXURIES HELP MAKE 'EM ASK FOR MERCY

That new refrigerator you ordered — and couldn't get — has sprouted wings. Now it's part of a four-motored bomber carryiny "love letters" to the Axis!

Yes, and that new car you planned on has become a General Grant tank. Instead of speeding you to Yellowstone this summer, it's carrying a crew of hard-fighting, eager young men across the sands of Africa.

The same is true of a lot of other things we've been accustomed to. They've gone to war! Your radio, washing machine, vacuum cleaner, electric iron, your breakfast toaster, and many others—they're all first cousins to tanks and planes and ships and guns. Many of these weapons are being made on the same machines that used to turn out the household implements for your kitchen.

That's why it's so important to make the things you now have last for the duration. Chances are there just aren't any more where they came from. Either the materials that went into their manufacture are now needed to build fighting machines . . . or, the factories that made them are now busy producing goods for Uncle Sam's army and navy. The result is—civilians will have to go without until the war—and the Axis—is finished. So don't take chances on the things you now have. Keep them in working order.

There are men who fly and there are women who build planes so that others may fly. These are the patriotic women, the women who send their men off to war and go to work themselves. These are the women who don uniforms and slacks and who work 24 hours a day so that the men at the front may have the vital materials necessary for Victory. We salute these women!

Are You A Saboteur On Hallowe'en?

This article is printed in hopes it may bring to the youth of America a vision of what he or she can be on or before Hallowe'en, a real American or an ally to the Axis powers.

Hallowe'en has been so misinterpreted, and in the last decade has been used for rowdyism and destruction. It has been changing form and handed down to the youth of today, until in their life it is so much a reality that they feel they should destroy everything that is loose or that can be taken apart and carried. Today the Axis powers are smiling on this type of sabotage, because it helps weaken its foes, particularly our own America.

Our youth in the spirit of celebration do not realize this and in gangs going around on our streets feel that they have the full support of their parents to get even with the neighborhood grouch by taking his favorite garden tools ... anything that they can to ...

When we go out at night on or before the 31st day of October and destroy anything of value for a Hallowe'en prank, we are taking something away from our government. We are helping to destroy our second line of defense which must be carried along in our American homes.

Previously, it has taken days to re-adjust and replace damage, after Hallowe'en hoodlums have destroyed and done away with vital property which we must have to carry on one of the most important parts of our life, "Our Home." In the past we were able to buy and replace these articles but today that metal and material is going into our war effort.

Lutheran Hour To Be On Air Oct. 25 Over 391 Stations

ST. LOUIS (Special).—Opening its tenth season Sunday, October 25, on the largest group of stations ever to carry the program, the Lutheran Hour will again present the Bible messages of militant, two-fisted Dr. Walter A. Maier.

Dr. Maier

The 208 stations of the Mutual Broadcasting System and 23 independent stations will be joined in a coast-to-coast network, with Eastern stations broadcasting the program at 1:30 o'clock, the others at 4:00 o'clock Eastern War Time every Sunday afternoon. In addition, approximately 160 other stations—in the United States and many foreign lands—will broadcast the program by electrical transcriptions, some of them in the Spanish language. The program will also go out by short-...

Helps Troubled Listeners

While Dr. Maier is a full-time professor of Semitic languages at Concordia Seminary, and carries on his radio mission as a sideline to his everyday work, he has become the spiritual confidant of thousands of radio listeners. A single broadcast has brought him as many as 15,261 letters and in nine seasons on the air he has received more than a million letters. Widely noted for his books on Christian marriage and the home, and for his work among young people, his advice is eagerly sought in thousands of letters which Dr. Maier has aptly called his "problem mail."

Concordia Church assists in sponsoring the program through its Lutheran Laymen's League. It is heard locally over WHKC and WLW at 1:30 p. m.

Duncan Candidate On Judicial Ballot

Judge Robert P. Duncan is a candidate for re-election to the Common Pleas bench of Franklin County.

He served for four years as Prosecuting Attorney of Franklin County and has been on the Common Pleas bench for many years, and is known as the dean of the local bench, being the oldest judge in length of service.

Judge Duncan states that he is a firm believer in the jury system and the speedy administration of justice. He also believes in probation for offenders where their character and background justify a chance to make good, thus giving them an opportunity for rehabilitation and the support of their families.

Judge Duncan was born in Columbus on Aug. 29, 1883. He is a graduate of old Central High School, class of 1901, Princeton University, 1905, degree A. B., and Ohio State University Law School, 1908, and admitted to the bar in that year. He is married.

His name appears on the separate non-partisan judicial ballot.

WAR, TAXES
And The
PROPERTY OWNER
When military needs take men from homes and business, federal laws provide a measure of relief from taxes—and county taxes provide for part of the administration of such regulations.
When men are released from service they record their papers—county taxes provide a Recorder's Office.
When ex-service men need aid—county taxes provide for Soldiers' Relief.
What connection does the County Auditor have with these functions? He pays these bills, sees to it that, in the stress of increasing war time costs, expenditures are not authorized unless funds are on hand, administers and maintains the records and accounts.
PROPERTY TAXES constitute only a part of county revenue. In order to use available funds WITHOUT INCREASING TAXES, the County Auditor has brought about a $35,000 annual reduction in state hospital charges, required the use of $127,000 utility taxes for their intended county purposes without diversion, and devised means to pay off county debts with delinquent collections thus releasing funds for operating purposes.

Cowboys Meet North Today

West High Cowboys will meet the Polar Bears from North High School on West's athletic field this afternoon at 3:15. The starting line-up for today's game will be the same as last week when the Cowboys lost to Ironton with a score of 12 to 0, with the exception that Carter may go in for Richards.

North High School hasn't lost a game this season and West has yet to win one.

"They're a big, fast team," was Coach George Williams' only comment regarding the North High eleven.

Ira Blackwell took the ball on West's own 27 yard line and raced 73 yards across to Ironton's goal line in last week's game. The play was called back because a West back was in motion. Just before the game ended the Cowboys took the ball to the Ironton 30 yard line.

Weber Takes Kaye Prize

Dick Weber, a senior, recently won five dollars, two passes to the show, and an autographed baton, when he led Sammy Kaye's band at the Loew's Broad.

Two boys and two girls were chosen from the audience. Dick was the second one to try out; he led the band through the "Jersey Bounce."

Mr. Kaye asked his name, address, and where he went to school, and the reply was a loud applause from the West students in the audience.

Dear Mother:

Thanks for telling me about WETALENE. I like it fine. John is away on a defense job, he uses Wetalene for washing socks and underthings.

Mary.

Are You A Saboteur On Hallowe'en?

This article is printed in hopes it may bring to the youth of America a vision of what he or she can be on or before Hallowe'en, a real American or an aid to the Axis powers.

Hallowe'en has been so misinterpreted, and in the last decade has been used for rowdyism and destruction. It has been changing form and handed down to the youth of today, until in their life it is so much a reality that they feel they should destroy everything that is loose or that can be taken apart and carried. Today the Axis powers are smiling on this type of sabotage, because it helps weaken its foes, particularly our own America.

Our youth in the spirit of celebration do not realize this and in gangs going around on our streets feel that they have the full support of their parents to get even with the neighborhood grouch by taking his favorite garden tools and destroying what they can to get even with him for what they feel he has done to them! But let us not forget he plays his way in life and is an American.

When we go out at night on or before the 31st day of October and destroy anything of value for a Hallowe'en prank, we are taking something away from our government. We are helping to destroy our second line of defense which must be carried along in our American Homes.

Previously, it has taken days to re-adjust and replace damage, after Hallowe'en hoodlums have destroyed and done away with vital property which we must have to carry on one of the most important parts of our life. "Our Home." In the past we were able to buy and replace these articles but today that metal and material is going into our war effort.

We wish to impress upon each and every youth and adult in America that whoever destroys any garden tools, water hose, furniture, tires, paint, etc., or causes by blocking streets or highways a slow up of war production is just as guilty of sabotage as any enemy agent who tries to destroy our factories or war equipment or any part of our country.

We hope this message will reach into the mind and heart of every American in our land, and tend to slap the enemy in the face, by each and everyone of us real Americans taking a pledge to confine our Hallowe'en celebration to helping the needy and unfortunate in the spirit of our forefathers, for at least the duration of the war, and that we will not destroy anything of value to our homes and our country.

And we are sure that the boy who is too smart to heed this message and goes out on Hallowe'en night and helps the Axis powers by sabotage with destruction will on the first day of November awaken with a very unpatriotic memory to carry out to face his real American friends.

Duncan Candidate On Judicial Ballot

Judge Robert P. Duncan is a candidate for re-election to the Common Pleas bench of Franklin County.

He served for four years as Prosecuting Attorney of Franklin County and has been on the Common Pleas bench for many years, and is known as the dean of the local bench, being the oldest judge in length of service.

Judge Duncan states that he is a firm believer in the jury system and the speedy administration of justice. He also believes in probation for offenders where their character and background justify a chance to make good, thus giving them an opportunity for rehabilitation and the support of their families.

Judge Duncan was born in Columbus on Aug. 29, 1883. He is a graduate of old Central High School, class of 1901, Princeton University, 1905, degree A. B., and Ohio State University Law School, 1908, and admitted to the bar in that year. He is married.

His name appears on the separate non-partisan judicial ballot.

Rescue Home To Hold Services

Rev. Clifton Robinson

Harvest Home services will be held at the Friends Rescue Home, 245 N. Powell-av, Thursday, Oct. 29. The occasion begins with a prayer and praise service at 10 a. m. with the Rev. Herbert Frazier, pastor of the Hansberger Memorial Church, in charge.

At 2 p. m. the Rev. Clifton Robinson, pastor of West Park Friends Church in Cleveland, will bring the message. Lunch will be served at noon, and special music will intersperse all services.

The Rescue Home is one of the oldest missions in Columbus, and is well known throughout Ohio and the neighboring states. It is managed by a board appointed by the Ohio Yearly Meeting of Friends, of which Miss Matilda Stuart, principal of West Broad Street Elementary School is president. The work is a participating agency of the community fund. The public is invited to spend the day with the home, and to become acquainted with the work done.

Victory Service League Open

Membership in the Victory Service League, new patriotic alliance of motorists who are conserving their cars under war time operating plans, is open to owners of all makes of vehicles, according to John Keefer, manager of Rodenfels Chevrolet Co., sponsoring agency of the League in this community.

"Hundreds of car owners are now displaying the VSL emblem," he said. "The goal of the League is every car and truck operator in this vicinity. Not until every car and truck owner has pledged to conserve his car for his country can the VSL succeed fully.

"Chevrolet dealers nationally, more than 8,000 strong, are uniting in the sponsorship of the VSL," Keefer said. "However, the program is bigger than any one dealership or make of car—it is a national program with a principle of national importance, car conservation.

"The cars and trucks that are operating today are the vehicles that must 'pull us through' the duration. There are virtually no replacements available, and the average person cannot buy a new car or truck. Consequently, business and industry, and the successful prosecution of this war, are dependent upon the automotive transportation system as it is today. We must care for our cars for our country."

Members of the VSL may be recognized by the League emblem they display on their cars. This insignia is furnished free, Keefer said, at the time the members sign the VSL pledge. At that same time, he added, a free car conservation inspection is made.

A kindly visitor was one day going through an insane asylum. Presently he saw a fellow sitting beside a flower bed fishing with his line dropped among the plants. Thinking to humor the patient, the visitor asked, "How many have you caught so far, my poor fellow?"

"You're the ninth today," he said.

Citizenship Club Has Benefit Dinner

One hundred and twenty-five persons attended the chicken dinner held at Gladden Community House, 623 W. Town, Thursday night, Oct. 8. Proceeds of this dinner will go for the benefit of the "Boys in Service."

It was given by the West Side Citizenship Club. Members of this club are mostly aliens going to night school at Gladden Community House. Here they are learning about the government and studying to get their naturalization papers.

President of the club is Jack Smith, 608 Racine-av; secretary, Lucile Andreotte, 3011 Palmetto-av; treasurer, Angelo Avocella, 1171 McKinley-av. All other members are in committees who worked for this dinner. They are the following: Marie Fraganenta, Lucigia De Crignis, Antonio D'Aiutu, Mike Cameline, Leonardo Cupali, Gaetonio DeVito, Rose Marie DeVito, Joseph Melfi, Marcella Melfi, Ernest Menduni, Minnie Fraganeta, Salcatore DeVito, Margaret DeVito, Louise Gates, Domencio Gallechio, Carmen Camonsello, Patsy Resso, John Magy, Rose Policaro, Julia Brukaw, Terresa Vitali, Jake De Euifonis, Pete George, Helen Moore, Mr. Moore, Marie Wilem.

"MY HEAD IS HAZY ON HISTORY"

Teacher asked the direction to Stalingrad,
Also the Solomon Isles,
And I pointed so glad, but I missed 'em both.
Approximately two thousand miles.
Then he said to describe the Kalmyk Steppes
And my face with pride turned red.
I pointed to a hillside where the dead sleeps
And he almost fell over dead.
Then he said with a snap like a steel trap,
Define what we are fighting for,
I said the Jap wanted to use up the scrap
That we sold him for this war.
He said if I was going to a warmer climate,
Describe the direction to go,
And don't sprain your brain trying to rhyme it,
So I pointed straight down below.

Schools Observe Education Week Nov. 8 To 14

West High School, along with other schools in the nation, will observe American Education Week, November 8 to 14, according to a report made recently by Dr. H. H. Reighley.

"Education For Free Men" will be the general theme of the 1942 observance.

Urge Caution In Party Decorating

Some thought should be given now to the decorations that are to be used to brighten up the home for any parties that are planned for Hallowe'en.

If extra electric lights are to be used, the circuit should be checked to determine if the wires will safely carry the extra current. Only approved 15 amp. fuses should be used and where these fuses will not carry the load, extra wires should be installed direct from the fuse box.

Where temporary wiring is to be installed, the work should be done by a competent person, preferably a licensed electrician, and thus avoid the danger of a fire from this source.

The use of candles in the decorative scheme should be prohibited at all costs. Candles combined with the use of paper lanterns, imitation pumpkins and false faces are a definite fire hazard and when placed in the windows behind curtains they constitute a fire hazard unequalled in any other part of the house.

If the imitation pumpkins, lanterns, etc., are to be used the illuminattion should be confined to small electric bulbs. Even here care must be used that the light bulb does not come in contact with burnable material.

Fodder or other fast burning material should not be used for decorations either inside or outside the house. A carelessly dropped cigarette here may start a fire that could easily be out of control before the arrival of the fire fighting forces.

As an added precaution, Hallowe'en costumes should be rinsed in the flame proofing solution recommended by the Fire Prevention Bureau—1¾ pounds of boric acid and 1½ pounds of borax thoroughly mixed in three gallons of water. The solution will positively make the clothing fire resistant and will not affect the appearance of the fabric. It is estimated that two-thirds of the thousands of lives lost by fire each year are children. Everything possible should be done by the parents to avoid turning what otherwise would be a pleasant party into a funeral pyre.

Seniors Take Part In Fitness Program

Due to the fact that the majority of high school seniors are rapidly approaching the age of 18 which under the draft law now in the houses of Congress will mean many of the boys in these classes will be in the army soon a plan for preparedness has been devised by the school board whereby they will be ready for the service to their country, it was announced by Dr. H. H. Reighley, principal of West Senior High School, Tuesday.

A Physical Fitness Program is being arranged for the boys. They will meet in the athletic field each morning before school at eight o'clock for physical exercise to develop endurance. At this time it is said the program will not be compulsory.

The present Problems of Democracy course will be revised into a form of "global geography." This is for both the boys and girls of the 12-A. Other plans are being formulated in order that the boys who may in later months desire to enter the air branch of the army will have an opportunity to refresh their minds in mathematics of past semesters. Important among these are algebra, plane geometry and physics.

To date West High has put forth a Pry-flight Aeronautics course for those interested in connection with war activities.

The Hilltop Record

In Its 26th Continuous Year Of Community Service

Vol. XXVI, No. 28 | The Hilltop, Columbus, Ohio, Friday, October 30, 1942 | Total No. 1283

The Hilltop Will Miss Fred

News of the death of Fred Sulzberger comes as a shock to the entire community.

The Hilltop's "stormy petrel" is gone.

This was a title given Fred some years ago and best described his aggressive fighting attitude for all those things he thought were good for this community.

While there were many who have disagreed with him at times there were none who doubted his sincerity. In the number of years he was active in local civic affairs he contributed much energy to many projects that have since become realities for the Hilltop.

No Time For Beggars Night

Civilian Defense authorities are asking that beggars night be eliminated this year in view of the fact that there will be a city wide blackout tonight.

Parents are urged to cooperate with the Civilian Defense and keep their children at home. If they are out during the blackout the police and air raid wardens will make them take shelter somewhere.

Incidentally, Bernard Shoaf of the juvenile department of the city police, advises that vandalism in this community has been reduced 75% since the children have been cautioned that their Halloween pranks merely are an aid to the Axis.

Good Suggestion About Old Leaves

While the leaves of fall are tumbling down they add much to the beauty of fall but there comes the problem of what to do with them.

A friend comes in to suggest that residents of the community make a special effort to have them cleaned up and not allow them to stop up the gutters or flow down the sewers.

One good suggestion be made is to spread them across the garden or empty flower beds and cover them with a light layer of soil thus allowing them to decay.

A Very Low Rate

This week we received an ad from a group of political candidates. They are paying $10 for it. In addition to the ad they sent along enough publicity matter to fill $40 worth of space.

We've figured it out that by using all their free matter the rate they would have been paying for their total advertising would be 20c per inch. Needless to say, we just can't feel that enthusiastic about any political candidates.

Gathered Here and There:

Ralph Clements, genial Roman, and operator of that village's drug emporium, dropped in to inquire if the Romans could get the Hilltop Record and we advise him it won't be long now until we'll be prepared to take their subscriptions too. . . . The former Pat Hanley and hubby have moved to Camp Shelby where the latter is a second lt. . . . We'd like to know more about that golf game the boys are kidding Whitie Looker about. . . . Walter Davis and L. C. Marble are heading northward for a hunting trip into Canada comes the first of the week. . . . Marie Eddington, publisher of the North Side Herald is down Manhattan way this week. . . . Mildred Williams continues to improve at her home and hopes to be up and at em soon. . . . The Condon Sisters once took dancing lessons. . . . Homer Prince, Record linotyper, left Sunday for California where he will take a course in photography preparatory to becoming one of Uncle Sam's boys.

YARNELL TO AIR CORPS

Edward Yarnell June graduate of West High School, was one of four boys to pass an aviation test given to fourteen early this week. A member of the National Honor Society and L Society at West, Yarnell has been in ROTC training at Ohio State University for the past two quarters. He resides in the Tower Club on the campus.

Persons who are not using their cars are asked to keep their cars off the street and persons who will be away from their home are asked to see that all lights are out before they leave home.

Ray Hockman Is Killed

Tragedy pervaded two Hilltop homes Saturday afternoon when a passenger train struck the car in which Ray E. Hockman, 2651 Fisher-rd, and Cyril McGonigle were riding, killing Mr. Hockman and injuring Mr. McGonigle. The accident happened at the North Hague-av crossing of the Penn. R. R.

The impact which killed Hockman outright ripped down one of the flasher standards at the crossing and hurled the car 30 feet down the track. McGonigle, age 20, was critically injured. At the time of the accident two freight trains were waiting on either side of the crossing for the passenger train to come through. The lights were flashing, according to witnesses. Having just left the Columbus depot the train was bound for Richmond, Ind.

Hockman, age 40, had been a local trucking contractor for 22 years. He was driving at the time of the accident.

McGonigle was taken to Mt. Carmel Hospital where his condition is not good but slightly improved. He is an employe of the Kroger Grocery Co.

Funeral services for Hockman were held Wednesday afternoon at Glenwood M. E. Church with Rev. Joseph B. Shellhaas officiating. Interment was in Sunset Cemetery by Floyd Born.

Surviving are his wife, Mrs. Adelaide Hockman; a five-year-old daughter, Shelby Jean; his mother, Mrs. R. E. Hockman; sisters, Dora Hockman, Mrs. Amy Hodge, Mrs. Phina Rhoades, Melva Hockman and Mrs. Elsie Rhoades; brothers, Ross, Harry and John Hockman.

Cowboys Vs. Dayton At Homecoming

West High alumni will make their annual pilgrimage to the Powell Avenue institution next Friday to watch the West Cowboys engage the Dayton Roosevelt eleven in the Homecoming Game.

The engagement will be the third of a series of games between the two teams; the present standing tied at one all. In 1940, the Bucks shellacked the Daytonians 32 to 0, and dropped last year's game by a single touchdown, which came after a blocked kick in the final minute of the game.

Frankie Williams 12-A was named homecoming queen for West High School after an election held Monday. She lives at 75½ S. Warren-av.

In Miss Williams' court will be court will be Janice Moorehead, Bonnie Lear, Wanda Wagner and Ann McKee.

The Old Jinx Was Here

Failing to break the habit of dropping most of their games to North, the Cowboys were trimmed 40 to 7 by the marauding Maroons in last Friday's afternoon encounter.

West's lone tally came as the result of a pass to Richards who ran thirty yards to score. Carter kicked the extra point.

The heavy North team ripped the lighter West line to shreds but couldn't hold the Buck backs until they had driven into the Bears territory. Once West got into North's part of the field, they were stopped dead.

Hilltop girls are also urged to be present for the evening to provide dancing partners for the boys in uniform. Several hostesses are also needed and are asked to call Miss Bentz at the above number.

★ Give Your Subscription To The Hilltop Record To A West High Representative This Week-End ★

First week of The Hilltop Record subscription campaign will be concluded tomorrow and present indications are that results will be beyond expectations.

Nearly 75 West High students from the Journalism and Athletic Departments are conducting the drive and a liberal commission will go to the student athletic fund for each paid in advance subscription received. Each student also receives a commission and a grand prize of a $25 War Bond will be given the student turning in the most money for subscriptions.

Through Thursday a very small section of the Hilltop had been canvassed and students were being well received. Since there is no school today and Saturday the solicitors are planning to make a big drive to cover as much territory as possible.

In the meantime anyone desiring to sign up for the paper and have West High receive credit for it can do so by calling the Record office and giving the name and address. The lead will be turned over to the proper West solicitor and he or she will call at the home soon thereafter.

No definite date has been set for discontinuing the free distribution of The Record but it will become effective sometime at the conclusion of the present campaign and when all subscribers have been properly entered and routes completed.

After the present campaign is over guaranteed delivery of the paper will be made only to bonafide subscribers.

Rate of the paper is $1.50 per year if paid in advance, 90c for six months or 15c per month if the collector makes a monthly collection call. Papers will be mailed outside the Hilltop territory for $2.00 per year in advance.

COUNTY FRANKLIN AUDITOR COUNTY
N. A. Thatcher
Columbus, Ohio

To Property Owners and Those Interested In Local Government:

It is not uncommon to hear people use the expression "this tax business is too complicated for me." But, complicated or not, someone has to STUDY it; someone has to EXPLAIN it; someone has to WORK AT IT. That SOMEONE is the County Auditor. It is his study, his training, his experience, his knowledge and administration of the laws which add public value to the office and give confidence to the public.

About Tax Rates

To set tax rates involves a long series of technical and legal procedures. It involves establishment of tax values, preparation and compilation of a tax list, study and analysis of budgets of all tax districts, breaking down requests into the classes and limits allowed by law, adjustments for overlapping districts.
It is the knowledge, study and analysis devoted to this work which enables a County Auditor to prevent illegal levies and KEEP TAX RATES DOWN.

About Tax Values

Establishment of tax values involves preparation and maintenance of tax maps, obtaining and filing building permits, classification of types of structures, locating and viewing all construction work. It involves a knowledge of zoning regulations, property restrictions, rental conditions and neighborhood trends. It involves also a consideration of depreciation, obsolescence, and the relationship of new building values to older properties of the same kind.
Long experience in the study and consideration of these elements enables a County Auditor to make FAIR, REASONABLE APPRAISALS.

Property Owners In General

You know the consideration which this office has given to these problems. You know to what extent we have succeeded in preventing illegal increases in tax rates. You know the basic fairness of reasonable tax values.
Your approval of our efforts and policies will be greatly appreciated, especially so if such approval comes from your presence in a voting booth on November 3rd with a favorable vote for

A Victory Congress Needs A Victory Congressman

A. P. Lamneck is dedicated to vigorous prosecution of the war effort, so that Victory may come to the Allied Nations at the earliest possible moment. He is an experienced legislator, having served on many important committees in Congress.

Lamneck — Man of Vision

Four years before Japan attacked us at Pearl Harbor—back in 1937—he saw the shape of things to come. At that time he tried to stop shipments of scrap to Japan. Had Congress adopted his proposal, thousands of American lives might have been saved, as well as billions of American dollars.

Here's the Sad Story of His Opponent's Record

The tabulation below shows how the present incumbent voted on legislation vital to national defense and effective prosecution of the war. Because of this type of obstruction, this war will have been needlessly prolonged, the lives of American boys needlessly sacrificed. Replace this consistent obstruction with constructive effort by sending Lamneck to Congress.

HOW VORYS VOTED

	Yes	No.
FORTIFICATION OF GUAM—Failure to appropriate money for improvement of harbor facilities made the Japs' job of conquest easier.		X
ARMS EMBARGO REPEAL—A "no" vote made it impossible to ship arms to Great Britain after her declaration of war on Germany.		X
REVISION OF NEUTRALITY—A "no" vote was designed to keep the hands of American shipping tied.		X
FUNDS FOR MILITARY AIRPLANES—The issue, just two months before the fall of Poland, was: Should money be appropriated to build 1382 Army planes?		X
ENACTING DRAFT LAW—With the voluntary enlistment system broken down, conscription was the only practical method.		X
EXTENSION OF DRAFT LAW—A vote against extending period of service for draftees for 18 months would have disbanded the Army less than four months before Pearl Harbor.		X
LEND LEASE—If the democracies were to continue the fight against Hitler, liberal credit would have to be extended to them.		X
ARMING MERCHANT SHIPS—Such arming was necessary if lend-lease material were to be safely delivered to Great Britain.		X
REOPENING BELLIGERENT ZONES — Unless this modification were made, lend-lease material could not be delivered to countries fighting fascism.		X

What! Again? Another Vicious Levy! DEFEAT IT!

BECAUSE:

- This levy would be permanent.
- It is not earmarked for police or fire.
- Increased spending is seldom decreased.
- Piecemeal changes will destroy Charter.
- Levy contains sleepers and is misleading.
- They will destroy debt limitations, and other restraints on City Council.
- It alters fundamental City government.
- Tax spenders would fix tax rates.
- Voters would be signing blank check.
- Keep down local taxes to help win war.
- City should freeze non-essential spending.
- Ample city revenues available.
- Cuts in essential services unnecessary.
- No nuisance taxes necessary.
- State already pays for civilian defense.
- The City needs ECONOMY, not more taxes.
- Regulations permit increases in rent "where there has been a raise in local taxes."
- Business can pass tax to consumers. Tenants and Home Owners cannot.

What Will the 1943 Columbus Tax Rate Be?

Contrary to law, County Auditor Thatcher has refused to hold hearings of the Budget Commission to determine the 1943 tax rate. He knows the taxes in Columbus will be higher and this is his artful way of dodging the issue until after the November election.

Hilltop people do not like political subterfuge. Yet they will be contributing to such a program if they vote for the present county auditor next Tuesday.

Neither do they like political machines built up at taxpayers expense, yet that is what the Thatcher organization is doing. Hidden in the 1943 budget is a request by the auditor for $289,000 to conduct a reappraisal in 1943. In 1937 a partial reappraisal was conducted for $50,000 and in which a selected group of the auditor's own henchmen, called a policy committee, received $500 per month. How many of these $500 per month jobs does he intend to create out of the $289,000?

I promise, if I am elected that I will do the job fairly, honestly and economically.

Harry Viger Helps Conduct County Commissioners' Office Efficiently

The Board of County Commissioners are the business managers of the county and are the guardians of its interests and those of its citizens. They have charge of the county buildings, the county-wide road system and looking after property that is outside the territory of the municipalities. They have charge of the expenditure of money collected from the county by taxes, levies and assessments, seeing that proper expenditure is made and that no more is drawn from their constituents or is expended by the county officials than necessary.

HARRY T. VIGER

Native of Franklin County

Franklin County Commissioner Harry T. Viger, the subject of our sketch, was born in Columbus, February 8th, 1893, the son of Thomas and Florence Viger. Harry was one of eight children. His father emigrated to this country from Tunbridge Wells, England, when a young man of twenty. His mother, nee Florence Watkins, was a native of Franklin County, being descended from a pioneer family in this county. Watkins Road in Madison Township is named after her family.

The elder Viger was engaged in the meat business here and it was not long before young Harry was apprenticed in that enterprise. Before school and after school and on Saturdays the Vigers were set to work helping their father, whether it was sweeping out the meat shop, delivering orders, stuffing sausage or going out into the country and driving in, on foot, a herd of cattle. This common sight of a generation ago when cattle, hogs and sheep were driven through the city streets to the local slaughter houses has now completely passed from view. By reason of his liberally growing up in the meat business, Harry Viger has developed a fondness and liking for the industry and it was but natural that he should engage in the business in which he was admirably fitted by training, experience and aptitude. In the judging, selecting and marketing of meat and meat products he is considered an expert.

School Training

His elementary schooling was had at the Fulton Street School, later attending and graduating from the old East High School in 1901. While in high school he attained considerable prominence as a baseball player in fact it was while a member of East High's baseball team that the school won the Ohio State High School Baseball Championship. He continued his ball playing after graduation and was so well thought of that he was offered a contract to play with the Columbus Baseball Club. However, having then already launched his career as a meat dealer he turned down the contract. He maintained his interest in the sport and played semi-professional ball. The Clifford Stars and the strong interurban Texas managed by Jim Thorpe were teams with which he was identified.

After his graduation from High School he was connected for a short while with his father in the meat business, but at the age of nineteen he purchased his own meat marketing stand on Central Market where he has for over thirty-five years served the public. This fact, and of itself bespeaks the confidence the public has in him and in the merchandise he markets. This confidence is founded on his skill and ability to select and sell to his discriminating clientele the choicest cuts of meats. His reputation for honesty and fair dealing plus the fact that he has a pleasing personality have enabled him to build a fine and profitable business.

Keeps Politics Out

Politics and political questions have always interested him, from his boyhood days when he distributed political literature up to the present. His father was a staunch and militant Republican and it was but natural for Harry to be imbued with the same doctrine and political thought. Yet though he served two terms as County Commissioner, being elected in 1928 and defeated for re-election by a slight majority in the Roosevelt landslide of 1932, he has been exceptionally broad-minded in his dealings in that office, and has never permitted partisan politics to sway or bias his judgment in the determinations of those matters of the public's business coming before the Board. Rather he has endeavored to apply to the county's business the same principles of honesty and fair-dealing that have characterized the handling of his own business affairs. This attitude has found such favorable and popular reaction with the voters of Franklin County that when he ran for the office in 1938 he was returned to the office by a majority of over 10,000 votes and that against a strong incumbent.

Much of his strength politically, lies in the rural sentiment of the county, where because of his intimate acquaintance with farmers and farm problems he has enjoyed the confidence and support of the farmer electorate. His stand for economical government and his pronounced stand against the fee system for public officials has endeared him to many of our tax-conscious and tax paying citizens.

Has Many Interests

A Republican in politics he is a member of several ward clubs and the Buckeye Republican Club. In addition he is a member of Humbold Lodge of Masons; the Scottish Rite, Shrine and Grotto, besides membership in other civic organizations. Mr. Viger is a member of the St. Pauls Episcopal Church of this city. His favorite sport is baseball and if he can be said to have a hobby that hobby is his interest and love in the breeding and raising of fine livestock.

The Hilltop Record

In Its 26th Continuous Year Of Community Service

Vol. XXVI, No. 29 — The Hilltop, Columbus, Ohio, Friday, November 6, 1942 — Postal R[illegible]

Have You Subscribed Yet?

The Hilltop Record subscription campaign now being conducted by students of the Athletic and Journalism Departments of West High School is about to enter the third week.

As yet several thousand homes on the Hilltop have not been contacted but a complete survey of the community is scheduled to be completed before the conclusion of the campaign.

Persons who have not yet subscribed are reminded that by subscribing through an authorized West High solicitor the athletic department at the school will receive a liberal commission and the student also receives a commission. This money is badly needed by the school to [illegible]ay losses in athletic activities and to provide much needed equipment for the teams.

Students are also asked to determine from the prospect what parts of The Record are best liked by the reader and to report any comments so that the publisher of the paper may better determine a policy with regard to the selection of news.

Response to the campaign to date has been most gratifying and there is every indication that it will exceed the expectations of those in charge. Each day's reports are better.

The publisher of The Record again points out that the swing to paid circulation of the paper has become necessary because of the very extensive growth of the Hilltop and increased costs of producing the paper as well as a sharp decline in advertising revenues brought about by the war restrictions on merchandise sales.

All subscriptions will date as of a time to be announced at the conclusion of the campaign and from that time guaranteed delivery of the paper will be made only to those homes that are bonafide subscribers.

Anyone who has subscribed and does not receive his paper by 9:30 a. m. on Friday is asked to call The Record office, Ra. 1125, and a paper will be delivered to the home.

Subscription rate of the paper is $1.50 per year if paid in advance, six months for 90c or 15c per month by carrier boy collector.

Meet the Queen and Her Court

Pictured above are the queen and her court for West High School's homecoming this afternoon. They are, in the front row, left to right, Bonnie Lear, Queen Frankie Williams and Janice Moorehead. Back row, left to right, Wanda Wegner and Ann McKee.

Here's Proof That Democracy Will Survive

Regardless of what your personal feelings may be in the matter of individual candidates it can easily be resolved that Democracy can and will survive, after the election on Tuesday.

We have little to fear as long as the pendulum keeps swinging. We can become worried when it gets too far to one side and looks like it might not swing back.

Today the country is again united for a vigorous prosecution of the war; extra waste, sans red tape, sans politics. The American people have been looking forward to all the action that has been promised "after the election." Now let's go!

It Was Worth The Effort

The Jamboree show and dance sponsored by the Hilltop Business Men's Association this past Saturday night did not make a lot of money for the Army-Navy Relief but it can still be classified as a big success.

Anyone who attended the affair and witnessed the good time enjoyed by all soldiers present can testify that such a program was worth while.

Some 250 soldiers from Ft. Hayes and Lockbourne Airport were present for the show and then attended the dance.

A special word of appreciation is due National Transfer Co. and Snyder Trucking Co. for the donation of their trucks in transporting the boys from and to camp, and to all others who assisted in any manner.

Don't Blame The Grocer

From all reports it seems that many people are getting in their grocer's hair because he can't supply them with coffee. But don't be too quick to jump on the grocer. It is not his fault. This week, for example, wholesale houses of Columbus have no coffee to sell, the grocer can't buy it and therefore he has none to sell.

Rationing of this item is coming soon and in all probability the individual will be required to declare all coffee on hand. The HONEST ones will do so.

Uncle Sam is going to clamp down on some people who aren't just as honest as they might be in this matter, too. And you know the severity of the old man with the whiskers!

To Preserve A Free America

Grove Patterson, editor of the Toledo (Ohio) Blade, made a Newspaper Week address before the Los Angeles Advertising club and the Newspaper Publishers' association of that city, in which he expressed the meaning of the freedom of the press to American business. His statement should be read, not only by publishers and editors, but by every business man and by every American who be-

Hilltop Family Interned As Jap Prisoners of War

On Dec. 8, 1941, Mr. and Mrs. Howard Schlereth and their two children were to have sailed from the Orient for the United States but the day before was Dec. 7—Pearl Harbor.

Schlereth is the son of Mr. and Mrs. Andrew Schlereth, 247 S. Terrace-av, whose last word directly from their son and his family was a cable Dec. 29 in which he assured them he was safe. Since that time they have been interned by the Japanese government at Santo Thomas University, Manila, as prisoners of war. The official confirmation of this internment was sent to the United States from Japan recently.

Schlereth is an employe of an oil company in the east and came home every three years on a visit. This visit was to have begun on Dec. 8. He and his family were last home in 1938.

Mrs. Schlereth is the former Mary Virginia Hewitt, daughter of Mr. and Mrs. Guy Hewitt, formerly of the Hilltop. She is a graduate of West High School and he graduated from Aquinas. Both were graduated from Ohio State University in 1930.

Their children, Howard Jr. and Linda, are six and three years of age respectively.

Wm. Carter Named Steel Workers V. P.

William H. Carter, 2392 Palmeto-st, was elected vice president of the United Steel Workers of America, Local 2342, Buckeye Steel Casting Co., Tuesday. He is a graduate of West High School and has two brothers, George and Russell, in the armed forces.

Warren Carter, former West athlete, is also employed at the Buckeye Steel Casting So.

McGonigle Improves

Cyril McGonigle, age 20, son of Mr. and Mrs. Frank McGonigle, 138 S. Eureka-av, who was seriously injured in an auto-train wreck two weeks ago at the Hague-av crossing is reported improving in Mt. Carmel Hospital. His companion, Ray Hockman, was killed instantly.

West High Homecoming Program This Afternoon

West High School homecoming activities will begin this afternoon at 3:15 with a parade starting at W. Broad-st and Harris-av, which will escort the queen, Frankie Williams, and her court to Magly Field on S. Powell-av. The West eleven will play Dayton Roosevelt.

Preceding the game the varsity band will form a U. S. A. and from this position will play "The Star Spangled Banner" while the flag is raised. At this time the formation will change to U. S. N. and as taps are played the flag will be dropped to half mast, in memory of the late Coach George Collins.

At the half the queen and her court will be presented by student council president, John Brown.

The varsity band will form in sequence the H I G H (Dayton Roosevelt), W, and script WEST. After playing the alma mater in this formation the two bands will combine to form a huge hour glass, with the reserve band forming the "sand." To the strains of Auld Lange Syne the "sand" will sift to the bottom of the glass.

This game will mark the final appearance of the gridiron season of the West High marching band.

With this final show the band will have completed five marching programs for the season with a total of 27 marching formations.

This evening in the West High School gymnasium a homecoming dance will be held starting at 9 o'clock. The dance is being sponsored by the West High School Alumni Association. During the evening's entertainment the queen and her court will again be presented.

Playing before a homecoming crowd the West Cowboys will be all out to take their first victory of the season, by defeating the Dayton Roosevelt Teddies.

Although many West students are already in the services, many others are expected to attend the game which will undoubtedly be the last football homecoming they will see for a number of years.

Gingher To Speak

Paul Gingher, Civilian Defense head in Columbus, will be the guest speaker Tuesday Nov. 10, at the meeting of the Hilltop Business Men's Association. The meeting will begin at 6:45 p. m. at Schmelzer's Restaurant.

Ogborn Made Chief

Announcement was made this week by Safety Director Roy Weed of the promotion to fire chief of Clarence W. Ogborn, 314 N. Harris-av. He had been acting chief since Edward P. Welch, former chief, received a captain's commission in the army.

George Collins, Former West Coach, Dies of Pneumonia In Georgia

LT. GEORGE COLLINS

West High School's former coach, Lieut. (j. g.) George Collins died suddenly Saturday morning in an Athens, Ga., hospital of pneumonia. He was taken to the hospital the preceding Sunday. Collins, who was 32 years old left for the Navy last August after being assistant football and basketball coach at West for six years.

Collins was graduated from Ohio University where he played football, basketball and tennis. He was a member of the Beta Theta Pi Fraternity. He also belonged to the Masons.

While coaching at West Hilltop youngsters got to know Collins when he supervised the playground at Westgate Park in the summer.

With him at the time of his death were Lieut. Collins' wife, Vera; his mother, Mrs. Edward Collins of Fort Wayne, Ind., and a brother. He leaves two other brothers, Fred and Harry, who are in the Marines.

Before joining the Navy Collins and his wife made their home at 221 N. Hague-av. Funeral services were held in Sidney, O., Tuesday.

GOP Sweeps Election

A big swing to the Republican ticket was evidenced throughout the Hilltop in the Tuesday election as was true all over the state.

Biggest surprise perhaps in the entire county voting was the defeat of County Auditor Newton A. Thatcher by Fred Dunn. Thatcher, Hilltopper, was swept out of office by the tremendous tide of Republican votes.

The trend of the vote here is best indicated by the totals for governor. In the tenth ward there were 2509 votes for Bricker and 1542 for McSweeny while in the eleventh Bricker tallied 3766 to the 1604 for McSweeny.

The vote for congressman was 2003 for Vorys in the tenth and 1859 for Lamneck while in the eleventh it was 3087 for Vorys and 2142 for Lamneck.

Joseph C. Nailor, Hilltopper, was reelected to the state legislature by a vote of 56,235. Edward C. Turner was elected to the Ohio Supreme Court by a vote of 869,732.

Girls Have Two Bowling Leagues

Helen McCormick, girl's athletic instructress at West High School, has organized two bowling leagues at the school. There are 80 girls altogether under Miss McCormick's supervision. The girls bowl at the Hilltop Recreation Center.

At 4 p. m., Tuesday, the beginners bowl and at the same time Thursday the "veterans" bowl. Margie McCoy is secretary and Pat Kenavel, treasurer of the Thursday group and officers of Tuesday's group are Mary Alice Hyatt, secretary, and Betty Lou Lear, treasurer.

HOLD OPEN HOUSE

The Young People of Glenwood Methodist Church will hold open house Sunday evening, Nov. 8, beginning at 5 o'clock. The first part of the evening will be spent in the social room of the church. At 6:30, they will go to Motter Hall for a devotional period, followed by a play "The Legend of the Holy Grail." All young people are invited.

Many Violators During Blackout

Friday's blackout was not successful, according to war department officials. The West Side was rated as second worst in the city-wide trial blackout. Outstanding violations were neon signs left on in business places that wardens were unable to extinguish.

"There was a noticeable glow of lights on cars stopped at the city limits. We found complete cooperation of the residents," commented Russell Cunningham, Fifth Regional OCD, Cleveland, who was on the West Side during the blackout.

A woman at 385 S. Wheatland-av, was taken to Mt. Carmel Hospital during the event by the emergency squad for injuries sustained in a fall just before the blackout began.

The yellow alert signal came at 9:23 p. m.; the blue at 9:35; the red at 9:53, and the all-clear, 10:12.

Betty L. Beeson Reports To WAACS

Betty L. Beeson, 25 year-old daughter of Mr. and Mrs. Clarence W. Beeson, 110 N. Wayne-av, reported to Fort Des Moines, Ia., recently for training in the Women's Army Auxiliary Corps.

Miss Beeson was a former employe at Roberts. She graduated from South High School and has been attending Evening School classes in Central High School studying art. She left the city Tuesday for Iowa.

Ventola Wins In Snapshot Contest

S. J. Ventola, 602 S. Eureka-av, was one of the three Ohio contestants to win top place in the recent 1942 National Snapshot Contest sponsored by the Eastman Kodak Co. He was given $50 and a special merit award in class B which was the portrait class.

Ventola's subject was an aviatrix posed by Miss Penny Steece, 454 S. Terrace-av. He entitled his picture, "Give Them Wings."

Book Judged Best

"Window By The Sea," the book of poems by Tessa Sweazy Webb, published by The Hilltop Record on Sept. 25, was selected by the Ohioana Library poetry committee as the best verse book of the past year by an Ohio poet, or a poet born in Ohio, but now living elsewhere.

Because of this, Mrs. Webb represented the Ohio poets and spoke for them at the annual Ohioana Library meeting held in Columbus Oct. 24. This honor went to Ridgely Torrence of New York last year, who came back to accept it, and the year before, Jean Starr Untermeyer of New York came back to Columbus to accept the honor. Hilltop's Harper Family Are All Well Acquainted With The Military

By Jean Young

Duty, Honor, Country—To many people these are just three words but to Mr. and Mrs. C. F. Harper, 85 N. Terrace-av, and their two sons, Ralph and Bob, the words are almost life itself. These words are the motto of West Point.

Both boys have had a taste of military life at this school, the finest military academy in the country.

Ralph, the elder of the sons, attended Ohio State University after his graduation from West High School and then went on to the United States Military Academy at West Point. In his years there Harper met several people who today have found places on the front pages of the country's newspapers.

Collin Kelly, first hero of this war, was two years behind Harper at the Point. He performed many duties for Harper, who at that time was his senior. One of the things he did was to come into Harper's room in North Hall at West Point and close his window in the mornings. Harper's father, who gets the Point's year book, "The Howitzer," has the one for the year in which Capt. Kelly was graduated. Beneath the hero's picture he has written "Killed in action Dec. 10 in the Philippines."

Young Harper was active in sports while attending the academy and played football on the team there, and also boxed.

Upon his graduation June 12, 1935, Harper was commissioned into the cavalry. The renowned Douglas MacArthur was then adjutant general of the staff at West Point.

An inspiring ceremony which is staged the day before graduation is the tribute paid to Sylvanus Thayer, who is the "father" of the academy. The corps stands in formation beneath his statue and the stirring West Point hymn, "The Corps," is sung.

It seems that for a few days after graduation wedding bells tend to deafen the ears of those visiting the campus at that time. Most of these marriages take place in the chapel we were informed. Ralph is now a Lt. Colonel in the U. S. Army.

All branches of the service are fully represented in the Harper household. Bob is a master sergeant in the army while Ralph is a Lt. Colonel and is at present stationed with the armored division at Fort Riley, Kan.

Not to be outdone by her brothers in military service is Mrs. Wanda Harper Fenton, who is a nurse in the Marine Hospital in Chicago. Her husband, Russel, is a lieutenant, junior grade, in the United States Navy.

After visiting in the Harper home one leaves thoroughly convinced that West Point means as much to Mr. Harper as it does to his sons. The walls of the home are heavy with pictures of the Point and the tables hold numerous replicas. On his book shelves are volumes on the history of West Point and military tactics introduced there.

"DESTINATION UNKNOWN"

What will our soldiers be doing tomorrow?
Oh, where is my boy tonight?
Many fond hearts are burdened with sorrow
Why must they endure this blight?
I saw quite a few at the Union Station
Fond loyal friends at their side
Now sailing away to some foreign Nation
O'er the Ocean deep and wide.
No one knowing where they are going
Can only pray for a safe pathway,
Many young boys who are not done growing
Many with hair turning gray.
It is a very sad subject to ponder
Why must they suffer and die?
The Captain over all away up yonder
May some day ask us why.

South Trips Cowboys 18-0

The West Buckaroos started out of the corral like a bucking bronco in the game with South last Thursday. The Cowboys started on their own 35 yard line, and after an unsuccessful pass attempt reeled off three first downs, gained by runs of 20, 15 and 10 yards, to the South 10 where the Westerners got the jitters and fumbled three times in four downs. All of the fumbles were recovered by the Bucks, but they cost them an almost certain touchdown.

The loss of the ball on the Bulldog's 10 left the Cowboys in a state of mind that they couldn't shake off.

Failure of West passes were a major part of the 18-0 defeat, which saw South use them so effectively.

Good running by Blackmore, Richards and Byerly aided the West cause, but couldn't bring the ball into pay-dirt territory.

Soldier In India Writes Local Man Of Experiences In That Country

Alfred Mace, 25 Clarendon-av, has been corresponding for the past few months with an American soldier friend in India. Following are a few excerpts from two of the Corp. John J. Kuzbik's letters.

"We have very funny bed-fellows, such as, snakes (cobra and krate), spiders (mostly tarrantula), lizards about 20 inches long, centipedes, scorpions and a few other 'harmless' and 'friendly' animals! The snakes are not like the ones in the states: They will talk you instead of running for you. The cobra can run faster than the average man but as one of the negro boys on the ship said, 'When it gets started, it ain't as fast as I can run, it is as fast as it wants to run.'

"Have been to town a few times to do some shopping and get some recreation but found there is not a great deal of recreation. All one can do is walk through the town and try to shop. I say 'walk,' which is more or less an exaggeration. It is almost impossible to walk in India because of the throng of people. Scrimmage seems to be the word for it.

"Anyone in an American uniform is fair game for rug, jewel, whip, silk and slipper sellers. These gentlemen believe that retail trading should be conducted with violence. My sleeves are frayed from the physical pleading of these good fellows.

"The technique of the India merchant is interesting. Say that an air force private resplendent with insignia, scrimmages past a dealer in rugs. The dealer sends out one of his small male children as a task force. The small male task force seizes the private's arm. 'Hello, Johnny. Got rugs. Got rugs. Got rugs. It is impossible for Johnny to shake him off. Then the father rushes out 'Hello Johnny. Got rugs. Got rugs. Want buy rugs?' 'No,' Johnny says, but, this approach is useless. The only thing the private can do is hurl the clinging child to the street and scrimmage off through the crowds. The dealer cannot follow him, as he must watch his shop. All this is more tiring than drill or fatigue.

"Another source of annoyance is the heads of grubby children who follow him for blocks asking, 'No mama, no papa, Bucshee Sahib.' (In American it means alms, Mister). This cry, of course, is ridiculous. The children probably have mamas and papas who own blocks of apartment houses. It is practically death to give one of them money as once this is done the others really go to work on you. Then its every man for himself.

"Along the streets one can see bits of humanity that are distorted in such a manner that one could hardly recognize them as humans. I heard the story behind it, so I shall attempt to tell you, although it is rather hard. If the parents of a child in any manner, shape or form, have sinned, the religion they follow compels them to cause their child to get into a certain position and remain in same [illegible] his life. In one religion it is believed that if will hurt the parents more if they see their child deformed and helpless for the rest of his life in reprimand for their sons. Fantastic, but true."

More Letters Testify Record Popularity

Printed herewith are more excerpts from letters received in recent weeks from local people expressing their appreciation of The Record.

Harriett Huff, 2154 Sullivant-av, "Please find check for subscription to Hilltop Record. I wouldn't miss any of the daily papers as much as The Record and feel it is worth many times this subscription price."

Carl Smith, 836 Columbian-av: "Come Friday... no can find my Hilltop Record... so am lost. Why it dawns on me that I forgot to send in my $1.50 subscription. So here it is, for I don't want to be disappointed next Friday.... The biggest, the best, the newest neighborhood paper I know of."

Mrs. C. J. Uebing, 622 S. Terrace-av: "Please continue sending me The Hilltop Record as I am willing to subscribe for a year as the home news and ads mean so much to me. Thank you."

Mrs. Adam Brown: "My husband and myself enjoy reading the happenings of the Hilltop ... You can count on us and we sincerely hope the Record keeps coming our way."

C. S. Jacobs: "We want The Record to continue with us in full robust health and we receive its deserving share of our prosperity which it was largely instrumental in creating."

Mrs. Garnett Neal: "I would miss the paper very much as I have read it ever since it has been out, ... I for one will do my part." (Neil Beauty Shoppe)

Mrs. Ralph Cassell: "I am perfectly willing to pay the small fee for The Record, I enjoy it very much."

Mrs. Thomas Holliday, Josephine av: "We miss The Record very much and would be glad to pay for it. It is a fine newspaper and hope you continue to publish it."

9716 HAPPY HOMES ON THE HILLTOP

Our initial survey shows that within our delivery boundary there are at least this number of houses, each house is a home because you and I who live there make it just that and we know it is a happy home because it is on the Hilltop.

Looking back we take pride in the part we have played during the past years in making the Hilltop the kind of community it is.

While it is true that we have consistently tried to run a profitable paper, we have always tried to give plenty of space to news and items of interest even at considerable cost to ourselves.

Now we are in a campaign which will make it possible to improve the paper and make it of more value to you than before.

Students of West High School, working to raise funds for the Athletic Department, will be calling on you asking for your subscription within a few days. You will be helping The Record, the student, West High and yourself if you take time to learn what the plan is and if you feel that 3c a week is not too much for YOUR community paper then give your subscription to the student.

Annual Reunion of Franklinton School Students Held Tonight

The annual reunion of Franklinton School at Sandusky and Broad sts, is scheduled for this evening at 8 o'clock.

The following story was written by Bernice Miriam Strader, 284 Columbian-av, school historian:

The Old School Calls

Tonight on Memory's walls are many pictures, and as I pass along, gazing at each one, I pause a little longer before one which is very clearly outlined; as I feast my eyes upon it, the days and nights of 31 years pass away and I am a little girl, listening for the music of Franklinton School's dear old bell which says to me "Hurry, run quick to school and don't be late."

This same old bell hung in the Old Court House and is a cherished symbol of the school days of thousands of boys and girls of four and five generations who answered its call.

I, who attended the Franklinton School, well remember especially my dear teacher, Miss Margaret Getz, and to her I wish to pay a tribute. It seems but yesterday that I read these words on her blackboard: "Count that day lost whose low descending sun views from thy hand no worthy action done."

So, with the memory of her who taught me the value of worthy deeds and the music of the old bell, my inspiration to invite all the former pupils of our school to meet with us, causes my pen to speed over the white pages to bring a message to one and all.

The President of The Franklinton School Reunion is Neath Jones and he has set the date for this get-together time for us to renew the friendships of long ago. The time is 8 o'clock on Nov. 6 in the evening.

And now for a bit of history: Lucas Sullivant, founder of the town of Franklinton, came from Virginia, built the first schoolhouse which was 15 feet square. He hired most of the teachers and when the Franklinton township was divided into five districts the first Court House was built. This was used for a school then. Later the Franklinton school [illegible] was built.

As I am a descendant of one of the oldest pioneer families which came to Franklinton in 1797, I have always been interested in the historical importance of the locality in which my ancestors settled and my mother wrote many interesting anecdotes of the early pioneer days.

I am enclosing a poem written by her in 1897 in commemoration of the first white child born in Franklinton.

On a bright spring morning in ninety-seven,
As the sun shone out in the eastern heaven.
Lending the rose her brightest hue,
Tinting the hilltops with diamond dew,
There rose in the rude log hut a wail,
A strange new sound, from where did it hail?

In the fireplace corner away from the damp,
In a hewed out log from the sugar camp,
On a mossy pillow, in coonskin wrap,
In a dainty slip and a bobinet cap
A sweet girl babe in this cradle lay;
Her blue eyes wide with the open day.

Her garments had come from a home in the east
Snugly stowed in the lid of the old walnut chest,
To the new forest home in Ohio so wild,
Where our pioneers cherished their first-born child.
Comely and strong grew the maiden fair;
Learned to spin, weave, and sew with greatest care.

This poem was published in The Franklin County History and has been treasured by me for all these years.

"EPRISALS ON PRISONERS"

Punishing prisoners will avail them nothing,
Only hurry retribution and doom
Our soldiers will die in the water and sky
Rather than endure a living tomb.
The Huns are ignoring all laws of humanity
Frantically grabbing at a straw
It is the last spasm to ward off calamity
Disregarding International law.
When prisoners come to us they come among MEN
In any old kind of dialect,
We will fight for right as we see the light
But prisoners we treat with respect.
If the Nazi now wants to commit atrocities;
I am speaking to the Jap and the Hun.
Step out and fight with your vaunted might
And not vent spite on men with no gun.

Library News

The Ri[illegible] Adventures of Sonia was planned [illegible] assistance Lincoln Skinner and [illegible] under the [illegible] of S. V. Benet and [illegible] Carmer. Each book was written by a different [illegible]. They are similar in that they are full of absorbing tales of American history. The events brought to life by these capable authors against the background they know so thoroughly, transpired on the banks and in the valleys of these great rivers.

The first of the series is the "Kennebec — Cradle of Americans," so called because many people were reared in that part of Maine who helped to settle the far Western states.

"The Upper Mississippi" by Hayghurst follows the beginning of the great Father of Waters in a terrible wilderness state.

"The James," written by a native of Virginia, is the history of the state, with its interesting characters, from the settlement of Jamestown through the story of the Confederacy to Virginia of today.

"The Hudson"—the sixth one to be written, is a thrilling story of the Empire State including the hardships of the early settlers of the great metropolis.

W. E. Wilson, Indiana, born, relates the history of the Indian Wars and describes the setting of Lincoln's early life in "The Wabash."

"The Arkansas" is exciting history of different periods including gold discovery, the land rush, cattle days and the suffering of the share croppers.

"The Delaware" — significant river of the eastern seaboard involves the land of William Penn and the Declaration of American Freedom.

"The Charles"—companionable river with its painters, poets and philosophers living beside it, boasts of the first American college and the building and launching of the ship Constitution.

These eight books of the Rivers of America Series are available at the Hilltop Branch Library, 21 N. Hague-av.

"Requirements Of An Editor"

What are the requirements of Editors
What duties do they perform?
Some say that they pay all creditors
And are experts on reform.
They put all the news in print
And they never are in doubt.
But they tell me—their responsibility
Is to keep the news out.

And they never pay any creditors
But usually try to dodge them?
And they say all news Editors
Have to use great strategem.
They sigh one week and try the next week
To get the paper on the street
Put on a bluff when readers get tough
Their requirements are fast feet.

Don't Forget The Boys at the Front

Every week we hear from some boy in camp or in the front lines who has some word to say about the news from back home . . . the news he has received through The Record.

As one mother put it: "It would be impossible for a mother to sit down and write all the home community news to her boy. So I write the news of the family and send him The Record for all the neighborhood news."

We also believe it is good business for local merchants to ask their customers to mail their copy of the paper to a boy in the service. We believe he wants to know who is carrying on back home.

Many customers of local firms are in the service. They will still be customers when they return if they see the local man's advertising messages in the meantime.

From Here and There: Mrs. C. O. Cramer and daughter Marilyn have joined the doctor in Louisiana. . . . The Sterling Good'e recently returned from visiting their son in the air corps in California and while there had a visit with former Hilltopper Dr. J. H. Czatt. . . . Members of the H. B. M. A. had a treat at their meeting Tuesday p. m. at Schmelzer's . . . an extra cup of coffee. . . . John Riepenhoff bought an Ingersol watch when he left for France in world war one and it kept perfect time until he stepped off the boat in Boston on his return. It stopped and he hasn't bothered to get a watch since. . . . Dr. P. L. Cordray was once a school teacher at East Hi. . . . Mrs. Irvin White Heaton visited this week with her brother, Tom Lewis, enroute to her home in Florida after visiting her son in the navy on the west coast.

Keeping The Home Fires Burning

The Hilltop Business Men's Association is to be congratulated on the announcement that they will sponsor their annual banquet for the West High football team this year.

Many former West boys are serving in the armed forces on distant fronts today. It should be gratifying to them to know that these men back on the home front are carrying on and maintaining the institutions they left behind.

Certainly we folks back home owe it to the boys in the front lines to keep the home fires burning until they return.

Cowboys To Meet Central Team Today

By Harold Mers

The West Cowboys will still be trying for their first victory on the gridiron this season, Friday afternoon, when they go to Central for the football finale for this year.

Having dropped all of their games to date, the Bucks will be all out for victory over the Pirates, last year's defending champs, who are out of the 1943 title picture.

About the only bright spot in West's shellacking by a heavy Dayton Roosevelt eleven was that the team which played the last half of the game was composed of sophomores and juniors who will be back next year. The subs held the Teddies to seven points, while the varsity had 18 scored against them.

Here's the Sked

Claude Henley, six-foot, 180 lb. fullback, was too much for the light West line. He clicked off yards consistently and scored on runs of 47 and 98 yards, running from behind his own goal line on the latter play.

West's sole score came as a result of a fake kick by Dayton, which backfired and the resulting fumble and recovery in the end-zone, gave the Cowboys two points.

Emergency Medical Corps Asks For More Volunteers On The Hilltop

Further evidence of the need of members in the Emergency Medical Unit on the Hilltop was evidenced Wednesday evening at the meeting at West Gate Temple when it was pointed out that the eleventh ward alone should have five sections and each section to have at least 34 members.

At present the eleventh ward has about half that number. Sixty were present at the Wednesday meeting.

Reminder was given of the District No. 4, Mass Meeting to be held on Wednesday, Nov. 18, at the Glenwood Shelter House at which time two of the squads will put on some of their work, and during the meeting a suitable moving picture will be shown by C. H. Webber.

1454 Names

Names make the news.

Last week a total of 1454 Hilltoppers had their names in The Hilltop Record, and made news for the many readers of the paper.

Every week hundreds of names appear in The Record to make it a newsy paper.

Because The Record does carry so many newsy items about people and organizations of the community we have felt it is well worth the $1.50 per year we are asking for it in the subscription campaign now being conducted.

The facts are these: The Record will not be distributed free regularly after the first of the year to Hilltop homes unless they are bonafide subscribers. If you do not choose to pay in advance at $1.50 for the year or 90c for six months you may have the paper by paying a Record representative 15c per month when he makes regularly scheduled collections.

Right now West High students from the journalism and athletic departments are conducting the drive and will receive a very liberal commission for the school athletic fund for all paid in advance subscriptions they receive. This money is needed by the school.

If you have not been called on for your subscription please call The Record office and a representative will be sent to your home to take care of your subscription.

Voluntary Meat Sharing Is Urged

A voluntary program of "sharing the meat" is being announced by Claude R. Wickard, secretary of agriculture and chairman of the foods requirement committee, according to word received here Tuesday by Ray G. Hauntz, vice president of the National Retail Grocers Association.

"Farmers and food trades have produced a record volume of meat," says Wickard's telegram. "However, demands of our armed forces, our allies and our hard working civilian population are even larger than the great supply.

"Civilian sharing with our armed forces and allies is brought about by government order limiting deliveries to stores and restaurants. Now consumers should voluntarily share the civilian supply equitably among themselves. Consumer rationing will follow as soon as plans are completed. For the present each person should limit himself to his fair share."

Car Owners Seeking Supplemental Gas Rations For Driving To and From Work Must "Share the Ride" with Co-Workers

Autoists who expect to apply for supplemental rations to enable them to drive to and from work should make plans now to share rides with others needing transportation to their jobs, C. C. Hartley, chairman of the local War Price and Rationing Board, declared today.

"Car sharing has been made an integral part of the mileage rationing program because it is the most effective means of providing essential transportation on a minimum amount of rubber," he said. "To get more than the basic A ration a car owner must form a car-sharing club to carry at least three other persons to and from work, or prove that he cannot do so."

The rationing board chairman suggested that car owners get together with their neighbors on some car sharing plan, or with fellow employees at the plant of office. If two or more cars are to be used in the clubs, members may divide up the use of those cars to suit their conveniences. Supplemental rations will then be issued each vehicle for mileage to meet its obligations.

The club must be formed before the application for a supplemental ration is submitted to the board. In fact, signatures of all members must appear on the application, and applicants must certify that they will carry through their part in the car club agreement.

Supplemental applications may be secured at the time the car owner applies for his A book and this application must be presented at John Burroughs School sometime during the week of Nov. 23-28.

The basic books will provide mileage for 240 miles a month. If the person to whom the ration is issued intends to use his car for driving to work, or in connections with his work, he will be expected to consider 150 miles a month of his ration available for such driving. The remaining 90 miles a month may be reserved for such essential family travel as driving children to school, or sick persons to the doctor, etc.

Applicants for supplemental rations will first need to prove that they need more than the 150 miles of occupational driving provided in the A book. Secondly, they will need to show that they have formed a car club. If they do not form a such a club, they must prove they cannot do so, and that alternative means of transportation are inadequate.

All applicants for a supplemental ration will use the same form. The board will decide whether the ration granted should be in the form of a "B" or a "C" book. The "B" book, in addition to the A book provides for a maximum of 470 miles of occupational driving a month. Mileage for more than 470 miles a month requires a C book. But only drivers performing services regarded as essential to the war effort or the public welfare will be eligible for C rations.

Those drivers entitled to preferred mileage through C rations must meet the car sharing requirements, the same as other applicants for supplemental rations.

Teachers Instruct Classes In Model Airplane Building

C. F. Bateman, H. G. Trout, and C. H. Miller are organizing classes to build small scale model airplanes of wood for the Navy.

The Navy sent instructions for the building of these models. The average length of time to build one of these models is about four weeks. A majority of the work is done in school, although some may be done at home.

The models are then sent to the Navy and the Bureau of Aeronautics, where they are used for training airplane spotters, and numerous other purposes.

Students last year completed about 150 models which passed a very rigid inspection.

The models must be perfect before they are accepted by the Navy.

Highway Department Building Program

Announcement is made by the Ohio Department of Highways that 6,695 more miles of road have been built or improved than was the case in the previous four years.

Highway Director Hal G. Sours said the figures for this year in highway construction and other improvements go only to Sept. 22. The highway program calls for the letting of many contracts before the end of the year, so the totals for 1942 will be of larger proportion.

Advises Motorists Not To Hoard Gasoline

The danger of careless gasoline storage was voiced today by Fire Chief Clarence Ogborn when attention was called to the possibility of motorists laying in an extra supply of gasoline in an effort to thwart gasoline rationing.

Chief Ogborn said that any storage of gasoline inside the city limits must conform with the regulations contained in the City Ordinance covering such storage, and called attention to sections 413 and 414 of the City Code, which state:

Section 413—"No person, firm or corporation shall store, or permit to be stored, within the city of Columbus, Ohio, any gasoline, naphtha or other inflammable volitile in a building used for any other purpose, except when contained in a vapor proof supply tank or gasoline machine, automobile, gasoline stove, or other appliance supplied with a vapor proof tank, and except as provided for in other sections of this subdivision."

Section 414—"All cans, drums, barrels, tanks or other receptacles hereafter installed in which gasoline, naphtha or other inflammable volitile is to be stored or handled may be placed above ground under the conditions hereinafter prescribed.

"Such receptacles if made to hold not more than three gallons, shall be placed and kept at least 10 feet from any other building. If such receptacles are made to hold more than three gallons, but not more than 10, it shall be placed in a well ventilated box or building, not exceeding one story and basement in height, which box or building shall be used exclusively for the storage of gasoline, naphtha or other inflammable volitiles, and will be located not less than 10 feet from any other building, unless permission, signed by the chief of the fire department or his deputy, is given in writing to otherwise locate the same, and no such box, building or receptacles shall be used, until the chief of the fire department or his deputy, shall be notified and shall have inspected and approved the same in writing for such use."

Chief Ogborn points out that 46 fires were caused by the careless use of gasoline during the normal year of 1941, and that 15 fires occurred during the same period in filling stations where exceptional precautions are observed in the handling and storage of gasoline.

Tests made by the National Board of Fire Underwriters indicate that one gallon of gasoline, properly vaporized, will equal in explosive power, about 85 sticks of dynamite, the chief said, and any let down in the safety regulations would be foolhardy.

'40 Grad, U. S. Marine, In South Seas

"United States Marine of the Week," that is the title bestowed upon Dan Bigelow by West High School.

On Oct. 18, a story from the South Pacific told how the "Quincy", the ship Bigelow was on, had been torpedoed by the Japs and how he was picked up by an American ship. Soon after his rescue, the "Quincy" sank.

Later from Honolulu he wrote his mother that "It was all in a day's work with us Marines."

Now comes another nation-wide broadcast to Brig. General Robert Denig from "Pvt. Daniel C. Bigelow, of Columbus, Ohio:

"I was with the Leathernecks against the Japs in the Solomon Islands and I can promise you folks at home this: the more war bonds you buy the more we'll be able to do out here in the fighting zones."

The treasury department believes a statement like that from a Marine who has been in the thick of the fighting, cannot help but have a great effect on the sale of war bonds.

Dan's younger brother, Marvin, is in the Navy.

He lives at 723 Doyle Street when home.

Band Parent's Club Plans Card Party

Jasper Dean And Wife Recall Old Time Hilltop With Horse Drawn Cars

By Jean Young

A familiar scene on the Hilltop for many years was Jasper Dean going down Broad-st with his black buggy and gray horse, "Billy." Jasper at that time was watchman at the West Side Lumber Co. His faithful horse was with him the first night he went to work at the lumber company and on the last night after 37 years service there "Billy" pulled him home in his buggy.

Jasper is now 86 years old and no longer works at the lumber company but his mind is alert to many things that have transpired on the Hilltop in the past 52 years and some happenings in Rome, O.

Before going to the lumber company to work Jasper had a blacksmith shop at Hague-av and W. Broad-st.

"I remember a few of the better known men who used to come into my shop," he recalled. "There was Lew Haldy, William Harris and Joe Ong."

Mrs. Dean contributed to the interview by telling us of the old horse cars that would come only to the top of the hill and stop. She also told us about the time the fire engine house on Broad-st had horse drawn engines.

"The fire house wasn't very busy in those days because there was nothing on the Hilltop to burn," she smiled.

One of the old "landmarks" on the Hilltop was the Four Mile House which as nearly as Jasper could figure stood where Chase-av is now.

"Oh, I remember that well," Mrs. Dean said. "It was a long white story and a half building. I lived in Rome and when my sisters and I would come to Columbus in the springwagon we would always stop at the Four Mile House to water the horse and refresh ourselves. It was a long ride from Rome in just a springwagon in those days."

"Tell her about the Indians that you used to see," prompted Jasper.

"There isn't much to tell about that only that the Indians would pass our house in Rome and camp in woods near by. They never harmed anyone."

Jasper informed us that at one time the State Hospital grounds were fenced in with a rail fence. It wasn't until about 1912 that the present iron fence was erected, he said.

Another vivid recollection of the Dean's is the old toll gate which stood at Wheatland-av. The money taken at this gate was used to pay for the highway.

Jasper was born in Pickaway County between Shadesville and Grove City. One of the earliest remembrances of his boyhood was the returning of the Civil War soldiers.

"I mind very little about the war but I do remember seeing some soldiers coming home. They marched right passed our house."

Mrs. Dean said she can't recall much of the ceremony but she does remember the time a few Rebel soldiers were buried in the Confederate Cemetery on Sullivant-av.

Ten years ago Jasper suffered a stroke of the right side and a short time later he fell and broke his left leg. It has been bedridden for three years. The elderly couple make their home at 69 N. Wayne-av, where they have lived 36 years.

OSU Air Offense Keyed For Illinois

Ohio State's rebounding Bucks, preparing for their important Western Conference game against mighty Illinois in Cleveland municipal stadium Saturday, paid special attention to their new-found air offense in three early-week practice sessions. This is the first time that 2 Western Conference teams have played their game in any other stadium than one of the schools.

Head Coach Paul Brown weighed the costs of Ohio's 50-19 win over Pittsburgh against statistics on his team's performance and put his pencil on "yards gained by passing" as the brightest, most "encouraging development. The Buckeyes' air game "came of age" against the Panthers. While previously, in its first six games, the battering Bucks had won five and lost one with four-fifths of their offense based on rushing, in the Pitt game their passing game nearly matched their rushing game.

"That's a little more as it should be," said Brown. "Too many of our touchdowns have come the hard way—by pounding our heads off. If our air game can be kept sharp against Illinois and the remainder of the season, we'll go further—faster!" But on the debit side of the victory over Pitt, Brown pointed to the serious injury of the Bucks' brilliant, spot-running halfback, Robert Frye, and left halfback, Bill Durtschi.

All seven Ohio backfield men who helped fill the air with passes against Pitt came in for heavy throwing practice this week and are expected to see action against Illinois.

Curtiss Produces New Axis-Smashers

A trio of America's newest warplanes, designed to carry the war to the enemy, hunt him down and smash him, are these Curtiss types lined up outside the Columbus plant of the Curtiss-Wright Corp. The big new Curtiss Helldiver dive bomber (left) and Curtiss Seagull scout-observation plane (right) are both dwarfed by a visiting Curtiss Commando troop transport.

Here's the Story of What's Behind That Good Old Columbus Water That Flows From Your Fawcets

Mayor Floyd F. Green revealed Saturday that the department of public service, headed by Director Grover F. Clements, has inaugurated a research division to make public information of interest to the citizens of Columbus.

"Beginning with the division of water, Director Clements outlined the highlights of that important department since the plant was built in 1904. He said, "No department comes closer to our public than the division of water, and for that reason alone you should be proud of the Columbus water system."

Water Once Muddy

Prior to the time the purification plant was built, the water supply of Columbus was not safe for drinking, the mayor pointed out. "It was polluted with sewage, always was turbid and following heavy rains was extremely muddy." The mayor's statement follows:

"The plant was built in 1904 and was provided with ficilities for softening and filtration. The design was so elastic that the operating process could be modified without making elaborate changes. As a result of this flexibility the plant is being operated now as effectively as the most recently built plants. No extensive or costly additions and changes have been required to accomplish this; it has never been necessary to shut down for repairs, changes or enlargements.

"The plant has been shut down completely only once since it was put in operation. This was necessary during the 1913 flood, when one of the force mains, laid in the river bed, was washed out, making it impossible to maintain pressure in the distributing system, and this shutdown lasted for only eight hours.

Plant Enlarged in '23

"In 1923 the plant was enlarged by the addition of eight 3,000,000 gallon per day filters and the capacity of the filtered water reservoir was increased from 10,000,000 to 16,500,000 gallons. With this enlargement it is possible to soften and filter 55,000,000 gallons per day. This plant is the largest complete water softening works in the world.

"Your water supply is not 'doped' with chemicals. Many laymen believe that lime used in the softening process makes water hard, but this is not true, unless too much or too little lime is used in the treatment process.

"Lime, when added to water in the proper proportions, is itself completely precipitated and, in addition, precipitates the soluble calcium and magnesium salts already present in the water being treated. These precipitates may be removed easily by sedimentation or filtration.

Scioto Is Source

"For each pound of lime used approximately three and one-half pounds of solids are precipitated. It is a process whereby something may be taken from the water rather than adding to it.

"The Scioto River is the source of the entire water supply of the city. The water of this stream is not at any time satisfactory for all uses without proper corrective treatment which consists of clarifying with alum, softening with lime and soda ash, filtering through sand, and sterilizing with chlorine, and deodorizing when needed with chlorine or activated carbon or both.

Half-Year's Supply

"In volume the flow of the Scioto is at times far short of the needs of the city and for this reason water is stored in the Griggs and O'Shaughnessy reservoirs for use during drought periods. The volume of water stored is equal roughly to one-half of a year's supply.

After the water has been softened and purified, it is pumped into a distribution system to which are attached service connections for each individual user.

"The distribution system consists of cast iron pipe varying in diameter from four inches to 42 inches and the pipes are laid in the streets of the city to a depth of three and one-half feet in order to prevent freezing.

745 Miles of Pipe

"There are 745 miles of pipeline and 210 miles of service connections valued at more than seven million dollars.

"The use of water per customer varies widely, the minimum for Columbus being about 80 gallons per day and the maximum about 2,000,000 gallons per day.

"During 1941 the smallest daily use by the entire city was 27,700,000 gallons, the largest use was 48,000,000 gallons and the average use was 35,900,000 gallons.

"The statehouse grounds are 10 acres in area and the average daily use of water if stored on these grounds would require a depth of 11 feet.

"There are a number of facts about our water supply that ordinarily pass unnoticed.

"1. The city spends annually more than $200,000 for chemicals to purify and soften the water and for coal to pump it to all parts of the city.

"2. The free service amounts to more than $100,000 per year.

"3. The public water supply has been eliminated as a source of typhoid fever.

"4. Water is delivered to consumers for less than four cents per ton.

"5. A person can buy more water for one cent (120 pounds) than he can carry. This cannot be said of any other commodity.

"6. If a person drinks one-half gallon of water per day, the cost of his drinking water for one year will be 2.9 cents, or in other words, the cost of one chocolate soda is equivalent to the cost of drinking water for one person for five and one-half years.

Records Smashed in '41

"The year 1941 was a record-breaking one for the division of water of the city of Columbus. More water was pumped to Columbus homes and factories in 1941 than ever before in the history of the water department. Water was supplied to 71,200 homes and 2,700 commercial and industrial plants.

"The receipts, also the largest in history, totaled $1,592,000. This increase in receipts was due to greater pumpage to industrial and defense plants and several thousand additional homes.

"Naturally, with increased use of water, the personnel of the department has been enlarged. However, a survey of the entire department shows only an 18 per cent increase over the 1939 personnel, which is a small increase compared to the additional work accomplished. In 1939 there were 7689 units of work completed while in 1941 there were 27,127 units completed. The increase in personnel occurred in the river patrol, municipal zoo, purification works, shop, office and outside assignments.

Self-Supporting

"The water division is one of the most efficiently operated departments in the city. It is self-supporting, as can be seen by comparing the total receipts for 1941, $1,592,000, with the total budget for the department in 1942, $1,506,000.

"The division of water has for the past 25 years paid all of its running expense and bond charges from its own revenue and has never, during that period, received one penny of tax money.

No Poison

"Don't worry about your water system being poisoned. Since we have been at war there have been rumors of saboteurs placing arsenic in the reservoirs. In order to pollute the entire reservoirs, 215 tons of arsenic would have to be used and to poison one day's supply of water, six tons of arsenic would be needed.

"Beyond the impossibility of any one individual, or group of individuals possessing that much arsenic, the water stays in the filtration plant 16 hours before being pumped to users and is thoroughly tested during that period for arsenic and other poisons."

When will you cease to be?

You spread worry and woe,
When'll you cease and leave us in peace,
Why not stay at your Home below?

The answers came, take the toll of doom
You must endure the gloom,

Troop 45 To Start Patrol Contest

At West Junior High School, Thursday, Troop 45 began its inter-patrol contest which is held every year about this time. This contest will be based on regular scout activities.

When this contest begins each patrol will be given a certain thing to do. At the following meeting the patrols will be called upon to show what they know about their particular assignment and are graded with points accordingly.

It is expected that the duration of this contest will be several weeks at the end of which the winning patrol will receive a prize.

Several members of Troop 45 participated in the city-wide blackout. Bob Kenworth had the honor of working as a messenger at the city hall which was Control center for the blackout.

Troop 45's meetings have been held since the beginning of this semester in Room 2, West High School, but now they are meeting in their regular room which is 218.

Commando Course,

12A Class Takes War Training

Math, Geography Included

By Bill James

Every morning at 8:00 A. M. the 12A boys of West High School all the way from Jack Underman down to Jim McElwee may be seen on the athletic field going through their physical fitness program.

The object of this program is to build up endurance. Designed by Paul V. McNutt, head of division of man-power, the program at West is under the supervision of Coach G. B. Williams.

The boys usually start the morning off with a two lap jaunt around the track, equivalent to one-half mile; then, comes the obstacle hurdling, jumping, over and under wooden horses, running between and on logs, and last, a seven-foot wall to scale; broad jumps follows; preceeding up onto the stadium to do a little stepping and they go to the showers. Some mornings you might see the boys in Westgate trying some cross-country.

P. O. D. is just a schedule mark now to the 12A boys and girls as they have cast the democracy text books aside to take up the study of geography and war government. This course is under the instruction of Mr. George Neeb and Mr. Harold Washburn.

The war zones and their geographical positions in comparison with the United States and other important points will be emphasized particularly. Weather conditions and their causes, importance of various districts in natural resources will also be given attention.

A mathematical computation course for the promotion of speed and accuracy is well under way, according to Miss Maude Davis, the teacher in this subject. Boys in the trigonometery classes are excused from this course.

The 12A boys taking the course are listed below:

C. Adams, J. Baird, B. Bates, F. Boullion, J. Brown, G. Burton, D. Davies, J. Evans, P. Haughn, B. Ingham, B. James, W. Kerns, D. Lerch, B. Lilley, G. Marsh, B. Overmyer, R. Piper, J. Schluep, O. Shade, D. Smith, H. Stewart, S. Taylor.

Rigid Rules Made For Blackout Permission

Before a city will be granted permission to hold a trial blackout in the future, it must comply with rigid rules and regulations announced today by the Ohio State Council of Defense.

To obtain an inspection, the local defense corps must comply with the following requirements; Possess a control center with trained staff; a full complement of trained air raid wardens and sufficient air raid warden posts to cover city; sufficient trained auxiliary police to protect city; have trained auxiliary firemen, fire watchers, messengers, drivers' corps and emergency medical units; other units such as demolition and clearance, road repair, decontamination and nurses' aides, should be organized and the personnel trained.

Civilian Defense Launch Block Plan

Seeking to enroll every household in the nation's war program, the Ohio State Council of Defense today layed the groundwork for one of its largest jobs by asking local defense council to appoint a Chief of Civilian War Services and to immediately launch the Block Plan.

The order, issued by State Defense Director Ralph H. Stone sets into motion a plan to organize every neighborhood and mobilize every man, woman and child behind the various civilian war services.

Stone said "the Block Plan seeks to encourage a clearer understanding by all people of the reasons behind our civilian war efforts and to develop a neighborly spirit of cooperation for war service."

SAVE YOUR GAS

Don't Let Your Heating Plant Rob You of Precious Fuel

This winter, more than ever before, it's imperative for you to keep your heating plant in excellent condition . . . to save as much fuel as you can for war purposes. Inefficient heating plants make it possible for precious heat to escape up the chimney. Air leaks in your furnace waste fuel too. Appropriate places are provided for supplying air to every furnace and if air enters at other points the combustion process is upset.

Heating plant inefficiency wastes money for you. . . . It wastes vital transportation needed in the production of tanks, planes, guns, and ships.

These conditions make it absolutely necessary for all of us to save fuel in every way possible.

But heating plant efficiency is only one of the methods of conservation. There are a variety of things you can do to reduce heat loss in your house. Insulation of attic or roof and side walls . . . installation of storm windows and doors . . . weather stripping . . . and calking are all effective ways to reduce fuel consumption and save you money.

Fuel oil will be rationed this winter . . . but that doesn't mean that those who use coal, coke, gas, or electricity should feel free to use as much heating power as they wish. The war effort comes first! All kinds of fuel must be saved . . . to help relieve the transportation situation . . . and to help speed America on to Victory.

WHY SHORTAGES OCCUR

When "Shortages" occur, they are as much a hardship for us as they are for you. But we should remember this important fact; The chief reason why there are shortages these days is because foods are being diverted from the regular channels and going to supply the needs of our fighting boys at the various war fronts . . . and to the millions of men training in the armed forces of the U. S. . . . and to hungry people in the United Nations throughout the world. In spite of your personal difficulties, we believe that you will agree with us that the food needs of America's fighting men supersede all other considerations. And of equal importance is the necessity of supplying enough foodstuffs to our embattled allies and their civilian populations to keep the flame of resistance burning fiercely.

Yes, it is true that food is one of the most important weapons in winning the war. Recognition of that fact means that each of us must sacrifice a little for the common cause. The sacrifice which you and we are making in solving the problem of merchandise shortages is in reality a contribution to the war effort. Let's work it out together.

Assembly Tuesday Shows Student's Place

West Jr. had its fourth assembly of the semester Tuesday. The assembly was an Armistice Day one and attempted to show things about the last war and to show the student's place in the present war. It also honored the 8B's and 9B's who made a 3.5 average in the 7th and 8th grades. Paul Layman was master of ceremonies. He gave a very interesting speech on changes in school, college, and the adult world since the war. He also explained the curriculum as it is beset with changes in the war.

There were two songs from the old war sung at the first of the program. They were "Long, Long Trail" and "Keep the Home Fires Burning." Different speakers told a few things about the subjects which are offered at West Jr. and their importance in the war. Then Frances Tannehill and Fred Findeis explained how the 3.5 average is figured. Next Dick Ison, who made Excelsior last semester, introduced the students who made the 3.5 average. At the end of the program there were two songs sung from the present war. They were "When the Lights Go On Again" and "The White Cliffs of Dover."

The Uruguayan constitution requires that in all international treaties to which Uruguay may become a party, the republic shall propose a clause providing for arbitration or other peaceful settlement of all disputes.

The Uruguayan flag consists of four horizontal blue stripes in a white field, and a sun placed in a white square in the upper corner nearest the staff. This sun appears also as the crest of the republic's shield. The shield is oval and divided into four quarters; in one square is a pair of scales symbolizing equality and justice; in another is the mountain of Montevideo symbol of power; a third shows a horse running loose, symbol of liberty; and in the fourth an ox is portrayed, depicting plenty.

Longest range Ohio State University football fan reported so far this season is M. L. Kasselman, an alumnus, who has been getting the games on his radio at Telaviv, Palestine. Ohio soldiers stationed in that area have been gathering at the Kasselman home for football parties—although the time difference is such that it's the middle of the night in that part of the world.

MATCH YOUR FOOD TO AUTUMN'S MOOD

It's time to put away summer's fluffy foods, those light, lacy salads and foamy frills for dessert, and once again make your menus sturdy as autumn tweed and hearty with homespun flavor. Serve a spicy stew or casserole that echoes the tingle and tangle of this exciting season. Berries are now piersant bygones and the spicy autumn fruits—the pear, the plum and the apple—will take their place in pies and plump pastries. Bake a batch of cookies as crisp as the crackel of leaves underfoot.

Here are a few heartins that chime with the change of season.

MODERN POETRY

Edited by Esther Weakley

CONTRAST

At times I have been lonely as
The steeple of a country church
At myrtle dusk,
My heart an aching Alcatraz,
Though friends were near, my loneliness
A bitter musk.

And I've known moments full and rich
As midnight sky cluttered up with stars
Splashed on the blue,
And utter peace. As though bewitched
I've quaffed contentment nothing mars
Alone with you.

Mary Hamilhammi,
In The Dream Shop.

DEDICATION

I pledge allegiance to the Flag
(He is young, O God, and strong.)
of the United States of America
(I've need of courage and song.)
and to the Republic for which it stands,
(Courage to guard against a day . . .)
one nation indivisible,
(Was that a tear I brushed away?)
with liberty and justice
(I must not weep—)
for all.
(I pray Thee, God, Thy vigil keep.)

Quita Hackney,
In Florida Magazine of Verse.

EPITAPH OF A POETASTER

A pest I was in three degrees
To friends who laid me by these trees.

For some knew well the minor soul
Could never feel the great waves roll.

Some plotted flight to far atolls.
Ha! verses? Grown-up play with dolls!

The kindest found me most a pest,
Previewing verse no welcome test . . .

Should they approve before a Critic
Pronounced it sound, or else rachitic?

In three degrees I was a pest;
Now I lie here friends, too, may rest.

Katherine Foster
In Contemporary Poetry.

"FATHER WILLIAM"
(Revised)

You are old, Father William, and you must soon pass away
Are you ready for that serious day?
Father William said, in my youth I stuck to the truth
Only occasionally made a sinful display.
Although I am older, don't you get any bolder
And be careful what you say
It is true I am old, and I don't like to scold
But you may be first to pass away.

You are old, Father William, and you are lame and bent
Is it because of booze?
My son it's the truth, in the days of my youth
Many dollars for booze I spent,
I always got tight, nearly every Saturday night
But I always got out of the vat,
You are just a young fool, stubborn as a mule
And you won't ever get over that.

THE STARS

Emblems of divinity
Guardians of infinity
Keepers of eternity
Sentinels of immortality.

HARVEST
(Jer. 8-20)

And now the summer is ended;
The seeds of my yesterday sown.
By my harvest of wheat—or tares—
Soon, I shall be known.

In addition to some 430,000,000 acres of commercial forest land in this country, there are about 168,000,000 acres o fnon-commercial forests.

"SUBSTITUTES"

For the duration—is a recitation
Everybody can now recite
Out of stock everything is in hock
Use substitutes day and night.
We can't get a phone, nothing can we own
And they say we must save
I had to yap, when they asked for scrap
Coz everything is scrap I have.

Doctors all gone and I can't set a bone
My head is commencing to ring
Our hope any more is the corner drug store
They have substitutes for everything.
They've made us tramps—buying war stamps
But this is what makes me weep?
We'll read vey soon—about the next moon
They have a substitute for sleep.

—C. S. Parks.

"MRS. CHIPS"

Grocers Urge New Buy-For-a-Week Plan

Announcement is made by the independent grocers that new canned merchandise is coming in with prices very little higher than in recent years.

It has been suggested by grocers for customers to "Buy-for-a-week" plan. All you do is plan out in advance the foods you will need for a week. Then buy as many of them as you can in one grocery order. Not just canned foods—but other groceries too.

Every useless trip to the store you DON'T make saves time and waste. It saves extra deliveries and work for your grocer. It's a cooperative helpful idea that multiplied by millions could well make a difference in our total war effort.

Out in California the natives are mighty proud of their state's giant Redwood trees and occasionally their stories about them are as tall as the trees themselves.

"Big trees? Why out our way they felled a hollow tree over a ravine that was too deep and wide to build a bridge across. One day when I was driving through this tree with a trailer, I met a big moving van coming through from the other end. I couldn't back up or go ahead, so I just edged the trailer into a hollow branch and let the other fellow go past."

The freighter had broken away from its convoy during the night. It carried a highly important cargo, so a destroyer was sent out next morning to search for and shepherd the vagrant. Finally they found her, ploughing her own course. The destroyer's skipper, not at all pleased at the delay, drew within distance and hailed the freighter's old man. "Captain Livingstone, I presume," he shouted.

He—"Have you ever loved and lost?"

She—"No, the jury awarded me $10,000 heart balm."

FOODS for Fighting Trim

CANTEEN COOKIES

The boy in an army camp welcomes nothing more than letters and boxes from home. While Uncle Sam provides him with plenty of nourishing foods, he certainly would like to receive in your next box a batch of these

Canteen Cookies

½ cup margarine
¾ teaspoon salt
1 tablespoon grated orange rind
2 tablespoons orange juice
1 cup brown sugar, firmly packed or ¼ cup corn syrup, ¼ cup sugar
2 eggs, unbeaten
2 cups sifted flour
1 teaspoon baking powder
¼ teaspoon soda
½ cup nuts, chopped
1 seven-or eight-ounce bar semi-sweet or bitter-sweet chocolate cut in pieces

Blend margarine, salt, rind, and juice. Add brown sugar gradually and cream well. Add eggs, singly, beating well after each addition.

Sift flour with baking powder and soda. Add to creamed mixture and mix thoroughly. Add nuts and chocolate and blend. Drop from tablespoon on margarine-coated baking sheets. Bake in moderate oven (375° F.) 10 to 12 minutes. Makes 3½ dozen.

Other favorite recipes are found in a full-color, 32-page cookbook "Foods for Fighting Trim." Send to National Cotton Council, Box 18, Memphis, Tennessee.

Amusements

Loew's Ohio

Added feature is "Priorities on Parade," musical with Bob Hope's stooges, Vera Vague and Jerry Colonna, plus blonde Betty Rhodes and tap-dancing Ann Miller.

Loew's Broad

Loew's Broad is now showing the colorful musical romance, "Cairo," with Jeanette MacDonald singing several songs to Robert Young, who believes she is a spy. Miss MacDonald sings "Beautiful Chin," "Avalon," "The Waltz Is Over" and many more. Added feature is the Joe E. Brown comedy, "The Daring Young Man."

IN MEMORIAM
In loving memory of our dear father and husband, THOMAS V. ARMSTRONG, who died two years ago, November 12, 1940:

His smiling way and pleasant face
Are a pleasure to recall,
He had a kindly word for each
And died beloved by all.

Some day, we hope to meet him
Some day, we know not when,
To clasp his hand in the better land
Never to part again.
—Sadly missed by wife and children.

The sea is feline. It licks your feet—it's huge flanks purr very pleasant for you; but it will crack your bones and eat you, for all that, and wipe the crimsoned foam from its jaws as if nothing had happened.—O. W. HOLMES.

Applause is the spur of noble minds, the end and aim of weak ones.—C. C. COLTON.

Too bad, but just as autos were held down to the speed which nervous elderly people like there is practically no more motoring.

The Spectator

About Gas Rationing . . .

By this time you have probably joined the populace in signing up for an A book for your gasoline.

And no doubt many of you will make application this coming week for your supplementary rations (extra gas).

Some 300 people have volunteered their services in the coming week and many of them will work eight hours or more per day for five days.

If there are about 8000 applications to be handled at John Burroughs School next week the chances are there will be about 8000 different sets of circumstances to be figured out.

This is going to require much time and thought on the part of these workers. They will appreciate your cooperation. They are following instructions as set up by O. P. A. authorities in Washington. If you do or do not get as much gas as you want will not be because of any personal feelings of those who are acting on your case.

Present indications are that many people must cut down their mileage considerably. This is a war time necessity. Your cooperation will mean a lot.

Burgess, stops in to pay for a yearly sub to the Record and remarks that she wouln't do without it after having read it since the first issue came out over 26 years ago. . . . still waiting for one of those deer steaks from that group of Canadian hunters. . . . Sight on Broad-st: Three ladies walking side by side with one about three feet from the other two. . . . seems the two had partaken of a spaghetti dinner a la garlic the night before. . . . Dr. H. H. WINS IN CONTEST

Loretta A. Young, 197 Guernsey-av, was the third prize winner of $75 in the Taystee Bread Co's football contest.

Get A Ride Or Riders This Way

Have you a ride to and from work?

Gas rationing makes its essential for you to carry three or more passengers regularly if you expect to get additional gas.

One way to accomplish this is to advertise in The Hilltop Record want ads. If you want a ride or want riders the cost will be very small.

Why not investigate today by calling The Record, Ra. 1125.

Remember want ads must be in not later than 2 p. m. Monday in order to get in next week's issue on account of the Thanksgiving holiday.

Union Thanks Program Is Planned

Several Hilltop Churches will unite to observe Thanksgiving Day in a union service at Hoge Memorial Presbyterian Church, Thursday morning, Nov. 26, at 10 o'clock, with Rev. A. J. Wold, pastor of the host church, presiding.

As in former years these services are sponsored by the Hilltop Ministers Association and represents the cooperative program of the Hilltop churches.

The sermon will be delivered by Rev. Clayton F. Lutz, pastor of the Burgess Avenue U. B. Church. Special music will be furnished by the Hoge Memorial Church choir under the direction of W. Haydn Jones with Fern Buckingham at the organ.

A special thank offering will be taken and proceeds given to the religious work at the Franklin County T. B. Sanitarium and the Union City Mission.

Rev. W. E. Secsholtz, pastor of the St. Paul's Evangelical Congregational Church, is president of the Ministerium with Rev. Herbert A. Handy serving as its secretary.

There will be a union service Thanksgiving morning at the Oakley Avenue Baptist Church at 7 o'clock.

Rev. M. E. Nelson, pastor of the Wheatland Avenue Methodist Church, will preach.

Price Control Aids Family Says Hauntz

Ray G. Hauntz, Hilltop grocer, told the Columbus Town Meeting Monday night at the YMCA that even though price control is a help to housewives it is a genuine "headache" to retail grocers.

As vice president of the American Association of Retail Grocers Haunts stated:

"A multiplicity of headaches are forced upon the retail grocer by this one federal agency alone, the Office of Price Administration. There are so many different patterns under which retail grocers are required to fix ceiling prices, keep records, make reports and unnecessary red tape."

He went on to say, "the principle of the price control act and the fine work of the Office of Price Administration have done more to put more food at less cost in that food basket of yours than anything else in the history of the nation."

Subject for Monday night's discussion was "How Do Price Control and Rationing Affect Your Food Basket?" The program was broadcast over radio station WCOL.

Band Parents Card Party Tonite

Plans for the card party were made by Mrs. Alban Gulcher, club president, Mrs. R. A. Boyer, ways and means chairman, with the following ladies assisting: Mesdames Dollison, Bennett, Best, Hagans, Fishinger, Gubach, Patterson, Taylor and Dale.

VFW Will Have Box Social Dec. 5

Admission will be a well filled box for two. Members and their friends are cordially invited. The meeting of Nov. 26, Thanksgiving Day, has been postponed until Dec. 10 at 8:30 p. m.

Keidel On Board

A. C. Keidel, 51 S. Westgate-av, has been named Price Advisor for the West Side War Price and Ration Board, according to C. C. Hartley, chairman of the board.

News Items — Material of strictly news value will be taken at the Record office until Monday morning.

Want Ads—Classified advertising will be taken until 2 p. m. Monday.

Cowboys Finish At Bottom

By Harold Merz

Prospects for a pretty fair basketball squad erased some of the gloom manifest around the Powell-av athletic plant during the past several months, as the Cowboys suffered their worst season of football in many years.

The Westerners lost all of their nine games but their hopes for the coming season are somewhat brighter as the underclass prospects seem to be of a higher calibre, or may be by the time they have had another year's practice under their belts.

In the final game of their schedule, the Cowboys played fine football, one of their better games this season, but lost to the Central Pirates, 6 to 0.

Although the Bucks were outrushed by more than fifty yards, they were superior in the air, and on a drive in the final seconds of the first half, saw an aerial from Dick Gilmore to Ira Blackwell, set them up on the Buccaneers' three.

An inconsistent pass and an unsuccessful line plunge were all the plays time allowed, and the Cowboys never seriously threatened during the rest of the game.

Charles Hall and Blackwell played bang-up defensive games, and the line work and down-field blocking on the part of the whole team was noticeably better than in most previous games.

Playing in the last game were: Dahlen, Andrews, Beard, Alban, Davies, Clark, Hall, Byerly, Gilmore (C), Blackwell, Richards, Parks, Ours, Mowery, Sonner, Embleton, Carter.

Seek Medical Corps Volunteers

By Ruth Thompson

"Believe me, I wouldn't take First Aid or join the Medical Corps. I know a girl who worked in a defense plant and who completed her First Aid Training. They sent for her to come to some other part of the country and she had to go where they sent her."

These words, spoken at a ladies' club meeting right here in Columbus by one of the members, are an example of the ignorance of a lot of people concerning the activities of the Civilian Defense organization. The result? None of these ladies present at the club meeting will offer their services to Civilian Defense.

The Emergency Medical Corps was organized to protect the home first—your own neighborhood.

Each section of the Medical Corps has established a First Aid Post. In the event of an emergency, such as an air raid, there will be on duty at the Post three squads of seven members each and a captain. If there should be an accident within the territory governed by the Post, a squad of trained Red Cross workers will be dispatched to take care of the victims.

The Emergency Medical Corps has no connection with the Army Medical Corps. Those who are members are assigned to duty in their own neighborhood. They will not be sent anywhere.

Those who persist in spreading rumors of this kind may well be classed as Fifth Columnists. They not only are undermining the efforts of our country to protect us in case of invasion but also the morale of our civilians.

The Emergency Medical Corps needs more men and women. Anyone interested and patriotic enough to aid in Civilian Defense is asked to call RA. 3373. They will be trained at the earliest opportunity.

"Invaders" Fail In Attempt To Take Sullivant Ave. Airport

—Courtesy Ohio State Journal

—Courtesy Ohio State Journal

The above photo shows attack planes swooping over the field. Below is CAP Lt. Seymour Whitelow defending his position with a cannon.

There was a "battle" fought at the Sullivant Avenue Airport Sunday by the Civil Air Patrol. Hangers and runways were "bombed" and personnel was "strafed" by the foe.

It was the first large scale test of the CAP in Columbus which was rated as being "extremely successful." The object was to test the strength and efficiency of the airport defense preparations. Sullivant Avenue's Civil Air Patrol squadrons, 518-4 and 518-1 defended the port and fliers and ground forces from CAP squadron 518-3 of Norton Field did the attacking.

Observers and judges for the "attack" were staff officers of Civil Air Patrol Group 518. The defenders point of 101 was one point over the attackers.

Commanding the 80 CAP members in the escapade were CAP Lt. Herbert Stump, Norton Field, commander of squadron 518-3, leading the invaders, and Lt. Edward Arn and Lt. Foster Lane, commanders of squadrons 518-4, and 518-1 of Sullivant-av, managing the defense.

Ammunition for the maneuvers was small sacks of flour which fell from six hedge-hopping attack planes a few minutes after an invader reconnaissance plane circled the field. Six hits were made on the circle in the field representing the port's hangers and nine other flour sack bombs were dropped on runways.

In the meantime two jeeps carrying invaders struck at the northwest corner of the field, but the crews were captured before "damaging" fuel tanks and aircraft or injuring defending personnel.

Warning to defending forces of new air or ground attacks was given by a siren on Lt. Arn's commanding car.

The patrol has been spending several months in intensive training for this trial fight.

In the past months the Civil Air Patrol has been providing submarine patrol planes and pilots for the country's coast lines, forest fire patrol, courier and passenger service in emergencies for war industries, governmental, military and naval officials. The patrol also guards vital pipe lines as well as giving flight and ground training, navigation, meteorology, code, first aid and other courses necessary to the war effort.

Those Seeking More Gas Must Register At John Burroughs School Next Week

Auto owners who have not yet registered and received their "A" gasoline books which entitles them to four gallons of gas per week, may do so today at the Hilltop public school nearest their home. The school registration stations will be open from 1 to 4 p. m. today only.

Present indications are that a great number of persons who have registered for their basic rations of gasoline will apply for supplementary rations on one of the registration days this coming week. Hundreds of applications for the supplementary rations have been handed out at the schools this week.

Ira Claggett, chairman of the gasoline panel of the local ration board, stated this week that all is in readiness to handle the many excepted applicants this next week. Other members of the panel are D. E. Jacques and Herbert Kunzi.

All applications for supplementary rations by Hilltop and West Side residents will be made at one station only . . . John Burroughs School. Applications will be received beginning Monday, Nov. 23, and continue daily from 1 to 5 p. m. and from 6 to 9 p. m. through the week except Thanksgiving Day.

Persons who expect to make application for the extra gas are asked to have their applications properly filled out when they come to the registration station.

Nearly 300 volunteer workers have been trained to handle the many expected applications.

Based on figures provided from the eastern states where rationing has been in effect for some time there will be approximately 80% of the persons who have received "A" books who will apply for additional gas. Figures from the east also show that of this number only 18% receive B books and 12% receive C books. Of the total number applying about 70% are not allowed additional mileage.

C. C. Hartley, chairman of the local ration board, this week pointed out that as many of the applications will be handled during the registration hours as possible but that the board has the privilege of withholding final action on any and all applications and that it may be necessary in many instances to advise the applicant by mail if the application has been approved. He also urged the cooperation of the public in the processing of the many applications and pointed out that all the work is being done by volunteer workers and that they will be rendering decisions based on the facts presented by the applicant, such decisions being backed by set regulations handed down by the office of price administration.

OPA regulations provide that "if the mileage allowed by a Basic ration is not adequate to meet a person's needs for occupational driving, he may, under certain circumstances be issued a supplemental ration."

With but very few exceptions car owners and drivers will not be allowed more than 470 miles per month of occupational driving.

Preferred mileage in excess of 470 miles per month will be limited to a small group of workers and individuals who are considered vital to the war effort or the public welfare. Preferred mileage is allowed by a "C" book.

Persons using gasoline for cleaning or other commercial uses must also make application for their needs next week and should ask for an "Off the Highway" application.

Business firms operating trucks must present their Certificates of War Necessity at the same location this next week in order to receive their coupons. They will be granted coupons for the amount of gasoline indicated on their certificates.

Doctors Urge Public To Cooperate

Doctors of the Hilltop and West Side need the hearty cooperation of every family in this community.

On account of the loss of many doctors to the army it has come to the place where a very few are left to care for the needs of the many residents of the community.

Hilltop and West Side doctors have pooled their resources and are doing all in their power to care for the needs of the community.

Starting this week they are carrying a series of messages in The Hilltop Record outlining how the public may cooperate in the program to the best advantage of all. The first of the series is printed on page three today. Read it and those to follow.

Apostolic Church Will Celebrate 25th Anniversary Next Tuesday

It was just 25 years ago when a Columbus business man, Mr. W. T. Witherspoon, organized a small group of people into a religious body who took the name "The Apostolic Gospel Church." The group was only about 15 strong and the first quarters were humble ones indeed. A small frame building at 30 Brehl-av, seating about 75 people became their first place of worship.

In later years this small number was doubled in size, and then doubled again until the need for larger quarters was felt. Accordingly they built the church at 50 Hayden-av. As time went on and the congregation continued to increase, this building was enlarged to more than twice its original size. By this time, Mr. Witherspoon was devoting his entire time and efforts to directing this fast-growing church.

It was in 1934 that their present tabernacle at 1074 W. Broad-st was secured and remodeled to accomodate their congregation. The demands for additional room by their large Sunday school and young people's departments were now fully met.

It is in this tabernacle that the 25th anniversary celebration will be held with special services beginning Tuesday night, Nov. 24, continuing through Sunday night, Nov. 29. Meetings will be conducted three times each day.

A chicken dinner will be served on Thanksgiving Day to out-of-town visitors. Visiting ministers will speak at most of these services. The entire program will be under the direction of the pastor, W. T. Witherspoon, the associate pastor, A. W. Witherspoon, and the superintendent of Sunday school, Raido Wysong. Evening services will begin at 8 o'clock.

AN APPEAL

FROM THE DOCTORS OF THE WEST SIDE

The Physicians of the West Side have been reduced in number to such an extent that each individual's work has been more than tripled. In the present emergency therefore, it is imperative that we take every precaution to protect the health of our families.

In many instances the observance of regular habits with regard to rest, diet and exercise will aid in warding off susceptiblity to infections.

If, at any time, a member of the family does show symptoms of serious indisposition, it is advisable to consult the physician at once that he may make every effort to check the illness in an early stage.

In order to maintain an adequate health program in this community, the doctors have united their efforts, and they have provided a schedule by which one of the group is available at all times to residents of the West Side.

We may all share in this program by a consciousness of healthful habits of living as well as by giving our doctors ample time to respond to our needs.

If the family physician cannot be reached in an emergency, a call to the Medical Bureau at ADams 8101 will provide medical attention.

This is the first of a series of articles designed to clarify medical problems arising from the war emergency as it affects the community.

I THINK HE IS SATISFIED

Soldiers will soon be returning
From this wicked old fray,
We've kept the home fires burning
Ever since they went away.
Those who went ahead are standing
By our Heavenly Father's side
I am sure they made a safe landing
And I think He is satisfied.

I can't tell you Brother and Sister
Just why they had to fight
But I hope none again will have to whisper
Oh, where is my boy tonight.
We're fighting men with Imps possed
Our rights they have denied
Jesus our Lord stood the very same test
When He was crucified.

C. S. Parks

Auxiliary Police Open Headquarters

Noble Allen, captain of the Eleventh Ward Auxiliary Police, announced this week that the organization had been donated use of the old ice house building on W. Broad-st between Hague and Powell-av, by Dr. George T. Matthews for their headquarters.

He said there will be an auxiliary policeman on duty there each night from 7 to 10 to answer any questions pertaining to civilian defense work. Hilltop residents are invited to use this new service.

SHOT IN LEG

Gilbert White, age 48, 404 Garden Heights-av, was shot in the leg Saturday when a .410-gauge shotgun accidently discharged. He was taken to St. Carmel Hospital. The gun was being examined by Leo Ostreicher, 461 Garden Heights-av, when it was discharged, according to the sheriff's office.

TA-WA-SI CLUB

The Ta-Wa-Si Club will meet at the home of Mrs. John Rings, 77 S. Burgess-av, Monday evening, Nov. 30.

Blonde: The prosecuting attorney embarrassed me very much during the trial.

Admirer: By asking what you were doing the night of the crime?

Blonde: No, by asking what I was doing this coming week-end.

Little Margaret's mother was accustomed to make comparisons and thus enrich her child's mind. One afternoon the mother was busily occupied making a dress out of some green silk. "You see this silk, Margaret? Well, it was given to us by a poor little worm!"

The little girl looked bewildered. Suddenly came a great light. "Oh, Mamma," she said, "you mean Daddy."

The Hilltop Record

In Its 26th Continuous Year Of Community Service

Vol. XXVI, No. 32 | The Hilltop, Columbus, Ohio, Tuesday, Nov. 24, 1942 | Total No. 1237

The Spectator
By C. C. Hartley

An Important Tradition

For three hundred and twenty-one years now we Americans have set aside a day each year to give thanks for the blessings that have fallen our lot . . . a custom that has become more and more meaningful each year.

On Thanksgiving Day 1942, with our men fighting on most of the world battle fronts, we should give thanks for the opportunities we have to support the efforts of these men who are giving their lives to have freedom preserved.

These same things the Pilgrim fathers came to this country to establish are being attacked by the Axis powers.

This Thanksgiving Day, more than ever before, we should be mindful of all the blessings we in this country enjoy, and thereby resolve to be even more alert to any opportunity to aid in bringing a speedy and victorious conclusion to this war.

A Changed Attitude Toward The Paper

Something new has been added to the Record . . . a new attitude on the part of our readers.

Since our subscription campaign started we have noticed that those people who have signed up for the paper have expressed a greater appreciation of it than was previously evident.

All of which goes to disprove the old saying about the best things in life being free. We believe The Record will be much better as a paid circulation paper, and especially in view of the many new and difficult problems that face us weekly in it's publication.

If you are a subscriber and do not receive your paper by 10 a. m. on Friday we will appreciate having you call us and we will see that you receive a paper yet that day. This is a part of the service we feel you are entitled to when you join the growing ranks of Record subscribers.

West High students are doing a good job in conducting the subscription campaign and the school will net a nice profit from it.

To all who have responded so generously we say "Thanks", in a great big way.

Mock Air Raid Is Scheduled

Wailing sirens will send thousands of defense-conscious civilians scurrying to their protection posts Monday, Dec. 7, when the Ohio State Council of Defense commemorates the first anniversary of the Japanese attack on Pearl Harbor with a mock air raid alarm and a statewide mobilization.

This announcement came this week from State Defense Director Ralph H. Stone who said the mobilization would mark the day on which the United States fired its first shots in the present war and at the same time serve as another of a series of steps leading up to a statewide blackout within the next three or four months.

Stone said that sirens for the mobilization will be sounded at 12:25 p. m., E. S. T., the hour the attack on Pearl Harbor occurred. More than 200,000 trained volunteers are expected to participate since practically every city, town and village in the state has a local defense council.

Pointing out that the mobilization will dramatically test the strength of local defense councils, Stone said plans for the trial are "significant inasmuch as we are preparing civilians for any emergency and thus endeavoring to avoid a recurrence of the surprise air raids that struck Pearl Harbor."

Instructions covering the mobilization will be issued shortly to all local and county defense councils. When the air raid sirens are sounded, members of local Citizens' Defense Corps immediately will report to their posts and then await the all-clear signal.

81 Year Old Resident Dies

Funeral services were held Saturday afternoon at the residence for Wilhelm Karl Trappe, age 81, 2225 W. Mound-st, who died Wednesday of pneumonia. A native of Bernka, Germany, Trappe came to Columbus as a young man and has been a gardener for 62 years.

Two sons, William H. and Adolph P. Trappe; two daughters, Mrs. Anna Barlow and Mrs. Hilda Evans, and six grandchildren survive. Burial was in Green Lawn Cemetery by Wylie Shroyer Funeral Home.

Aero Club To Nominate Officers

Executives of the Aero Club who met Thursday evening at the Sullivant Avenue Airport set Dec. 10 as the date to nominate new officers for the club. Civil Air Patrol members are going to be invited to this meeting and will be given the opportunity to join the club, it was announced Friday.

Those present at the meeting were Gomer Jones, president; Eddie Arn, vice president; Herb Stump of Norton Field, secretary; Dr. P. B. Wiltoerger and Bob File, both members of the executive board.

Mrs. Mary Tingley Dies Suddenly

Mrs. Mary Viola Tingley, 68, died suddenly Sunday morning, at the home of her son, Earl Tingley, 210 S. Brinker-av.

She had dressed and was ready to go to church when she suffered a heart attack. Services of the inhalator squad and a doctor were of no avail.

Mrs. Tingley had lived with her son and with her daughter, Mrs. W. Hayden Jones, 190 S. Roys-av, for the past two years and had many friends among Hilltop residents.

She is also survived by two daughters, Miss Berniece Tingley and Mrs. Ilo Jackson, both of Cleveland; five grandchildren, two brothers, James and Luther Foster.

Funeral services were held at 7:30 p. m., Monday at the Spears Funeral Home, and further services will be held today at 2 p. m. at the Gamble & Alspach Funeral Home at Van Wert, with burial in Walnut Grove Cemetery at Delphos, O.

Radio Program

In observance of National Lutheran Radio Week, Rev. Victor Pennekamp of Concordia Lutheran Church will conduct a broadcast on Nov. 25, from 3:15 to 3:30 p. m. over WHKC. His topic will be, "A Plea for God."

We thank Thee, O God, for blessings now,
And humbly at Thy feet we bow;
"We lift our souls in joyful lays
And sing our great Redeemer's praise."
We thank Thee for a Saviour's love—
All our gifts come from above.
We thank Thee for kind friends and true,
Whose loving deeds confirm anew
Our faith in God and man; And may we
Richly prize Thy gifts, and live approved of Thee.

—REV. P. W. DRUMM.

Supplemental Registration For Gas Gets Under Way

Issuance of books good for supplementary rations of gasoline got under way Monday at John Burroughs School for the entire West Side and Hilltop and will continue through the week except for Thanksgiving Day.

Those expecting to make application are asked to have their application blanks completely filled out and carefully checked so as to speed up the procedure.

The registration starts each day at 1 p. m. and continues through 5 p. m. and is open each evening from 6 to 9 p. m.

In so far as is possible the cards will be issued on the scene while the applicant is present. However, in many instances it will be necessary to notify the applicant by mail.

Nearly 300 volunteer workers received their instructions at a meeting last Thursday and will continue on the job all week. In addition members of the local war price and ration board will be on hand daily to supervise the work.

Each applicant must present his certificate of registration with application.

A total of 11,385 "A" books were distributed in the three registration days last week on the West Side and Hilltop.

Gasoline for tractors, cleaners and other commercial uses will also be granted this week.

Truck drivers who have received their credentials from the Office of Defense Transportation will be granted essential gasoline at that time.

Truckers who have not received such credentials need not apply.

Some facts about supplemental gasoline rationing:

1. Persons needing 150 miles or less for occupational or essential driving get "A" books only; 150 miles in the "A" book are considered for this purpose.

2. When other means of transportation are available and adequate, no gasoline will be allowed under any conditions.

3. No gasoline will be allowed in advance for anticipated emergency driving such as illness, death, obtaining repairs for machinery, etc. Gasoline will be granted at the time or subsequently for such purposes.

40 Boys Get Their Physical Fitness Training Each Day

Forty young men in the 12-A class of West High School will leave there in January with a thorough understanding of the term, "physical fitness."

The past four weeks these boys have been meeting on the school's athletic field at 8 o'clock five days a week for a 40 minute workout. In the four weeks training the boys have been inside one day.

"The boys stay out in the field right through the cold weather. That is part of the training," Coach George Williams said.

The object of this training, as explained by Williams is to harden the boys in physical endurance. Suggestions for instructions in the course come directly from Washington.

The variety of exercises include the walking of two prone telephone poles, walking under two 21 inch barriers and over a 36 inch barrier. The boys also walk a series of four railroad ties, scale a four and six foot wall. Following these exercises they jump hurdles, do the monkey walk, crawl through two barrels, run around the track twice and then go into the obstacle race.

Included in the obstacle race are jumping of a barrier 30 inches high, a hurdle 36 inches high and jump from a platform, eight feet six inches high. All the equipment for this race was made by C. F. Bateman and the boys in the West High School work shop.

Soon the boys will start rope climbing and going up one side and down the other of a 10 foot ladder.

These "daily dozens" for the boys at West are gone through without stopping. At the end of the 40 minute period they are given 20 minutes to get a shower, dress and get some breakfast in the cafeteria which usually consists of milk, candy bars and sandwiches. All 12-A's are required to participate in this program and attendance is taken each morning, Williams told us.

"I think this is a great program," the coach commented. "It helps in building these boys up for what they may have to endure later. The boys seems to enjoy it and that is very important."

This class in physical fitness project will be graduated in January and a new class will be started of the 12-As coming in.

Hospital Patients To Have Duck Dinner

Patients at the Columbus State Hospital will be guests at a duck dinner to be served at the hospital for them Thanksgiving Day, it was announced this week. There will be no picture shows for the patients as there have been in years past.

Miss Lambert Trains For WAACS Corps

Miss L. Carmen Lambert, 889 Thomas-av, daughter of Mr. and Mrs. H. T. Lambert, is now training with the Women's Army Auxiliary Corps in Des Moines, Iowa.

She was a former student at West High School and Franklin University. Before joining the WAACs Miss Lambert was employed at the White-Haines Optical Co.

She was active in church work and Youth Fellowship work at the Gift Street Methodist church and was vice president of the district council of Youth Fellowship.

Girls Are Enrolled In All OSU Colleges

Girls are enrolled in all Ohio State University colleges again this year, leaving to mere man no field of study he can call his own.

One woman is enrolled in dentistry, 14 are in engineering, four in law, 10 in medicine, and several in agricultural courses.

University officials expect the number of women in most professional fields to increase in the next few years, because the shortage of men has opened up new opportunities and removed old prejudices for the fair sex.

Christmas Bazaar

The Annual Christmas Bazaar of the Burgess Avenue United Brethren Church, corner Burgess and Sullivant-av, will be held Thursday, Dec. 3. A big turkey dinner will be served from 11 to 1, also 5 to 7. The bazaar is sponsored by the Ladies' Aid.

Hard Times Party

The 12-A class of West High School will hold a "Hard Times Party" for members of the class Dec. 3, Herb Stewart, president, announced Friday.

Three Hilltop Boys At Great Lakes Naval Training Station Home on Furlough

Three Hilltop boys who joined the Navy together on Oct. 28 and have been constant companions together since that time at Great Lakes Naval Training Station, will be home for a furlough on Thanksgiving Day.

They are: Wayne W. Johnson, son of Mr. and Mrs. Clyde E. Johnson, 49 N. Wayne-av; Paul W. Simpson, 650 S. Richardson-av; and Jake Richards, son of Mr. and Mrs. John Richards, 378 S. Terrace-av.

All the boys are graduates of West High School and since joining the Navy have been sleeping in bunks next to each other.

On their return all three will be sent to radio training school.

William P. Lind, another West grad, son of Mr. and Mrs. Wm. P. Lind, Sr., 28 N. Ogden-av, will return to Great Lakes on Thanksgiving Day after having had a nine day furlough with his parents.

Grocers Curtail Deliveries

Effective Monday, Nov. 7, Hilltop grocers will be forced to curtail their deliveries due to drastic regulations from the office of defense transportation and gas rationing. There will be no deliveries on Monday and Wednesday and on other days there will be only one delivery a day to certain zones which the grocers are making schedules for now.

Information concerning delivery schedule can be secured from each grocer and will be published in the next issue of The Record.

No Coffee Until Nov. 29

The present war has caused the conservation of many commodities. Newest items brought into the now lengthy list are coffee and meat.

War Ration Book One — your "sugar book," will be used to ration coffee, with stamps 20 through 28 as your coffee stamps. Each holds the value of one pound. Coffee will not be available until Nov. 29 and since this is Sunday there will be little sold until Nov. 30.

All adults in a family, who are qualified from the age of 15 years or older, are eligible purchasers. The last coffee sold without rationing cards was Saturday.

A stringent meat rationing to civilians will begin around mid-January the Office of Price Administration decided tentatively Friday. Due to the armed forces consuming most of the beef, veal, pork, lamb and mutton, supplies there will be cut in the civilian consumption. The new cut in civilian allocations, which first were cut in October, will probably come before Jan. 1, the OPA said.

An official of the OPA said the 2½ pound limitation is "just about possible" under the now existing meat conservation orders which cut beef supplies to civilians to 70 per cent of 1941, lamb and mutton to 95 per cent and pork to 75 per cent.

Luther Leagues Will Convene

The Ohio District Lutheran Luther Leagues will hold their 12th annual convention at Grace Lutheran Church, 402 Oakwood-av, Nov. 27-29, the theme of which will be "Come, Tarry, and Go."

Registration will begin at one o'clock on Friday afternoon and will continue until 3 o'clock. Miss Miriam Bienstedt will speak on "Conquering worldly temptations through Luther League activity." At 4 o'clock Mr. John Koethe will address the group on "What Seek Ye." After this service an evening of fun and frolic will follow. The young people will go to the Wilson Avenue Church of Christ, Mound and Wilson-av, to attend a mixer and party.

On Saturday morning, Rev. A. P. Michelfelder, pastor of St. Mark's Church, will speak on "I came, I saw, I conquered." Rev. Marcus C. Rieke, Youth Director of the Luther League of the American Lutheran Church, will speak on the subject, "Our Friends with the Armed Forces." Saturday afternoon will be spent planning Luther League projects.

Saturday evening at 6 o'clock a banquet will be held.

The theme of the convention, "Come, Tarry, and Go," will be expressed at various times during the sessions. Dr. R. E. Golladay, pastor of Grace Church, will present the topic, "Come," Rev. Theodore Proehl of St. John's Church, Grove City, will discuss the topic, "Tarry," and the minister of Emmanuel Lutheran Church of Columbus, Rev. Theodore Hax, will speak on the subject "Go."

At the mixer to be held Friday evening, the following members of Grace League will present songs and dances from the "Florner, Jean Kackley, Charles Willodora:" Doris Ater, Philip Heffmann, Beatrice Siddle, Robert Beck, Mary Lee Rice, Jack Siddle, Lois Langholz, Rev. Union Thanksgiving Services Thursday

Annual Union Thanksgiving services under the auspices of the Hilltop Ministers Association is expected to draw a large audience this year due to the restricted driving conditions.

Assisting Rev. A. J. Wold, pastor of the Hoge Memorial Presbyterian Church, where the services will be held this year, will be Rev. R. A. Sain, pastor of the Westgate Evangelical Church, and Rev. J. J. Ashburn, Jr., pastor of the Oakley Avenue Baptist Church.

Rev. Clayton Lutz, pastor of the Burgess Avenue U. B. Church, will deliver the sermon.

The Hoge Memorial Church choir, under the direction of W Haydn Jones, will sing "Praise the Lord O Jerusalem," by Maunder, and "The Lord's Prayer," by Forsyth. Fern Buckingham will be at the organ. Services will begin promptly at 10 a. m. Thanksgiving Day.

This Thanksgiving Day will be the first in many years that Camp Chase Post No. 96 of the American Legion has not canvassed the Hilltop for food and clothing for needy families. This was decided because it is believed there are not so many needy people this year.

Mail Christmas Packages Dec. 1

Dec. 1 is the date set for mailing of Christmas parcels in the United States to insure delivery by Christmas. A scarcity of personnel and transportation is the cause of the definite deadline. In years past about 12,950 railroad cars were needed to deliver holiday packages between Dec. 12 and 24. This year these cars are in the use of the armed services.

Another cause is the lack of the post office's extra personnel which is for the most part relatively inexperienced due to inroads made by the armed services and war plants must keep the large volume of mail flowing through to the men in service.

In view of these facts persons wishing packages delivered by Dec. 24 should have them in the mail no later than Dec. 1.

New Scout Troop At Starling School

"Pop" Campbell, Boy Scout organizer on the Hilltop, announced Saturday that he is organizing a troop at Starling Junior High School.

Scout master of the troop will be Mr. Jennings, a teacher at the school. The boys will be registered at a meeting to be held after school today.

ASSAILANT FLEES

When she was grabbed and thrown to the pavement near her home early Friday Mrs. Bovie Ishmael, age 28, 354 S. Ogden-av, suffered bruises. Her assailant fled when she screamed, she told officers.

Subscribed Yet?

But a short time remains in which students of West High will take subscriptions to The Hilltop Record. Their campaign is scheduled to come to a close within another 10 days.

Persons who have not yet subscribed to The Record and desire to have West High get the credit for their subscription are asked to call The Record office and the message will be relayed to the proper individuals and a solicitor will call.

The drive to date has been very successful and it is expected that the school will receive a very liberal commission when the totals are tallied at the conclusion of the drive. This money raised by the students will go into the student athletic fund to defray expenses of that department, and to make it possible for the school to continue to maintain a full schedule of sports activities.

Again we point out that placing The Record on a paid circulation basis is necessary. In the first place it has become necessary to take care of the extra cost involved in serving an ever growing community. Then too it has been necessary to have the revenue from circulation in order to offset the loss of advertising revenues brought about by the war, to say nothing of increased costs of publication.

Just as soon as the community has been completely solicited the paper will no longer be passed to each home free. If you are not a bonafide paid subscriber you will not receive it each week.

Hilltop residents cannot afford to be without The Record. The savings from values in the grocery and merchandise section along with the values to be found regularly in the want ads will amount to many times the price of your subscription.

Subscription rates are $1.50 per year if paid in advance, six months for 90c or 15c per month if a collector calls at your home.

The Record will be mailed to any point in the country or to boys anywhere in the service for $2.00 per year or six months for $1.00. Many families are sending The Record to their boys, saying it is just like a weekly letter from home.

If you have not yet subscribed to The Record why not call Ra. 1125 right now and ask that a solicitor call on you at your convenience.

Dismissed from school to work full eight-hour days, the seniors gave three-fourths of their earnings to charity, invested the other fourth in war bonds and stamps.

Under the leadership of their new student war board, Ohio State University students are volunteering to contribute blood to the "blood bank" being set up in Columbus.

Success of Governor John W. Bricker as a public speaker, as well as in the governor's office, is no surprise to Professor Victor A. Ketcham, chairman of the department of speech at Ohio State University. At the conclusion of Bricker's student days at Ohio State, Professor Ketcham invited him to become an instructor in speech.

CHRISTMAS SEALS

. . . Protect Your Home from Tuberculosis

A warning that tuberculosis is increasing alarmingly in warring countries was sounded this week by President Roosevelt in endorsing the 36th annual Christmas Seal Campaign which started Monday, Nov. 23. The Campaign, sponsored nationally by the National Tuberculosis Association, is conducted in Ohio by 88 county tuberculosis associations affiliated with the Ohio Public Health Association.

President Roosevelt said that it will take the greatest effort possible on the part of the people to hold the disease in check in this country. In endorsing the Christmas Seal Campaign, President Roosevelt said:

"The unholy alliance between war and disease is particularly powerful in the case of tuberculosis. Tuberculosis has increased in every past war. The disease is increasing alarmingly in many warring European and Asiatic countries."

POLICE THE ENTIRE WORLD

Wires'll soon be singing overhead
Huns have made their last stand
Out of food and lead and Hitler is dead
Killed by his own hand.
That news will enthuse many millions
But it isn't the end by friend
In ten years or less they will possess
Enough guns and men to begin again.

We'll never have peace that's permanent
The last bomb has not been hurled
Unless we at once establish a precedent
And police the entire world.
We should not suppress honest progress
But broadcast on water and shore
Plows can be made, all implements of trade
But no more implements of war.

Tips on How To Get Most Out of Coffee

Here are nine points suggested to make coffee go further, and still have coffee of good quality.

1. USE FRESH COFFEE. Buy less each time, and more frequently.
2. KEEP YOUR COFFEE in a tightly covered container.
3. KEEP IN THE refrigerator, or some other cool place. It deteriorates less rapidly when cool.
4. KEEP YOUR COFFEE pot immaculately clean.
5. HAVE YOUR COFFEE ground as fine as possible for the pot you intend to use. Finely ground coffee goes further than coarsely ground coffee.
6. USE ACCURATE measurements instead of "heaping tablespoons."
7. DON'T BOIL COFFEE. It drives off the very elements you want.
8. SERVE THE COFFEE as soon as it is made.
9. MAKE ONLY THE EXACT amount you want to use. Left-over coffee is wasted coffee, though it can be stored in the refrigerator for use as flavoring or for a cup of warmed-over coffee, if you like it that way

Big bags of U. S. mail arriving at Ohio State University every day give evidence of the dependance Ohioans place on their state university to give them information on many subjects. Campus mail carriers handle an average of 10,000 pieces of incoming mail daily.

Investigators To Keep Close Check On Service Stations To Enforce Law

Vigorous mileage rationing enforcement program covering every county in Ohio, West Virginia, Indiana and Michigan, will be launched at the moment nationwide rationing becomes effective at 12:01 a. m., Dec. 1, Birkett L. Williams, of Cleveland, regional OPA administrator announced here today.

On eve of the launching of the rationing administration approximately 300 investigators will scatter through the five states of OPA's Region III with instructions to make a "spot" but well distributed check of filling stations.

"We are profiting from some of our experiences in the East when OPA had its first experience with gasoline rationing," Mr. Williams said. "Now, gasoline rationing has become mileage rationing, and mileage rationing is aimed, not at the conservation of gasoline primarily, but directly at the saving of critical rubber in the nation's transportation crisis. Newspapers in this region with the cooperation of the government's informational agencies have published millions of words about mileage rationing and how it works. We are going to start right out in this area on the assumption that filling station operators know what it is all about. We are rationing gasoline on a mileage basis to save rubber. We are going to save rubber in the spirit of the Baruch Committee's report, and we are going to approach compliance and enforcement work in this region in that spirit."

On the morning of Dec. 1, all the supplementary "B" and "C" ration books will have been issued, and the motorist will have to have his ration book to buy gasoline. On the same morning and through Dec. 1 and 2, the gasoline retailers must register at their local War Price and Rationing Boards. In their registration forms (which will be available on or soon after Nov. 30), they must state the capacity of their tanks and the gallonage of gasoline in them.

The push-off of the drive for compliance, which will be followed through aggressively from the very offset, the Regional office here stated, will be a check on the capacity of tanks and the inventories gallonage on hand as of 12:01, Dec. 1.

The plan is to strike at any expected scheme of a few who might attempt to conceal a store of gasoline and put themselves in a position later to bootleg gasoline.

The 300 official operatives are not all the enforced investigators that the OPA in this region will have.

A voluntary corps of gasoline truck drivers, delivering throughout the region, and the sealers of the state and local weight and measures staffs, have been recruited to assist OPA in its mileage rationing enforcement work.

Urge Civilians To Attend War School

Aware of the fact that enemy bombs and sabotage will show little partiality in choosing cities for their destructive work, the Ohio State Council of Defense today urged all local defense councils to send at least one representative to the Purdue-War Department Civilian Protection School at Lafayette, Ind.

The next school, beginning Sunday, Nov. 29, will be divided into four weekly sessions, each being devoted to subjects recognized as essential to civilians in coping with enemy attacks. This is a radical departure from the old plan whereby students were given an intensive course of training in a 10-day period, Ralph H. Stone, state director, announced.

Representatives of local defense councils may enroll for one or all of the sessions. Persons wishing to enroll for one or all of the sessions of the next institute were asked to write to the Ohio State Council of Defense, 101 North High Street.

Christmas Seal Sale Starts Monday

One of the most intensive drives for funds in the history of the Columbus Tuberculosis Society is getting under way as plans for the annual Christmas Seal sale are being completed.

Under the chairmanship of Henry P. Howe, businessman, and a trustee of the Tuberculosis Hospital, the annual campaign will get under way on Monday. "The tuberculosis problem is increasing daily," Mr. Howe stated in his appeal for community-wide support of the drive.

"The Christmas Seal helps provide facilities and the needed education for stopping the spread of the disease," Mr. Howe concluded. "Everyone should buy as many seals as he can afford. The Christmas Seal is truly a democratic way of giving, and everyone in the community benefits equally when the danger of tuberculosis is taken away."

A large woman wearing a loud purple dress and many jewels visited a couturier and asked him what colors she should wear.

"Madam," said the expert, "when God created the butterfly and humming bird he made them of brilliant colors. But when he created the elephant, madam, he made it grey."

Share Meat Program Begins November 30

Giving civilian defense block and neighborhood leaders their first big assignment, the Ohio State Council of Defense today issued instructions for a house-to-house campaign, beginning Monday, Nov. 30, to explain the "Share the Meat" program to adult consumers. West Side block leaders will be appointed in the near future, it was announced.

State Defense Director Ralph H. Stone said the campaign, which will continue through Dec. 5, is designed to bring about voluntary limitation of civilian meat consumption to an average, of two and one-half pounds a week for each adult and adolescent. A necessary war measure to provide meat for our armed forces and fighting Allies.

Stone said that the Ohio State Council of Defense, in cooperating with the federal government in the meat program, had recently centered all community war services under block, neighborhood and group leaders, who are responsible for the success of any war campaign in their particular

HOLD HIGH MASS AT 8:30

St. Aloysius Church will hold a high mass at 8:30 Thanksgiving morning. There will be a sermon, prayers for those in active service, for the civil authorities and the benediction of the blessed sacrament.

Hilltop Schools Observe Holiday

Many Hilltop elementary and high schools have Thanksgiving programs planned for Wednesday.

Miss Mary Boland is directing the Thanksgiving program at West Broad Street school to be presented Wednesday morning. Included in the program will be the singing by the entire student body of "Come Ye Faithful People" and "Swing the Shining Sickle." Psalm One Hundred will be read as well as the president's Thanksgiving proclamation. Following this a play will be given, "This Is Thanksgiving." The program will close with the students singing "God Bless America."

Charles Rigga, principal at Starling Junior High School, announced their Thanksgiving program would be held Wednesday afternoon at which time Rev. Anson Stokes will give a message. Betty Evans will lead the responsive reading. The boys chorus will sing two numbers, "When Morning Gilds the Sky," and "Thanks Be to God."

The Thanksgiving program will be mostly of impromptu singing. There will be two assemblies, one for the higher grades and one for the lower grades.

Hi-Y boys at West High School will have charge of the Thanksgiving assembly. The program will open with the choir singing "Prayer of Thanksgiving," after which John Brown will read the president's Thanksgiving proclamation. Then the student body will sing "Oh God, Beneath Thy Guiding Hand." Robert Maurath will lead the scripture reading followed by the choir singing, "O Worship The King." Dr. Floyd Faust will deliver the Thanksgiving Day message. Louis Erf will give the benediction.

Jack Peters will lead the West Junior High School assembly Tuesday morning. Charlene Ralston will read a Thanksgiving poem. Following this T. N. Brown, teacher at West, will introduce the speaker, Dr. Roy Burkhart. The Mormon Quartet will present a program of Thanksgiving music.

DANA P.-T. A. TO MEET

Dana Avenue School Parent-Teacher Association will meet at the school 1:30 p. m. Wednesday. Mrs. Horace Dewey, a recently returned missionary from China, will speak.

"Offisher," said the inebriated one, "I'm lookin' for a parkin' plashe."

"But you've got no car."

"Oh, yesh, I have. It's in the parkin' plashe I'm lookin' for."

1 lb. butter
2¾ cups brown sugar
3 lbs. white raisins
1 lb. candied cherries
1 lb. candied pineapple
1 lb. citron
1/3 lb. orange peel
1/3 lb. lemon peel

4 tbs. molasses
1 tsp. each of cloves, cinnamon and nutmeg
1 tsp. soda
1½ tsp. B. P.
½ tsp. salt

Method: Pour brandy over the raisins and diced figs and let stand four hours. Cut nuts and fruit into small pieces. Cream butter and add sugar gradually. Add eggs, one at a time, beating well after each addition. Add soda to molasses and add to the sugar, egg and butter mixture. Bake 4 hours at 250 degrees in pans which have been lined with four layers of heavy wrapping paper.

Yield, about 14 lbs.

Note: Chapman's announce that because of unusual conditions there will be no contest this year.

This is the recipe that won first prize in the Chapman 1941 fruit cake baking contest.

If You Had MY JOB

KEEPING HOUSE, helping take care of the family—you would realize that business girls are not the only ones who sometimes get Headache and Tired Aching Muscles. We home girls often work just as hard and have just as many Headaches, just as many Stomach Upsets and get just as Tired.

About a year ago, I first used

ALKA-SELTZER

I find that it eases my Aching Head, takes the kinks out of Tired, Aching Muscles and brings relief when I have Acid Indigestion.

The family says I am a lot easier to live with since I have known about Alka-Seltzer.

Have you tried ALKA-SELTZER? If not, why don't you get a package today? Large package 60¢, Small package 30¢, also by the glass at Soda Fountains.

Ohio State Students Will Study Japanese

Franklin county students at Ohio State University will have the opportunity of studying Japanese next quarter.

The new course will be taught by Professor Robert H. Gerhard, and Ohio State graduate who has taught in Japan.

University officials point out a marked contrast between language study now and that in World War I. Twenty-five years ago the teaching of enemy languages virtually ceased. Today German classes at Ohio State are crowded and students have also been asking an opportunity to study Japanese, in anticipation of possible military service in those countries.

HAROLD F. CAPRETTA

Pvt. Harold F. Capretta, son of Mr. and Mrs. Carl Capretta, 247 Midland-av, entered the service on Oct. 31 at Fort Hayes. From there he was transferred to Kentucky where he is serving with Co. D, 56th Armed Inf. Regt. A. P. O. 262, Camp Campbell, Ky.

TEN YEARS FROM NOW:

You who are looking ahead, naturally ask the question. "It has become a banality to say that what some others have done you or I can do also. Let's for once in our lives say nothing about Abraham Lincoln or Charles Steinmetz, and such bromides as "any boy has a chance to be president."

The chances are you won't be president. You may or may not, be famous as an inventor, in the professions, in literature, or in some other work. This matter of fame is inconseqquential after all. The dividing line between applause and applesauce is terrible thin. The chances are that 10 years from now you will be basically very largely what you are today.

If you have a reasonable amount of determination, the willingness to work—to study in order to keep yourself informed—the chances are that 10 years from now you can look back upon a decade of worthwhile achievement — and forward to many years of even greater achievements.

The world is going to be different 10 years from now, but there are certain laws of living, of society, of mechanics, of business, of chemistry, of engineering and of research that do not change. The rewards of these years will go to those who are prepared to walk confidently. The ignorant, the careless, the indifferent and the slovenly-minded will trail along, content with whatever the gods of chance provide.

By a chemical process, the wood of any tree can be converted into sugar which is suitable for human consumption.

Allied cooperation in building mighty warplanes to smash the Axis is demonstrated here by two red-haired test pilots at the Columbus plant of the Curtiss-Wright Corp. Red Hulse (in cockpit), chief test pilot at the Columbus plant, discusses Curtiss Hell-diver dive bombers with J. M. (Red) Lymburner, Fairchild of Canada, Ltd., test pilot. A WORD AND A SMILE

Don't hurry through life with a frown on your face,
And never a moment to spare -
For the word and the smile is always worthwhile
In a world full of trouble and care.

There are others with burdens as heavy as yours,
Hearts weary with aching and pain,
That are longing to hear just a word of good cheer,
Would you let them be pleading in vain?

There is sunshine for all in this workaday world,
But you'll have to go after your share,
And you'll miss it, of course,
If you're hurried or cross,
With never a moment to spare.

And if you have sunshine and love in your home,
If pleasure and plenty abound,
Don't hoard up your store, you'll enjoy it the more
If you scatter it freely around.

For the light of your smile can be seen from afar
And heaven records its full worth
Though you whisper your word, yet its echoe is heard
To the furthermost ends of the earth.

DISTRUST

It is a human frailty that prevents one generation from understanding and trusting another.

A young man of twenty-five will go into business and surround himself with others of his own age or less. Rarely will he hire men older than himself.

He thinks they are fossils. As he ages, he continues to feel confidence and faith in his contemporaries.

Whereas, at twenty-five he thought men of that age had a monopoly on brains and resourcefulness, so at forty he turns to men of his own age for assistance.

By the time he is sixty he distrusts everyone under forty except for routine work.

We need to remind ourselves occasionally that neither young men nor old men necessarily know it all. Integrity, imagination and executive ability may exist in full bloom at any age.

Let every dawn of morning be to you as the beginning of life and every setting sun be to you as its close; then let everyone of these short lives leave its sure record of some kindly thing done for others, some goodly strength or knowledge gaine, for yourself.—John Ruskin.

Observations On Gas Rationing

A proper salutation to this column might be that of Fibber McGee on his Tuesday night program, "Pull up a chair, tear out a couple coupons and let's gas awhile."

Since a week ago Monday it seems I have heard of nothing but gasoline, and the favorite expression of all has been "I want a C book."

And during a period of ten days of hearing the whole program cussed and discussed I observed the following:

In the first place the Hilltop and West Side can well be proud of the fine cooperation given by some 100 or more volunteer workers who stuck with the program two more days and evenings than they had originally understood it would take.

Then too we can well be proud of the way the local program was handled by these volunteers. True, there were some errors and many had to wait some time to have their needs taken care of but when you stop to consider that this whole program was totally new to these workers and that about 8000 people stormed the place in this period it can easily be understood how some errors could enter.

And to all these workers I want to pass on my personal thanks for a fine job and the most hearty cooperation.

And along that line, a bouquet is due Mr. Ira Claggett and the members of his gasoline ration panel. They faced the difficult task of interpreting a set of regulations that in no way are popular with the public. And in every case they attempted to give "every individual everything the regulations said he was entitled to.

In the instance of many border line cases the review board granted B books and are now seeking a satisfactory answer from the state board, which will determine the final status of the case.

It was interesting to observe that with possibly two or more exceptions those applying were most considerate. Everyone seems to realize that the whole business of gas rationing was a headache but they are laying the blame directly in the lap of the bureaucrats in Washington.

And for the most part people are not taking gas with a grain of salt. They are more perturbed than they have been for many a day. And we can't blame them.

Something must come along to sweeten the bad taste left with the public or the New Deal is a dead duck from here on. It would be safe to say that 90 percent of the people who applied for supplementary gas rations have either said or are thinking "There will be a day of reckoning."

As a member of the local ration board I am in accord. I am not denying the entire need of the gasoline rationing program. But it is very apparent that in rationing, like in all other government activities of the day, there is a preponderance of "bologna" being shoved down the throats of the people.

And it certainly cuts deep to see the inefficiency and waste that has been allowed to enter the picture under the guise of war emergency.

Today the greatest problem facing the country is that of manpower and the greatest waste of it is in the government.

Small businesses and large ones that have paid the bill for all the waste of the past and is now expected to pay the bill for the war, are being taxed heavily and are not squaking very loudly.

But out of Washington in nearly every mail comes some request for a report, or a change in some silly governmental regulation that has been set up by a bunch of three month wonders.

Business men are being forced to hire additional help just to take care of these reports. It's a fact that 40 percent or better of the reports are duplications, and probably a far greater portion of them will provide no contribution to the war effort at all.

"Buy Bonds and Pay Taxes" is the popular advice of the day. But the American people can certainly be much more in accord with this advice if they can have greater assurance their money is going to the war effort and not to support a lot of foolish programs of bureaucrats who are conducting a social experiment in the name of war emergency.

Galen Shank Named W. M. At West Gate

West Gate Lodge of Masons held the annual election meeting of the order in the temple, 2925 W. Broad-st, Monday evening at which time Galen Shank was elected and installed as worshipful master.

Other officers elected and seated were Albert Torr, senior warden; Henry Morrison, junior warden; Ray Newlun, senior deacon; George Levesay, junior deacon; William Pascoe, tyler; Ralph Jacobs, chaplain.

Leo Peoples, as grand master, was in charge of installation with Lawrence Campbell as grand chaplain and Robert Hawthorne as grand marshal, assisting.

Seek Mound Street Bus Extension

Members of the Hilltop Business Men's Association this week started a drive to secure an extension of bus service in Mound-st, west of Central-av to S. Wayne-av.

It has been pointed out that such a move would make it possible for many persons to ride the Mound-st bus rather than the Sullivant bus thus taking part of the load off the overcrowded Sullivant bus. It has also been pointed out that Mound-st buses are not nearly so crowded as those on Sullivant-av.

The association meeting will be held Tuesday evening at Schmelzer's estaurant at which time officers for 1943 will be elected. Candidates for president are Dr. E. E. McNamee and Tom Lewis.

Entertainment of the West High football team has been postponed until the January meeting on account of conflicts with the West basketball schedule.

Scout Banquet Next Friday

Lester R. Bucher, Boy Scout executive, will be guest speaker at the Southwest District banquet to be held at Schmelzer's at 6:30 p. m. Dec. 11. Charlie Riggs will be master of ceremonies for the other entertainment on the program.

Scouts recently promoted to the rank of Eagle will be guests at this banquet but will not receive their awards until Dec. 30.

Election of officers for the Southwest District for the ensuing year will be held at this time.

E. E. Bunner Is Taken By Death

Stricken in the YMCA barber shop, of which he was manager, Ezra Ellsworth Bunner, age 63, of 44 N. Brinker-av, died suddenly Wednesday morning of a heart attack.

Mr. Bunner was an ordained minister of the Church of Christ and at one time served the Reynoldsburg church. He was graduated from West Virginia university law school, Morgantown, W. Va., and of the David Liscomb college. He had served in the ministry for 15 years and had been in charge of the YMCA barber shop since the building was opened.

Surviving his are his wife, Mrs. Mary Ann Bunner; three sons, Dr. Daniel S. Bunner, lieutenant (j. g.) in the U. S. navy, and Alwinda and William P. Bunner; daughter, Mrs. Mary Ann Deems; five grandchildren, two brothers and five sisters.

Services will be held at 1:30 Saturday in the chapel of Wylie S. Shroyer Funeral Home, 2853 W. Broad-st, followed by burial in Sunset Cemetery.

Raether-Alkire Vows Exchanged

Dr. Otto Mees, president of Capital University, and Rev. W. E. Ewing, Mt. Sterling, officiated at the 4:30 o'clock wedding for Miss Anne Catherine Raether, daughter of Mr. and Mrs. Fred Raether, 203 S. Huron-av, and Mr. Jack Smith Alkire, son of Mr. and Mrs. Floyd Smith Alkire, Mt. Sterling, O., in Divinity Hall Chapel at Capital University Thanksgiving afternoon.

The ceremony took place before an altar decorated with huckleberry foliage, white chrysanthemums and lighted by long tapers.

The bride who was given in marriage by her father, wore a Grecian styled gown of white silk jersey with a long, softly draped torso bodice trimmed with bands of shirring. A shoulder length veil of white bridal illusion fell from a Juliet cap of jersey. She carried a fan-shaped bouquet of snow white roses and stephanotis.

Mrs. John N. Wolfe and Mrs. Raymond G. Hill, the latter of Lexington, Ky., sisters of the bride, were the only attendants. Mrs. Wolfe wore a gown of fuchsia crepe and carried an arm bouquet of yellow chrysanthemums and yellow roses. Mrs. Hill dressed in a gown of gold silk jersey carried talisman roses and bronze daisies.

Mr. Raymond E. Reiterman, of Mt. Sterling, attended Mr. Alkire as best man and ushers were Mr. R. G. Hill of Lexington, Ky., and Mr. John N. Wolfe. Miss Juanita Alkire, sister of the bridegroom, sang and Mrs. Robert Draper accompanied at the organ.

A wedding dinner was held at the Broad-Lincoln for members of the bridal party and the immediate families following the ceremony.

A graduate of Capital University, the new Mrs. Alkire is a teacher in the Columbus schools. Mr. Alkire is associated with the International Stacey Corp. Following a short wedding trip the couple will be at home at 2023 Sullivant-av.

Your Doctor Needs Your Help

The few Hilltop and West Side doctors who have not been called into military service have the very difficult problem of caring for the health of nearly 55,000 people.

It is evident they need the cooperation of every citizen of the community. Those remaining on the home front are doing their utmost to care for you in this emergency and their endurance is being heavily strained.

Observe These Simple Suggestions:

1. Place your calls, when possible, so they can be made before office hours or in the afternoon, so they can be made before night, and be as patient as possible.

2. Try to see the doctor at his office during office hours when possible to save a house call.

3. Avoid night calls, except for emergencies.

In this critical period everyone should consider the doctor's situation. Use your own intelligence as to the actual need in the case. Don't be angry if he cannot give you the preferred service he once gave you.

If the family physician cannot be reached in an emergency, a call to the Medical Bureau at ADams 8101 will provide medical attention.

This is the second of a series of articles designed to clarify medical problems arising from the war emergency as it affects the community.

"TALENTS ARE RATIONED"

They say it takes lots of savin'
To build a modern home
I know it takes lots of writin'
To build a modern Poem.
I haven't one bit of college knowledge
Lack everything a poet needs
That's the reason regardless of season
I write poetry nobody reads.

Talents, I'm beginning to doubt them
They shouldn't cause me to sweat
And they say I can't write without them
And that causes more regret.
I mail out poems I think superexcellent
But alas and alack
Something's wrong at the end or middle
Because they all come back.

I think this is really the reason
Why I can't write a poem
The cause and reason I am believin'
There is nothing in my dome.
Many have wisdom, and also good lookin'
Talents that truly enthrall.
When I was created such things were rationed
And I didn't get any at all.
(C. S. Parks)

"There are some ungodly young men over in that corner, having fun with the girls," said the preacher, solemnly, as he paused in the middle of his sermon and pointed accusingly in the direction of the graceless youths. "When they are done," he continued ponderously, "perhaps they will give me a chance." And he could not understand why everybody laughed.

School Bus Necessary

Every home in every community is shouldering the loads growing daily out of this war in an all-out effort for brinsing a complete Victory Everyone is accepting new orders daily for this purpose with little objections. However it seems to us that the latest orders restricting the school bus operation starting February 1 is too drastic not to voice our objections. We feel that all organizations, business clubs, and associations should get together and protest the order.

Our men are fighting to protect our land and families. The elimination of the bus service to children living within two miles of a school would create a serious traffic hazard. Many youngsters will have to start to school before daylight due to our change to Eastern Wartime. It is quite dangerous for them to be walking on the highways in darkness. A generation ago, our parents did not have to contend with automobile and truck traffic. It is doubtful if fathers fighting to protect their homes would want this unnecessary sacrifice of children's lives in order to save bus miles.

How much rubber and gasoline will be saved in comparison to the welfare of Young America? More than fifty children are transported in these busses safely. It is also necessary for us to guard the Home Front. Elimination of this service is a definite Health menace and an invitation to a high death rate.

¾ tsp. gelatine
1½ Tbsp. lemon juice

Heat the cider and sugar to boiling point. Pour over gelatine which has been soaking in lemon juice 5 minutes. Stir until well dissolved. Cool. Pour into refrigerator tray and freeze 5 to 6 hours. Serve in chilled sherbet cups.

Spaghetti With Sour Cream and Tomatoes

8-oz. pkg. spaghetti
¾ C. thick sour cream
1½ C. canned tomatoes
1½ Tbsp. sugar
1 tsp. salt
Butter
2 large onions, sliced fine
1 green pepper chopped
½ C. grated cheese.

Break spaghetti into small pieces. Cook in boiling water until tender. Rinse with cold water and drain. Add tomatoes, sour cream and seasonings. Return to fire and cook about 25 minutes or until thick, stirring as needed. Fry the onions and green pepper in butter about 15 minutes and add to the spaghetti. Cook 5 minutes longer. Before serving add the grated cheese. **To Bake in Oven:** Combine the cooked spaghetti with all the other ingredients, except the cheese. Place in casserole and sprinkle top with buttered crumbs. Bake 45-60 minutes in a moderate oven. Sprinkle top with grated cheese and bake a few minutes longer or until cheese is brown.

Stuff Prune Salad

20 large prunes
¾ C. cream cheese
4 Tbsp. milk
2 Tbsp. prune juice

Remove pits from prunes, preserving the shape as well as possible. Mash cheese, add milk and prune juice, and fill carefully into hollow of prunes. Lay five prunes on a crisp lettuce leaf. Serve with French dressing. Serves 4.

It is much easier to be critical than to be correct.

Love never dies of starvation, but often of indigestion.

Combine grape jam with cream cheese and serve on crackers for a thrifty dessert.

Come to whichever affair you desire.

A dance for the boys in the service will be held at West High School Saturday, Dec. 12. Call W. T. (Tom) Lewis for tickets.

Commander Young announced the following committee to select the "Hilltop Man of the Year:" D. C. Finneran and Dr. A. C. Myers representing Camp Chase Post and C. C. Hartley representing the Hilltop Business Men.

Camp Chase Post and Auxiliary announce that plans are now complete for the affair honoring their immediate past commander, C. W. Wagner, and past president, Mrs. Guy B. Myers.

Stewart To Lead Honor Assembly

On Tuesday morning, December 15, at 9 o'clock, the recognition ceremony of the National Honor Society will be held in the auditorium with Herbert Stewart, president of the society, as presiding officer.

Rev. Carveth P. Mitchell of Hilltop Lutheran Church will be the guest speaker.

Those who will discuss the qualifications of the society are: Robert Piper, who will exemplify "Character"; Ann McKee—"Leadership"; Wallace Trotter, "Scholarship;" and Bette Reed, secretary of the society, "Service." Albert Shawd, Lois Jones, Rachel Dines, and Delbert Smith will explain the significance of both the National Honor and the "L" Societies.

Georgie Neff will play "Impromptu", and Herbert's "Manhattan Serenade," as piano solos.

"W" Winners Announced

Despite the fact that this season's football team has not been one of the best, the boys certainly did earn their letters. After all, it takes more intestinal fortitude (guts) to stay out and practice every night on a losing team, than it does to be on a winning team. Ed. Beard, senior, guard, was elected captain of this year's team.

The following received varsity letters: Ends — Charlie Hall, Chuck Weidner, Ernie Dahlen; tackles—Bob Clark, Bob Parks, Harry Andrews; guards—George Ours, Dave Davies, Captain Ed. Beard, and Maurice Embleton; center — Matere Alban; backs—Bob Byerly, Ira Blackwell, Dick Gilmore, Bill Richards, and "Jabbo" Carter.

Woman's Day Service At Church of Christ

Amanda W. Wohrley will be Woman's Day speaker at Hilltop Church of Christ, Sunday morning, Dec. 13. Her subject will be "Climbing the Dragon's Tail." She and her husband, Dr. Ivan Wohrley were sent to Batang, Tibet, by the United Christian Missionary Society. Dr. Wohrley had charge of the Dilts Memorial Hospital there. They went to this station because of the murder by bandits of Dr. Albert L. Shelton. Their station is 70 days horseback travel beyond the railroad.

Mrs. Wohrley is now president of the Licking County Federation of Church Women, member of the Newark Recreation Commission and serves on the executive board of the Newark Community House.

Dramatics Class Organizes New Play Company

Seniors in the 7th period dramatics class have formed as a project, a miniature play production company.

This new program enables all students in the class to familiarize themselves with all activities vital to a full scale theatrical production.

The director, John Glade, and his assistant, Frankie Williams, have full charge of the troupe. Prompters, Charlotte Geese and Frances Crues, made final decisions for the cast after tryouts were held.

"Little Darling" is the play and the cast includes, Bonnie Lee Lear, Jack Renshaw, Ethelmae Thompson, Marjean Trappe Peggy Foster and Harbin Reed.

Three boys, Delbert Smith, Henry Schuster, and Dick James have charge of property and scenery. Painting, rebuilding and making scenery will be studied by practical application.

Betty Elliott, Ruth Friebis, Beverly Phillips, Peggy Fergus, and Delores Moore will act as make-up artists.

In "Crime Doctor"

Vivacious Joan Howard, who has been called "The Most Photographed Girl in the World," appears Sunday nights in the "Crime Doctor" programs over CBS. Miss Howard, whose papa is a retired photographer, started modeling when she was seven years old. She's posed for magazine covers painted by Rolf Armstrong, McClelland Barclay and Arthur William Brown.

White Christmas Service At O. S. U.

The fourteenth annual White Christmas service, sponsored by the Ohio State University Y. W. C. A. and Y. M. C. A., will be held Sunday afternoon at 3:00 p. m., in the men's gymnasium. The University Chorus, under the direction of Louis H. Diereks, will present Handel's "Messiah." This will be followed by the singing of familiar carols, by the entire chorus and the audience.

The soloists for this year's presentation of the Messiah are: soprano, Luann Ketch; alto, Ruth Morgan; tenor, John Girt; bass, John Schmidt. The accompanist for the chorus and soloists will be Jeanne Wagner, who will play the Pastoral Symphony, as the offertory. The narrator will be Rev. Harold Lancaster, pastor of the King Avenue Church. Invocation will be given by Rev. Almus M. Thorp of St. Stephens Episcopal Church. The service is open to the public and invitations have been sent to men in the service at Fort Hayes and Lockborne.

While Christmas is one of the outstanding events of the school year for students, faculty and members of the community. Many campus organizations are giving parties for youngsters, while others are contributing money. This year the contributions will be used to help meet the increasing amount of juvenile delinquency, and other special needs of the social agencies, which have been heightened by the war.

The co-chairmen for this year are Jean Jackson, 299 Kelso-rd, and Joe Calbeck, 429 Ardenrd. Heading the various committees are: Rosemary Wolfe and Jerry Gifford, arrangements; Frances Matthews and Roger Williams, publicity; Dorothy Hamm and Larry Copeland, decorations; Clara Hasenphlug and Art Linzell, ushering; Jeanne Burkhart and Kenneth Friedman, parties; Jeanne Kelley and Richard Allen, program; Ann Fallon and Jim McCullough, organization contact.

Thank goodness we live in a free country, where a man may say what he thinks—if he isn't afraid of his wife, neighbors, or boss, and if he's sure that it won't hurt his business or his reputation.

ALKA-SELTZER BRIGHTENS MY DAY

OCCASIONALLY, I wake up in the morning with a Headache. It sometimes wears off along the middle of the forenoon, but I don't want to wait that long, so I drink a glass of sparkling ALKA-SELTZER. In just a little while I am feeling a lot better.

Sometimes the week's ironing tires me and makes me sore and stiff. Then it's ALKA-SELTZER to the rescue — a tablet or two and a little rest makes me feel more like finishing the job.

And when I eat "not wisely but too well," ALKA-SELTZER relieves the Acid Indigestion that so often follows.

Yes, Alka-Seltzer brightens my day. It brings relief from so many of my discomforts, that I always keep it handy.

Why don't you get a package of ALKA-SELTZER at your drug store today?

Large Package 60c, Small 30c.

All-Opponent Team Named By Buckeyes

Ohio State's Buckeyes, Western Conference champions and top contenders for the nation's mythical gridiron crown, showed surprising agreement in naming their all-intercollegiate opponents' team for the 1942 season in the announcement made today.

Those selected for the first team are as follows: Dave Schreiner, Wisconsin; Al Wistert, Michigan; Alex Agase, Illinois; Fred Negus, Wisconsin; Julius Franks, Michigan; Norm Verry, Southern California; Boo Mott, Northwestern; George Centhaml, Michigan; Elroy Hirsch, Wisconsin; William Hillenbrand, Indiana; Pat Harder, Wisconsin.

Charity Newsies To Sell Papers Dec. 19.

The annual newspaper sale of members of the Charity Newsies will be held on Saturday, Dec. 19.

This year the Charity Newsies participated in the War Chest Campaign and will therefore not make their usual direct solicitation for funds, but will sell papers as usual.

The director of this column is a Newsie and will be glad to deliver a paper to anyone that day. Your orders to Ra. 1128 will be appreciated.

The Newsies still have a big job to do . . . and it is still 100% charity.

Cut Out The Middle Man

This actually happened. The story is told in verse by Esther Weakley, 3 Belvidere-av, Record poetry editor.

Before Christmas

His mother took him to the store
And when they reached old Santa's floor
She said, 'Now tell him what you'd like."
Said this sophisticated tyke:
"I'll just tell Dad—that way, we can
Eliminate the middle-man."

Best Wishes, Doc

To Dr. E. E. McNamee and the new officers of the Hilltop Business Men's Association, our best wishes for a successful year.

In these times of war emergency the job of keeping the home fires burning is a more difficult one than in normal times and the support of the entire community should go out to organizations that attempt to keep the home front alive.

All in Fun

The characters in this story are three: Bill Stokes, Dick Geshwilm and Harry Geshwilm.

Seems as though Geshwilm sr., had suffered a fractured foot and was receiving much attention and sympathy.

In the meantime Geshwilm's son Dick was calling at Stokes' home to see the daughter, and in bantering fun he and Bill got into a tussel which resulted in the latter's wrist being broken.

Now it seems to be a question as to whether young Geshwilm was sent over by dad to do a man's job and break Stokes' arm just to get even with him or whether he felt sorry about all the attention Stokes was missing in view of the fact that his dad had been so much in prominence with his injuries as of late.

Each side has his own version.

Hilltopper On Guadalcanal Wants Jokes

A letter was received this week from Cpl. Ferdinand H. Maier who is serving with the United States Forces on Guadalcanal. Naturally he couldn't tell all the things that would make a very interesting letter.

"You've no doubt read about this place. If not, pick out some of your old newspapers and listen on the radio. Not long ago we witnessed some of the news on the radio. It is plenty hot here in more ways than one. However I'm still well," he wrote.

Even on Guadalcanal where the American forces are being annoyed by the pesky little Japs, the boys are still up on the Ohio State football games. The Ohio State-Michigan game was played Nov. 21 and on Nov. 24 Cpl. Maier wrote his enthusiasm over the victory in the letter. He was a student at State before being inducted into the army.

Are Hilltop Housewives Doing All They Can In The War Effort?

Many Hilltop housewives are not taking the war very seriously. That is evidenced from a trip through any of the alleys of the community.

There have been repeated requests for tin cans and the tin can salvage collection trucks are making regular trips throughout the community to pick them up.

But housewives continue to throw their cans to the trash heaps in the alleys. Possibly many of these same women have made no contribution to the war, have no one in service.

In preparing tin cans for salvage collection they should have the top and bottom cut out of them, then they should be thoroughly washed out and pressed flat. For pick up the cans are to be placed near the curb in a basket on the day a collection is announced.

Is it asking too much to take this little additional time to make a small contribution to the big job at hand? Ask yourself this question, "What am I doing to help my country in the war?"

Your Doctor Needs Your Help on the Home Front

In these days of war emergency the word "Cooperation" has a greater meaning than ever before.. In it lies the successful prosecution of the war on the battlefield and on the home front.

Your Hilltop and West Side Doctor needs your cooperation on the home front.

With the United States Army growing by leaps and bounds there has been a growing demand for doctors in the armed forces. Scores of local men have gone into the service.

This has resulted in a much increased load for the doctors who have been allowed to stay home to care for the health of this community.

In order to ease this load and to assist in providing better service for everyone the following suggestions will be helpful:

1. Try to see your doctor at his office during office hours to avoid a house call.
2. Avoid night calls, except for an emergency.
3. Place your calls, when possible, so they can be made before office hours, or in the afternoon, so they can be made before night. Then be as patient as possible.
4. Observe regular habits with regard to rest and diet to ward off susceptibility to infections.
5. If, at any time a member of the family does show symptoms of serious indisposition, it is advisable to consult the physcian at once. Try to check the illness in an early stage.

If the family physician cannot be reached in an emergency, a call to the Medical Bureau at ADams 8101 will provide medical attention.

This is the second of a series of articles designed to clarify medical problems arising from the war emergency as it affects the community.

— Letters — To the Editor

December 6, 1942.

Editor of The Hilltop Record
Friend Carlton:

Read your editorial in The Record last week and feel that you are somewhat inconsistent. I heard you make a speech just before the gasoline rationing was started and you advised the public strongly to quit complaining and cooperate more willingly in the things we are asked to do. In your articles you not only sympathize with those who are blaming "Washington bureaucrats" for gas rationing but do quite a sizeable amount of complaining yourself.

Your statement, that 90 percent of the people who apply for "C" cards are just waiting for a "day of reckoning" to get even for being discommoded, is certainly a sad commentary on the patriotism of some American people. Of course their excuse is that it is not necessary to do all these things that the government is doing. This is an easy excuse for people to make when they are inconvenienced and are disturbed in their comfortable pattern of life. If government agencies had to justify everything they do to the satisfaction of all the people effected nothing ever could be done. You can't even convince all people that two plus two makes four when some of them don't want to be. During the first World War I once tried to convince one of my comrades-in-arms that the world was round. He would not believe it. He said "What is the matter with you? Get on any hill around here and look over the country side. You can see that the earth is flat." I gave up.

Similar lack of vision is responsible for much of the criticism that is now being made of government officials and government agencies. If people would honestly try to see what could be done within the restrictions laid down, many of them would find that they were not hurt at all. No one is going to be subjected to physical discomfort or suffering and the mental suffering of people is mostly of their own making. Too many people get a tragic note in their voice and cry out "Just what will we do?" if this or that contingency comes up.

Many things can be done to meet the problems of gasoline rationing. First, don't ride when you can walk; second, arrange for the sharing of transportation facilities with your friends and neighbors; third, plan your transportation needs better so that every unnecessary mile of tire use is eliminated. Business places on the Hilltop could pool their delivery services for the duration. Why have 10 or 15 delivery trucks go over the same street when a central delivery service could make one trip for the whole group of stores?

Some things may be difficult to work out but if all citizens cooperate in carrying out regulations instead of setting themselves up as the "judge and jury," we "can all be free."

Sincerely yours,
H. L. Zulauf.

Mr. C. C. Hartley,
Editor Record:

I find myself in complete accord with your criticism of the bureauocratic activities of the Administration at Washington, as in your editorial of the Dec. 4 issue of The Record. You hit the nail right on the head.

The difficulty of making adjustments in the social order in a rapidly changing industrial age is recognized by all fair-minded persons. However, the last election registered a protest vote. It was a protest against waste and extravagance in time of war; a protest against the Administration's past saving of the whole problem of necessary rationing of commodities: against the failure to stabalize manpower; against the weak-kneed attitude toward the wage and hours issue and much other dilly-dallying with great domestic problems.

As a believer in many things in the Roosevelt Administration, I fear the great wave of public disapproval will sweep the whole New Deal overboard. It is not the better aspects of the New Deal that are the objects of public dissatisfaction, but the wasteful and extravagant Administration that threatens to ruin desirable services of government.

Washington blames the people witlf being too complacent in time of war. The people are ready to give whole-hearted support to an all-out war effort to win the war when "Washington gives America a fighting faith that will set us marching."

Recently Time Magazine published some facts about Washington buresucracy, as dug up by Congressman Monroneyi of Oklahoma. These statistics show that the number of men now serving in the armed forces is about 25 per cent more than in World War I. The number employed in war industry is about 10 per cent greater. But the U S. now has 2,871,800 (increasing every day) men and women on the Federal Government payroll, which is up 280 per cent from World War I. And from this army of civilian bureaucracy plans a flood of questionaires, letters, reports, instruction, etc., to drive men in business and industry to insanity or suicide.

Read Jerry Kluts on "To Washinton: An 'E' in Inefficiency" in the Readers' Digest for December.

More power to your pen, Editor Hartley.

U.C.T. Wins Fight To Give Salesmen Gas

After eleven months of unceasing work, the United Commercial Travelers have won a notable fight in behalf of business men in gaining approval of the OPA for additional gas and rubber for salesmen. The order was made with the expressed approval of Mr. Wm. M. Jeffers, Rubber Administrator, who held that if the small business man is to be kept alive, the salesmen must be allowed to continue to visit him.

The order was able to win approval for salesmen to have twice as much gas and adequate provision for rubber for the next year. In particular, salesmen of essential food, shelter, clothing, fuel and medical supplies, were given a maximum of 8600 miles per year. This amount is exclusive of the A or basic mileage which is allowed to every car owner and provides salesmen with approximately 10,000 miles per year.

Forecast Decline In Auto Tag Revenue

An anticipated decline of 10 per cent, or about $2,800,000 in automobile license tag revenue in 1943 was forecast today by Cylon W. Wallace, registrar of motor vehicles, in a report to Hal G. Sours, director of the Ohio Department of Highways.

This loss in tag and gasoline revenues will affect the Department of Highways, the Ohio Highway Patrol, and all cities, counties, villages and townships. The revenue is available for maintenance and repair of highways, for administration, for new construction, for highway patrol operation and the hospitalization of indigent persons injured in traffic.

Don't act too gay this Christmas day
Everybody should remember
That fatal day—Pearl Harbor far away
The seventh of last December.
Display your tree—but think of victory
And the war we are trying to win
Those over the sea fighting for liberty
And Satan trying to hem them in.

Visit friends dear, this time of year
Old chums of the long ago
Twelve sad months 'fore another is here
What it'll bring, I don't know.
Whatever the price we must all sacrifice
Our Nation is now at war
Children cheer with some cheap device
There's crepe on our neighbor's door.

If dried vegetables are precooked in steam they will keep better, require less soaking before cooking and will look and taste better. Those pre-cooked in steam are higher in food value than those pre-cooked in boiling water.

To a pretty girl who passed, a slightly tipsy gentleman said, "Do you speak to strangers on the street?"

"Oh, no!" was the reply.

"Well, then shut up."

"Isn't that hard on the lion?"

"Oh, no. His part of the pot is a snap."

Ordering MORE groceries LESS OFTEN can help win the war

★ ★ ★ ★ ★ ★ ★ ★ ★ ★ ★ ★ ★ ★ ★

Your grocer can't get another truck until this war is won. Help make the one he has last by cutting his deliveries in half!

1. Make your grocery list longer and ask for fewer deliveries.

Sit down and figure out what you need for several days before you make out your list. Then phone your grocer. The more days your list covers, the fewer deliveries your grocer will have to make. Buy wisely, but do not hoard!

2. Carry every small package you can.

Don't ask your grocer to deliver when you can easily carry the packages. Bags filled with groceries are a symbol of patriotism.

3. Take your neighbors to market with you.

Call your neighbors and plan to do your marketing together. Take turns using your cars; this way you'll save tires and gasoline and make life much easier for your grocer.

Your Government needs every truck produced, every gallon of gasoline, every scrap of rubber to win this war. Your grocer is helping by using his truck less often. He enjoyed his friendly calls to your door but he'll have to call less often until Victory is ours. Give him a hand by ordering more groceries every other day!

The Hilltop Record

In Its 26th Continuous Year Of Community Service

Vol. XXVI, No. 25 | The Hilltop, Columbus, Ohio, Friday, Dec. 18, 1942 | Total No. 1249

About Your Tin Cans

There has been a response in our editorial of last week regarding tin can collection and this time it comes from housewives of the community who are trying to do their part in the war effort and go to the trouble of getting their cans ready and then the cans are not picked up.

We have not had a satisfactory excuse from the city collection system as to why these cans are not collected.

One lady in the first square of Richardson avenue reports that she has had cans out for three months on every collection date and as yet the collectors have not been there.

We look back to the beginning of the tin can drive and note that it was more successful in the beginning when the local drive was under the direction of Mrs. W. L. Millikin. Since then Mrs. Millikin has not had a part in the campaign and it seems the drive has bogged down in this section. Certainly some local person should be responsible for the drive.

In the meantime Hilltop housewives should continue to see that their cans are properly prepared and ready for the collectors. The next collection in this secton will be after Jan. 1.

The Hilltop is divided into three sections for tin can pick up. They are 11, 12 and 13. Territory taken in by these include: section 11, from the Scioto River west to the corporation line and north from Broad-st to the corporation line; section 12, takes in Central-av to Terrace-av, and south to corporation line, and section 13 includes Terrace-av west to corporation line and from Broad-st south to corporation line.

Thanks Mr. Graham

For the past two weeks we've meant to express our appreciation publicly to E. B. Gramham for his kindness and cooperation during the week of issuance of gas rations at John Burroughs School.

We have yet to come across anyone who has been so cooperative and willing to help all good causes in the community. Our sincerist thanks, Mr. Graham.

Rug Sold 5 Minutes After Paper Out

This little two line ad brought big results through the Hilltop Record last week: 9x12 rug, good cond., $10. Ra. 4763.

Five minutes after the paper was on the streets this rug was sold. Many other calls were received.

If you have items to sell call Ra. 1125 and place an ad for next week's paper. Every week Record want ads are bringing excellent results for hundreds of Hilltopers.

Victory Fund Campaign Ends Dec. 23

With less than a week's time remaining, Franklin County still is short of its $34,085,600 quota in the December Victory Fund drive, Earl Morris, executive director of the county Victory Fund Committee revealed today.

The campaign will end Dec. 23. Its national goal is nine billion dollars to keep supplies and munitions rolling to men who are making a desperate fight for their country. This is the largest loan in history and reflects the urgency of giving support to fighting forces in the nation's most serious crisis, Morris said.

"A variety of government securities is offered for every type of investment," he said. "There is no doubt about the attractiveness of safety and earnings of these bonds—the largest buyers are insurance companies and investment funds which always seek out the best values in the money market."

Because time is too short for personal solicitation of buyers, they are urged to get details about tax notes and Victory Loan securities at any bank or investment office. The bonds are being sold without cost to the government.

Old Fashioned Christmas Tree At Ohio Museum

An invitation to all is being extended by H. C. Shetrone, curator of the Ohio State Museum to see the old fashioned Christmas tree at the museum, Fifteenth and High-sts, beginning today and continuing to Jan. 1.

The very large tree has been specially decorated with cranberries, popcorn and gingerbread cookies, along with numerous old fashioned toys.

A large battered copper kettle, 125 years old, is nearby for the collection of cigarettes and small gifts for boys in the service.

Parents are urged to bring their children to see the tree. The museum will be open daily from 8:30 to 5 and on Sunday from 1 to 5 p. m.

40 Register In 18 Year Draft

Anyone temporarily ill or permenant invalids may register at a later date.

Jap Occupation Money Sent Home

"I am sending a piece of Jap occupation money," wrote Cpl. Ferdinand H. Maier who is serving with U. S. Forces on Guadalcanal in a letter to Miss Lola Young, 74 N. Harris-av, Wednesday.

"The Jap that had this money will never again have money problems. He is now with his ancestors," the letter stated.

The paper is valued at half a shilling and on its face are palm trees with the lettering "Japanese Government" engraved.

Cpl. Maier wrote in his letter that sleep is snatched at varied intervals and even then it wasn't entirely restful as they are continually awaked "by noises that aren't fire engine sirens."

A graduate of West High School and a former student at Ohio State University Cpl. Mairer made his home at 118 N. Ogden-av.

News from the Boys In Service

Jack Caldwell, 405 S. Warren-av, was sworn into the U. S. Navy Tuesday. He recently enlisted and was told to be ready on notice to leave for active duty. His wife, the former Gloria Braden, will remain here.

I. C. Dodd Jr., son of Mr. and Mrs. I. C. Dodd Sr., 90 N. Ookley-av, was graduated yesterday from Big Springs, Texas Air Cadet School with the rank of 2nd Lt. He has been in the air corps since March. Before going into the service he was employed at Curtiss-Wright Corp. He is a graduate of West High School and studied 10 months at Capital University. Lt. Dodd's mother and niece, Mrs. I. C. Dodd and Miss Sharon Lou Knight, attended the ceremonies and are expected back in Columbus Monday.

Mrs. Icy Scott, 146 S. Ogden-av, received word this week that her son, Corp. Bob Scott, has arrived in North Africa from England where he had been stationed since June. He is a technician in the Air Corps.

Pfc. George McCrea, age 31, former West High School athlete, is visiting his wife, Mrs. Virginia McCrea, 694 E. Kossuth-st, and his father, R. F. McCrea, 1923 Floral-av, while home on a 30-day furlough from Aberdeen, Md.

He was assigned to Aberdeen Proving Grounds from Fort Benjamin Harrison after his induction last May 16. He is a member of the military police in the Third Service Command.

Since September McCrea has been confined to Walter Reed Hospital where he underwent operations on both legs for injuries he suffered years ago in baseball. On Jan. 2 he will report back to the hospital.

McCrea won letters in football, basketball and baseball at West High School and went with the Red Birds to spring training in 1936. After suffering a leg injury he was sent to Sandusky in the Ohio State League. He played out that season but then quit baseball due to the leg ailment. Prior to his induction McCrea was employed by the B. & T. Floor Co.

Jack Livlingstone, 31 S. Warren-av, has two sons in the service. James T. is stationed at Fort Bragg, N. Car, where he is taking his 16 weeks combat and commando training. After completing his para-troop training three weeks ago he was home on a 15 day furlough. He enlisted May 15. On Dec. 15 his wife will leave to visit him at Fort Bragg.

Charity Newsie Sale Saturday

Harry Fleming

The gentleman pictured above, a familiar figure to all Hilltoppers, will be very much in evidence in the vicinty of W. Broad-st again this Saturday morning when the annual Charity Newsies paper sale is conducted.

Harry Fleming, a Newsie for years, has made the solicitation among Hilltop people for a great number of years and in that period has collected thousands of dollars for the Newsies, Columbus' only 100 percent charity organization.

Harry lives at 104 N. Warren-av, and is employed in the city treasurer's office.

Last year he made up his mind that he would not continue as active in the Newsies organization as heretofore and asked C. Carlton Hartley, publisher of The Hilltop Record, to assume a greater part of the Hilltop solicitation for the organization. And so on Saturday morning Hartley will also be present in the Broad-st sector selling papers of the annual Newsie paper.

Persons desiring a copy may leave their order by calling Ra. 1125.

Christmas Party At Glenwood

The City Recreation Department is sponsoring a Christmas party at Glenwood Shelter House Tuesday, Dec. 22, from 7:30 p. m. until 9 p. m.

Entertainment will be furnished by Jimmie Rawlins Studio's and well known entertainers. Community Singing will also be part of the program. War Stamps will be given as prizes.

Any boy interested in entering a basketball team in Glenwood afternoon league, is asked to contact Jerry Walsh at the shelter house. Age limits are 14 to 16 inclusive and from 17 to 19 years of age.

Girls or women interested in playing basketball or volley ball are asked to call Mrs. Evelyne Braden at Ra. 7416.

Boys and girls who use the gym at Glenwood are asked not to wear their gym shoes to and from the center, but to change shoes in the locker room at the shelter house and are also asked to help keep the shelter house clean.

Holy Family will play its annual Alumini vs Varsity basketball game, Friday Dec. 18 at 7:45 p. m. at Glenwood gym.

HIT BY AUTO

Miss Virginia Spires, 18, of 70 S. Eureka-av, was struck by an automobile while crossing Broad-st at High-st Monday morning. She suffered cuts on both knees and ankles and strained back. She was treated at St. Francis Hospital and released.

Record Early Next Week

Next week's Hilltop Record will be delivered on Wednesday, Dec. 23, instead of Friday due to Christmas falling on that date. The deadlines set for copy follow:

All church news must be in the office by noon Saturday of this week.

Want ads will be taken until 9 o'clock Tuesday morning.

Any other news or social stories will be accepted in the office until 9 o'clock Monday morning.

Any person who doesn't receive a paper by 10 a. m., Wednesday is asked to call the complaint into the office before noon that day in order to guarantee delivery.

West Students Sell Record Subscriptions Until Jan. 4

January 4 has been set as the last day West High School will receive credit for subscriptions to The Hilltop Record.

The campaign being conducted by students at West is scheduled to be terminated that day and winner of the $25 War Bond to the student selling the most subscriptions will be announced in the school assembly following the holiday vacation.

January 15 has been set as the date that The Record will go on a paid basis and persons who have not subscribed at that time will not receive the paper regularly thereafter.

Anyone who desires to subscribe and wants West High School to receive credit is asked to call the school before next Wednesday and a student solicitor will call in person.

In the campaign to date West students have turned in enough subscriptions to net the school a profit of $500 or better. The money will go to further athletic activities. Several hundred subscriptions have also been received at The Record office.

Immediately at the conclusion of the campaign being conducted by West students other groups from various Hilltop organizations will be given an opportunity to enter the campaign and will receive liberal commissions on all subscriptions they turn in.

Church, lodge or club groups interested in taking part in the drive are asked to have a representative call The Record or make application at The Record office before Jan. 1.

The Record has a special Christmas greeting card to be mailed to persons who are to receive the paper as a gift. The paper will be mailed anywhere for $2 per year or six months for $1.

Santa Is Coming

Santa Claus, the jovial old gent with the white whiskers, so popular at this season of the year, will be at Seiller's Department Store, 2404 W. Broad-st, in person starting Saturday.

He is scheduled to arrive at 2 p. m., Saturday, with a gift for all the kiddies. He will also be on hand Monday, Tuesday and Wednesday next week. His hours for the entire period will be from 2 to 4:30 p. m. and 6 to 8 p. m.

Seiller's will be open from now through Thursday of next week from 9:30 to 9 p. m. daily.

Hilltop families are finding an array of gift items at Seiller's and saving on rationed gas by patronizing their community merchants. Attention is called to Seiller's page advertisement in this week's issue of The Record.

Notice

Persons who do not receive their Record by 10 a. m. each Friday or other day of publication, are asked to call The Record office, Ra. 1125, by that time if they want a copy delivered to their home. Arrangements have been made to deliver papers to any subscribers who have been missed by the carrier but delivery will not be made unless the complaint is received early the day of publication.

Draft Boards Have Joint Meeting

The personnel of the three Hilltop Selective Service Boards met in a body for the first time Thursday evening, Dec. 10, for 6:30 dinner at Schmelzer's.

The purpose of this meeting as expressed by Jerry G. Spears, chairman of board No. 13, was to "promote fairness in selective service for the community."

"They are our sons, our neighbor's sons, and the sons of the community with whom we are dealing," he commented.

Lt. Col. Carl Wahl, manpower director at state headquarters, and Ed S. Nease, director of public relations, were also present in an unofficial capacity.

Selective service boards are composed of men who are in business and are residents of the community which they serve. Many members of these boards have sons in service.

Attending the informal dinner were members of Board No. 12, E. O. Melvin, chairman, Herbert Deems, M. W. Seiller, Herbert G. Haughn, William Wylie and Nina Herman, clerk.

From Board 11 were Lt. Thomas Scully, chairman, Walter Stephens and Joseph P. Boyhan.

In attendance from Board No. 13 were Jerry G. Spears Sr., chairman, L. G. Scales, E. B. Graham, E. H. Stauch, Roy Hastings and Mrs. C. W. Wagner, clerk.

Two Hilltop Boys Return From Far Corners of Earth In Service of U. S.

Two of the first Hilltop boys to return from remote corners of the globe that have felt the rock of bombs arrived here this week. They are Pvt. Robert Hutchinson, son of Mrs. J. B. Lowry, 363 Mid-land-av, and Lt. James C. Michal, who is visiting with his wife and daughter, Darlene, at the forme r's home, 574 S. Terrace-av.

Pvt. Hutchinson of the United States Marine Corps was wounded in action in Gudalcanal. A piece of shrapnel ripped his right leg from the hip to the knee, after which he was released from duty and sent to the U. S. Naval Hospital at Oakland, Calif. until his return home this week. The shrapnel which struck him weighed about a quarter-pound.

"He limps a little but he's home and safe," was the proud report of the Marine's mother.

Pvt. Hutchinson has developed a real hate for the Jap and his treachery which killed three of his buddies in the bombing in which he sustained his injury.

There is one incident that brings the ire out of this Marine and that is the time when one of his buddies attemped to give first aid to a wounded and badly bleeding Jap.

"A Jap was bleeding badly, so one of our boys started over to give first aid. When he got within a short distance, the Jap let loose with a hand grenade, wounding his would-be benefactor."

Pvt. Hutchinson was treated at Guadalcanal and then was sent by a hospital ship to a Pacific base and then to Oakland, Calif. He hopes to be sent back into combat duty because he wants to get back to give the Jap 'devil' what's due him.

He enlisted in the Marines in January and received his basic training at Parris Island and New River, N. C. He went overseas in June.

His stepbrother, Richard Lowry, age 22, had just started back to Ft. Benning, Ga. a few hours before Pvt. Hutchinson arrived home Monday. He also has another brother, Pvt. John Hutchinson, 23, who is enroute to the war zone.

Pvt. Hutchinson's furlough will allow him to spend the holidays at home.

Lt. Michal returned this week from Camp Lee, Va. where he has been stationed since his recent return from Iceland. He came back to the States to enter Officers Candidate School. He had been in Iceland 13 months.

Many questions were asked Lt. Michal but Uncle Sam's boys have been told not to discuss military matters while on leave.

"It's a pretty hard subject to talk on because I'm afraid I may say a little more than I should. could tell you a few customs of the natives, though."

His leave will be up Dec. 28, after which time he will report back to Camp Lee, Va.

Cowboys Play Here Saturday

George Williams' West High basketball squad will oppose the Blue Devils of Chillicothe tonight, as the Cowboys take to the road for their next-to-last out-of-town game before league play begins in January.

Home-town fans who won't have sufficient gas coupons to follow the Bucks to Chillicothe will be given a chance to see the West team in action tomorrow evening, when the Alumni get together and try to show the Varsity and Reserve teams just how basketball was played in the "good, old days." The Reserve game preceding the Varsity match is scheduled to start at 7 o'clock.

Bucks Win 2 for 3

The Cowboys, sparked by Bill Richards and Dick Hoover, set-shot artists, and Jack Underman, six-foot-five center and rebound specialist, have won two for three so far.

In their opener, they played the full geme without a substitution, to defeat Springfield 33 to 24. Underman scored 15 points in the game and Richards made 10.

The Vikings of Columbus Academy were hardly a match for the West reserves, who took over the contest, after the varsity had rolled up a 34 to11 lead. The game ended with a score of 43 for the Cowboys, 17 for the Vikings.

The first West loss came at the hands to the Golden Gales of Lancaster, who trimmed the locals by the score of 49 to 30, when the Bucks could not match the fast Gales passing attack. Hoover, who missed the Academy game because of illness, was high scorer for the Cowboys with 10 points. Underman scored eight, and Richards tallied five before being ejected from the game on personal fouls.

With veterans as Hoover, Richards, Underman, George Gurs and Dick Carter back, and aided by adequate reserves, the West team appears to have a fair chance to share in city league laurels.

This Is How Your 1943 Auto License Will Look

This the exact size of the 1943 license sticker to be put on your automobile windshield.

Clear off a space five-eights inches wide and two inches deep on the windshield of your automobile or truck for another sticker, Hal G. Sours, director of the Ohio Department of Highways, advised this week.

Red stickers for passenger cars and yellow stickers for trucks are to be used next year in Ohio in lieu of new license plates. They must be displayed by Apr. 1, in the lower right hand corner of the windshield. There will also be red stickers for motorcycles and yellow ones for trailers.

Present license plates on all automotive vehicles and trailers must be kept on the vehicles throughout next year.

Only one sticker will be used on each car or truck. The sticker may be purchased after March 1 at any deputy registrar's office.

No reservations, special number or initial combinations will be available next year. Present plates of that character are to be used.

W. E. Knox Will Present Own Cantata

W. E. Knox, only Columbus resident who has conducted the Chicago Symphony Orchestra, and former director of the Columbus May Festival Chorus, will direct the Hillcrest Baptist choir Sunday evening, Dec. 20, rendering a sacred cantata that he has compiled and adapted from various oratorios.

The compositions have been so arranged as to present the story of the foreshadowing, the advent, and the birth of Christ. The outstanding feature of the entire cantata will be the use of two choirs for the concluding numbers. A choir composed of Hillcrest boys will sing the "Angel's Song," and while the adult choir interprets the Shepherd's Chorus, the Boys' Choir will furnish a background of "Silent Night, Holy Night."

Mrs. Ruth Freshman will be the organist with Mrs. Lois Crosier at the piano. The program will take the place of the regular Sunday evening preaching service and the public is invited.

WESTWOOD PAST OFFICERS

The Past Officers' Club of Westwood Pythian Sisters will meet at the home of Mrs. McClain, 260 S. Roys-av, Friday, Dec. 18. Mrs. Margaret Tanner will be the hostess.

HITLER'S THRONE IS FALLING

Doubtless Hitler sees the handwriting
Incrolled in blood upon the wall
A warning from Heaven to cease fighting
His throne is going to fall.
And Heaven might assuage his punishment
At the white throne mercy seat
If he would now relinquish his management
And beat a hasty retreat

What's wrong with the German nation
Have they no soul of their own?
Must they always suffer in subjugation?
Can't they build a righteous throne?
Their form of government I ain't writin'
But when they know they have lost
Why not recapitulate and cease fightin'
And prevent any further cost.

Hilltopper Tells Of Experiences On African Front

"I experienced a thrill such as I never had before," wrote Lt. Carl Payne to his wife, the former Mary Jean George, of 7 N. Powell-av, in a recent letter telling of his exploits in the North African campaign for which he has been recommended to receive the distinguished flying cross.

The action which he tells about in the letter took place over an unidentified French airdrome taken a few hours before by American forces. After the attack was over all three attacking planes were demolished and Lt. Payne had shot down the first enemy plane, a French DeWortine.

His letter follows in part:

"Our squadron flew in here late Sunday afternoon, Nov. 8," Lt. Payne wrote. "As we were landing at the airdrome we were attacked. Half our squadron had already landed and I had my wheels down, ready to come in, when I heard over my radio that we were being 'jumped.'

"I pulled up my wheels and looked around hurriedly. Then I saw them diving at us with all guns blazing. I picked out two and by shooting at one and then the other made them separate and I took after one.

"He still had the acceleration from his dive and it took me some time to start gaining on him. Finally I was within range and I opened up with my cannons and machine guns. We were both climbing fast.

"He immediately went into a spin and a corkscrew dive and I followed the best I could. He came out of this and went into another steep climb but I was getting to him fast by this time. I let loose again but found I had exhausted my cannon shells.

"I could see my machine gun bullets peppering his fuselage, though, and then my fire shifted to his right wing. It found his gasoline tank and the wing caught fire and exploded. I was at point-blank range when he jettisoned his canopy and bailed out. The planed went down in flames.

"It took a long time for his 'chute to open. Later I found he was okay with the exception of a bullet hole in his hand.

"I landed and found that Maj. Henderson R. Thyng and Capt Kenworthy (who is now my flight leader) had got the other two planes. The combat had taken place right over the field with the remainder of our fliers and Col. Hawkins watching enviously."

Lt. Payne, son of Mr. and Mrs. E. D. Payne, 116 Nottingham-rd, is a former Hilltop resident and a graduate of West High School.

— Letters — To the Editor

Editor;
Hilltop Record;

Hope, Faith, Charity, and the greatest of these is faith, for all Christian Religion is founded on Faith. Faith in a just God, a righteous God.

This same Faith is the very backbone of the "Original Constitution of these United States" and when men loose Faith in their form of Government and start to tear it apart, a little at a time, the day of reckoning is not far off for that Nation.

There is a vast difference between Faith and Loyalty, Loyalty to one Government, loyalty to one Political Belief, may become blind Loyalty, with all reason left out, while true Faith is a thing, not of the mind. It comes from the heart, you can't educate Faith into a person. You must show by your deed and actions that the things you advocate, breed both Faith and loyalty.

This constant tinkering with the "Original Constitution" this constant taking of Civil right "By Force, or decree" has done more to undermine the Faith and Loyalty of the American people than all of the Axis Agents have been able to accomplish.

We have, in this Nation, today, two widely different lines of thought and training. One is the old school of America for Americans. The other is a new and radical departure from that laid down by the founders of this nation.

This latter group springs from the people who love to try new ideas, with no regard for the eventual outcome, and often with little thought of the suffering and hardships that it will entail.

It is an estabilished fact that you can't spend your self out of debt. You go in just that much deeper and when the day of reckoning comes to a nation that tries this they end up as Russia did, in Civil strife and utter confusion.

So it is with all this rationing, there's a well established doubt in the minds of many people "as indicated by the last election returns" as to the real need for rationing. People have lost faith in a government that built its political power by building up a vast machine on such things as W. P. A.; P. W. A. and the vast hoard of people added to administer every new ration Yes there is real reason to doubt the wisdom of the course our government is following, with regard to its own people, the day if reckoning is a thing that many of us have good and sufficient reason to fear.

Youths Asked To Register With NYA

All persons between the ages of 16 and 25 years who are not now in war work are asked to register for war production training with the National Youth Administration.

The plan is to prepare more women to take places on the assembly line that will release men to the armed services.

Since its incorporation as a war training agency of the Manpower Commission the NYA has been preparing young women and men for jobs as welders, aircraft sheet metal workers, machine operators and other specialized war occupations.

Cunning differs from wisdom as twighlight from open day.

To Kill Rumors

Office of War Information, after analysing thousands of rumors, suggests these simple rules which each American can observe:

1. Never repeat a rumor.
2. Do not repeat a rumor which can spike a rumor, cite verbally even to deny it.
3. If you know the facts the facts promptly.
4. If you do not know the facts which can stop a rumor, ask the rumor-teller where he got his facts.
5. Don't give a rumor the benefit of any doubt

GWI points out that the press and radio are fighting rumors —not by the endless process of denying each rumor, but by blanketing the rumors with authoritative information.

The Pass Word Of The Day

"Merry Christmas"!

This is the pass word of the day.

Here at home it is so, as it is on the warm sands of Africa, on Guadacanal, where Jap bombs are dropping, in far away Iceland or Madagascar . . . wherever our American boys are stationed today, under the waving stars and stripes.

You can bet your every dollar that these boys all over the world are passing out this cheery greeting regardless of the circumstances and looking forward to the time when they too can soon be back to enjoy the American way of living that makes that greeting reverberate with meaning.

And we at home can do the most to remember these boys, if, on Christmas Day when we sit down to the festive board we will but rededicate our lives to the cause of freedom and pray for the opportunity to continue to joyfully exclaim to all . . .

"Merry Christmas."

Things We Have With Us

Shortages, priorities, rationing and ceilings are common words of the day.

But as Christmas draws near we can recall that although we have a shortage of peace on earth, we do not have to have a priority to share with the unfortunate, there is no rationing of faith, hope and charity, and there is no ceiling on good will.

• • •

Is There A Santa Claus?

Of all the famous bits printed and reprinted each year at Christmas time we believe the following is in a class with the "Night Before Christmas." It is that famous answer to a little girl's letter written to the editor of the New York Sun years ago:

Dear Editor—I am eight years old. Some of my little friends say there is no Santa Claus.

Papa says: "If you see it in the Sun it's so."

Please tell me the truth: "is there a Santa Claus?"

Virginia O'Hanlon.

Virginia, your little friends are wrong. They have been affected by the skepticism of a skeptical age. They do not believe except they see. They think that nothing can be which is not comprehensible by their little minds. All minds, Virginia, whether they be men's or little children's, are little. In this great universe of ours man is a mere insect, an ant, in his intellect, as compared with the boundless world about him, as measured by the intelligence capable of grasping the whole of truth and knowledge.

Yes, Virginia, there is a Santa Claus. He exists as certainly as love and generosity and devotion exists, and you know that they abound and give to your life its highest beauty and joy. Alas! how dreary would be the world if there were no Santa Claus. It would be as drear as if there were no Virginias. There would be no child-like faith then, no poetry; no romance to make tolerable this existence. We should have no enjoyment, except in sense and sight. The eternal light with which childhood fills the world would be extinguished.

Not believe in Santa Claus? You might as well not believe in fairies! You might get your papa to hire men to watch in all the chimneys on Christmas eve to catch Santa Claus, but even if they did not see Santa Claus coming down, what would that prove? Nobody sees Santa Claus, but that is no sign that there is no Santa Claus. The most real things in the world are those that neither children nor men can see. Did you ever see fairies dancing on the lawn? Of course not, but that's no proof that they are not there. Nobody can conceive or imagine all the wonders there are unseen and unseeable in the world.

You may tear apart the baby's rattle and see what makes the noise inside, but there is a veil covering the unseen world which not the strongest man, or even the united strength of all the strongest men that ever lived, could tear apart. Only faith, fancy, poetry, love, romance, can push aside that curtain and view and picture the supernal beauty and glory beyond. Is it all real? Ah, Virginia, in all this world there is nothing else real and abiding.

No Santa Claus? Thank God he lives forever. A thousand years from now, Virginia, nay, ten times ten thousand years from now he will continue to make glad the heart of childhood.

Disillusioned Santa Reveals Everything In Last Appearance

PHILADELPHIA, PA.—"I'm tired now. In fact, every year around this time I'm very tired." That is what Santa Claus (a professional one though, for the real one doesn't ever get tired) had to say recently as he was taking off his red and white suit, preparatory to going home.

As he pulled off his white whiskers wearily, he continued: "Besides, this business of being a jolly old fellow is highly seasonal work. Just a couple of weeks' work in December, then something over 11 months' vacation. It is a good thing I am an electrician. I'd possibly starve to death." (The kids should have heard such heresy!)

A few seconds followed while he put on his dark green knit tie before he continued his slightly weary talk: "It was all right at first and the pay was good—$4 for a party appearance or a club or a lodge. Or $3 for a private home call. But I guess I can't take it anymore. Anyhow, the kids won't miss me. (Imagine that, the kids not missing Santa Claus!)

Comes next year there will be one ex-Santa who isn't filling stockings, and putting presents under trees, or telling pop to take it easy with son's electric train. That retired Santa will be just sitting in his own home—not, definitely not, at the North Pole—listening to the Christmas carols on the radio, and wiggling his toes. For his shoes will be off.

May the dove of peace return to all the world in 1943 and bring home safely all our friends.

OH, SANTA!
Christmas Stockings Once Feminine Trick

Christmas just wouldn't be Christmas to American boys and girls without a visit from St. Nick.

According to history, St. Nicholas in real life was the Archbishop of Myra and lived during the Fourth century. In the Middle Ages, he makes his first traditional appearance in the legends of the Northland.

One legend concerns St. Nicholas eve, which originally was celebrated on the sixth of December. Young ladies, it seems, would hang up their

stockings in hopes that St. Nicholas would fill them with dowries. After a time, St. Nick and the stocking-hanging custom was incorporated into the celebration of Christmas.

Another legend says that on Christmas eve the spirit of St. Nicholas rode across the land on a great white horse followed by the hosts of innocents slain in Bethlehem by the order of Herod. Children of the Northland filled their wooden shoes with oats for the Saint's horse and set them outside of the door; in the morning, providing the children had been good, the oats were gone and the shoes were filled with nuts and apples.

Eventually, the boys and younger children, the wives and husbands, and even the grandparents, decided the girls were getting too much the best of things; so, they all joined the International Society of Stocking-hangers.

Our ancestors brought St. Nick to America, where he has grown round and fat and jovial, traded his great white horse for eight magic reindeer, and his pack bulged bigger and bigger.

This year Santa's pack may be minus a few luxury products and mechanical gadgets, but that doesn't matter as long as there are mamma dolls, sleds and drums and picture books; toys for the children.

Seniors Plan - - - - Commencement

The 12A class commencement will be held Tuesday, January 26 at 2 p. m. in the auditorium, it was announced by Dr. H. H. Reighley, Friday, December 18. The student speaker will be chosen from the class by vote.

The senior prom will be held Wednesday evening, January 20.

A play, "Little Darling," will be given by the seventh period dramatics class on January 12, in an assembly, under the direction of Mrs. Jeanne Gilmore.

Grad Invents New Gun

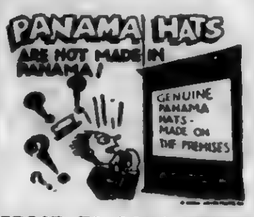
Gene Garrison, a '41 West High graduate who is now stationed with the Marine Corps, at Portsmouth, N. H., has been doing commendable work on a gun which he has invented.

When the other boys go to U. S. O. to spend their spare time, Gene remains in camp and works. He has been permitted to use the Navy Yard drafting room when he is off duty.

This is not new as he has always been interested in this type of work. When at West he made three pistols as his projects in the industrial arts course.

After arriving at his new station his parents sent him the blueprints, which he had previously worked on. He has broadened his knowledge about guns and has added many new improvements. A sergeant has been aiding Gene with his work and the Lt. Colonel is very much impressed with his work.

HOLIDAYS



The thought of reciting extemporary
The meaning for all holidays
Makes me pine to be on the prairie
Far away from the holiday craze.
There's so many I can't save a penny
Can't lay one dollar away
A poor man today can't get a full pay
Account of some silly old holiday.

Holidays to me always causes deflation
Not enough work, too much play
I'd issue a proclamation over the nation
Like we did about Thanksgiving Day.
On Christmas Day I'd have one day of play
Only ONE foolish old holiday
From the gulf north celebrate the Fourth
With all the others on Christmas Day.

FOR PEACE ON EARTH

O warring world, lay down your arms
Let strife and bloodshed cease;
Look to the manger, where tonight
A King was born for peace.

O sinful hearts, let hatred die
For see the star above,
A message shining in the heavens
A King was born for love.

O needy souls, seek Him tonight
And when His star you see,
Take comfort in the blessed thought
The King was born for me.

CHISTMAS EVE

The Christmas snow filters earthward
Gentle and still,
And darkness gathers darkness
On wood and hill.

From windows smug and self-content
Yellow lights glow,
And down the dreaming streets
Traffic moves slow.

Was it such a night as this
The Christ came,
Cold and snow and darkness, and then
The Flame?

The Christmas snow filters earthward
Startlingly still,
And darkness gathers darkness
On wood and hill . . .

—Leland B. Jacobs.

AND ANGELS SING

Last night I saw—so real it seemed,
It could not be that I but dreamed—
About a village still and small
A soft, sweet light began to fall;
A mother with adoring eyes,
While angels cleft the near-by skies,
Her baby held in swaddling clothes,
While rich and poor were kneeling close.
The angels bending low just then
Sang "Peace on earth, good will to men."

My dream was changed, and then it reeled
To bloody, war-torn battlefield;
Then through the frosty, hate-drenched night
There rose a carol, clear and light,
Till here and there a voice it caught,
And friend and foe forgot they fought,
But, slow and wondering, guns did leave
And mingled, friends, that Christmas eve.
The angels must have sung again
Of "Peace on earth, good will to men."

And then I woke, to kneel and pray
That somehow on THIS Christmas Day
A wondrous vision, bright and fair,
Might come to all men everywhere;
And seeing, they'd remember peace—
Remembering, their fighting cease;
That all men should as brothers sing
Upon the birthday of the King—
And angels listening, once again
Sing "Peace on earth, good will to men."

—Alethe Millet.

The giving of gifts to the poor at Christmas time originated with the belief that the Christ Child sometimes came to the door as a beggar.

Wishing you all the joys of Christmas and every happiness in the New Year.

A Few Small Drops...

A few small drops of gasoline — if not used by you and millions like you — will grow into a mighty store of fighting fuel for this great Nation at war.

A few small gallons of gasoline—if you do not demand them—will release, for vitally needed war production and transportation, vast manpower and busy transportation facilities now required to bring you motor fuel.

Do your part. Drive your car only when necessary and conserve both rubber and gasoline. Help your Nation by demanding less gasoline than usual, and thereby release men, trucks, tankers and equipment for the greater task of war production. Help your Nation to conserve its supply of gasoline—the gasoline which will carry our fighting planes, tanks and military equipment to ultimate Victory.

The SPIRIT of SANTA CLAUS

THERE will be many shadows clouding our Christmas Day this year; but—Christmas is important! It comes at the close of the old year binding up the wounds of bitterness, making fast the moorings of friendship, renewing the promise of peace and good will, invoking the magic of memories.

Christmas is the children's feast: has the Master not said that what we do unto the least of His little ones we do also unto Him? It is twenty centuries since there was no room for Him in the inn and many children have neither a bed nor place of safety these nights. For these, we give our efforts, our bundles, and our prayers.

In America, the children must not lose their faith in Santa Claus. The best explanation regarding Santa Claus and the Christmas Spirit I have ever been offered or able to figure out for myself, is the one that was given to me by my mother on that fateful day when I accidentally caught quite literally a boy entering the house bearing an ill-concealed rocking horse.

Santa Claus typifies the Christmas Spirit: the mothers and fathers, those behiskered gentlemen in the stores who puzzle lots of boys and girls by being so numerous, the delivery boys, and all of us who support and participate in the campaign of spreading cheer, we are the life blood and sustaining power of the Christmas Spirit.

The children of today must have their toys this Christmas; and we must be extra-careful that no child has occasion to lose his faith in Santa Claus. There are plenty of sleds and drums, dolls and painted carts and Christmas trees to go around; but it is up to Santa's helpers to see that every child in the land is remembered.

And we grown-ups must have our Christmas, too. For when we out-grow our toys we set this day aside to reunite our families and strengthen the bonds of friendship.

"Yet in thy dark streets shineth
The everlasting Light;
The hopes and fears of all the years
Are met in thee tonight."

ANGLO-SAXON

King Alfred felt among his country's words
His country's destiny;
But Cuedmon, rapt among his master's herds,
Knew all their history:
How all men once had owned a common tongue,
And clumsy dialects the wide world over
Remembered music that the first men sung,
And would discover
Through cries confused, the excellent true stem
And scattered vowels of Jerusalem.

THE EDGE OF NIGHT AND DAWN

His careful steps upon the lawn
Walk the edge of night and dawn.
The tinkle-clink his bottles make
Leaps like minnows from a lake,
A still lake where no paddle trails,
A minnow-school with bright wet scales.
The purring in the dawn-blurred way
Discreetly advertises day,
Then once again is no more sound
Than dew makes, growing on the ground.
He took the quart that held the night
And left another, full of white.

WILD GEESE

I heard them in the night—
The wild geese, crying

Flying—flying!

Bound by bail and chain

I sit, sighing,
While these
Go by on wings!

THE ROMANTIC

I saw you down there drown
I heard the whiff of waves
That caught and held you close
Until you found the graves
Of those other friends
Lost earlier to light
Who talked of mermaids flying
Fishes and the sea-king's height
Swirling the water as we walks
With a cortege of oysters behind
And you are betrayed love
With images of the mind.

—Antonia Swain, in Furioso.

So many songs he had to sing
He knew no time to gather bread,

Death saw no terror in his face—

So many songs he had to spare
That Heaven is now a merry place
And he a welcome comrade there.

Through Faith Alone Can Hope Survive

IT GOT around that it was somehow unmanly to believe in God. Sissy to say your prayers.

Those were the queer, sick years between the two wars. When morality had to do with vice, drinking and the other fellow; when it was all right for even free governments to get away with making promises the instruments of their own renunciation. Those were the years when we forgot justice for "progress" while the world's conscience slipped softly into decline.

So now the half gods rule, loosed in a tempest of our own making. It is the day of the Black Faith, religion of neglect and despair. The creed of brutality and force drives its millions with the fury of a holy war. Humanity is pretty sick, and while planes, tanks and battleships may save the patient—just this once again—they cannot ever cure the disease.

Free men are face to face with a mighty decision. Either they must meet the Black Faith with a great Faith of their own —or surrender to the deluge.

The choice is plain. To oppose the fanatic religion of negation and force with the Faith of their fathers. To learn to live by the creed of decency and justice, righteousness, sympathy and understanding. To find resolution in their belief in the Fatherhood of God and the Brotherhood of Man. Or to deny all hope.

Decent men in their hearts are sick of kindliness and charity just at Christmastime and greed and suspicion the rest of the year. They are weary of a world that has produced telephones and printing presses but has forgotten honesty and the Ten Commandments. They are tired of being told it is "necessary" to oppose working people if they are employers, to hate the "employing class" if they are workers. They are tired of free governments that have so forgotten Jefferson and Lincoln that they encourage class hate in the name of progress.

Decent men want to think of other men as fellow human beings.

It is high time for free America to find again the ideals of its founders. To take pride in mothering the oppressed. To reach out for the meaning of mercy, sympathy and love. To share in proud humility a simple belief in God.

For greater far than all the questions of the war that now face America are the problems of the years to come, the enormous, challenging problems that we shall have to solve as the great free people of the post-war world. We shall have to solve them in the spirit of helpfulness and brotherhood. We shall have to dedicate our strength and our free ideals in wisdom to bring about the lasting peace that will find no nation a pawn, no man a scape-goat, but all peoples neighbors and friends. We tried it the other way once. And it did not work.

Perhaps, even now, unnoticed, the ground swell is beginning. We like to think that, quietly, out of these racking times there may stem a new dignity, never yet attained, for all mankind; rooted in Faith and flowering, not in mere tolerance or respect, but in kindliness and sympathy; in a real wish to understand our fellow men.

Mothers of Grads Organize Club

Mrs. Paul Scoles, mother of Tom Scoles, West High grad, was one of the organizers of the Kane Mothers' Club, which brings together the mothers of the boys on the U. S. S. Kane, in order that they may become better acquainted.

One of the activities of the club is the sale of war bonds and stamps at the J. C. Penny Co. where they take turns in managing the booth.

The Kane Club has twenty-eight active members who have twenty-nine sons aboard the destroyer.

Birthday gifts and other remembrances go out regularly to the U. S. S. Kane. Besides the twenty-nine boys from Columbus, half a dozen orphaned sailors on the same destroyer have learned what it means to have some one back in the States who cares—they're on the birthday list too.

Mothers of the club who have had sons attend West High School are as follows: Mrs. Pearl Scoles, mother of Tom Scoles; Mrs. Edna Bair, mother of Charles O'Donnell; Mrs. Bertha Buckingham, mother of Eugene Buckingham; Mrs. Sarah Stratton, mother of George Witheraft; Mrs. Ralph Ward, mother of John Ward.

— Letters — To the Editor

There is nothing wrong with the tin can collection. It is very effisient. The trouble with the Richardson-av people is they do not get their cans out early enough. The collection begins there promptly each time. I have mine out every time and they are always taken.

IN MEMORIAM
Matthew Rankin Cornwell "Buddy"
Born Feb. 8, 1934
Died Dec. 21, 1940
His smiling [illegible] and pleasant face,
Are a pleasure to recall;
He had a kindly word for each,
And died beloved by all.
Some day we hope to meet him,
Some day, we know not when,
To clasp his hand in the better land,
Never to part again.

The world may change from year to year,
And friends from day to day,
But never will the one we loved
From memory pass away.

Christmas Stories Revealed by History

Fortunately, the "idea" in the minds of some to tell the truth to the kiddies—that there isn't a Santa Claus—isn't catching on as well as they hoped.

Everybody—and this includes the kids—enjoys a good story, especially around the Christmas season.

Down through the years have come many beautiful stories, jammed with the kindness of the best in humanity. It is from such stories that many of our Christmas customs have come. For the observance of such customs the United States is indebted to many lands. Palestine, Egypt, Turkey, Italy, Germany, England and Holland all have done their bit to contribute to our added enjoyment of Christmas customs and traditions. To the Holy Land, more than any other, all civilization is indebted for the matchless history of the Christ child.

One writer who has investigated the observance of the birth of the Christ Child has noticed one curious fact. That is, Christmas was not among the earliest festivals of the church. Irenaeus and Tertullian, early church fathers, omitted it from the list of feasts. According to what Origen noticed in the Bible, only sinners, not saints, celebrated their birthday.

It was in the year 330 A. D. that evidence of the feast of Christ[illegible] was first noted. This was in [illegible]. And it wasn't until years after[illegible] that December 25 was decided upon as being the date for the celebration of Christ's birthday. During that time Christmas was celebrated on various days, one of the dates being as late as May 20. Eight hundred years after the first feast of Christmas, church authorities used the term Christes Maesse, from which comes the English word Christmas. This was in 1038.

CHRISTMAS GREETING SUPPLEMENT

Vol. XXVI, No. 36 | The Hilltop, Columbus, Ohio, Wednesday, Dec. 23, 1942 | Total No. 1241

GREETINGS

May the spirit of the first Christmas enter all our hearts now and throughout the coming year.

MRS. CLARENCE KINNEN, President

Camp Chase Post No. 98 American Legion Auxiliary

Dear Santa: Bring Present, or Else...

Among the thousands of letters addressed to Santa which never get to North Pole, one—showing faith in Santa's kindliness—was mailed by a youngster in Brooklyn.

The young one's name was Mike. He definitely didn't want Santa Claus to miss him. From his associations with the neighborhood gang, Mike thought he knew how to get results.

He sat down and with pen and ink wrote a letter to the white-bearded old fellow. After listing the toys he wanted, he added: "You better bring all this stuff or I'll beat you to a wood pulp."

Intimidation is not so good. But do you think Mike got what he wanted?

Lesson

Across the expanse of the centuries comes this lesson of Christmas: "Peace on earth to men of good will."

Spirit of Christmas, 1942

Christmas day, 1942, will see more soldiers than at any time in the history of our country pay homage to Him who died to bring peace on earth. Thousands of American soldiers stationed in the world's outposts of freedom will attend services on Christmas morning. Special services have been arranged in training camps in all parts of the country. This officer, with his wife and young son, kneels before a replica of the manger in the chapel at Fort Myer, Va.

Sunshine Aids

Mistletoe grows only on the highest branches of the tallest trees because it requires a great deal of sunlight. It is confined to these branches in bottom-land forests of the East. In the brilliant sunshine of the Southwest it spreads over the entire tree.

Gifts for Soldiers

If he is about to spend a year in the army or navy here is a gift suggestion. An official kit made of canvas in khaki or blue, with everything necessary for a shave or a quick cleanup. For an officer, an official musette bag in which to keep his personal belongings.

For the Soldier

Are you wondering what to send to your friends and members of your family who are serving with the armed forces? A lot depends on where they are stationed. But there are some things all service men want, and here they are:

House slippers	Tooth brushes
Wrist watches	Tooth paste
Handkerchiefs	Sewing kits
Pocket knives	Clothes brushes
Scrap books	Metal polish
Tan shoe polish	Fountain pens
Nail files	Postage stamps
Soap	Lighters

Ancient Yule Customs Still Live in England

Many ancient customs prevail in England at Christmas, according to present day records. One custom that goes back to Saxon times is still observed at Okehampton, Devon. Here a "market" is held the Sunday after Christmas at which a man may speak to or kiss any girl who takes his fancy. Mistletoe definitely is not necessary.

In the village of Cam on the day after Christmas the poor are again remembered. For, according to the will of Margaret Trotman, one of Cam's former citizens, any parishioner is entitled to the gift of a loaf of bread. Also, the first 50 widows who apply are given money.

Chinese Copy Custom

Chinese children start Christmas day by folding their hands on arising and wishing each other a good day before opening a single gift. The Chinese have adopted American Christmas customs.

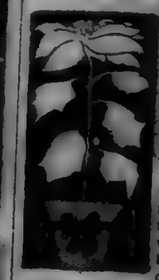
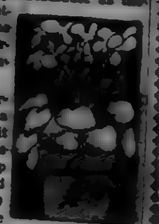
Community Christmas Tree

This striking night photograph typifies the true Christmas spirit as hundreds of small lights glisten from the community Yule tree. The glistening, ice-coated pavement gives an added touch of beauty to a setting familiar throughout America.



YULETIDE

This is Christmas. The laughter of millions of children of a hundred racial heritages mingles with the bells that summon the devout to worship in freedom at altars of their choice. Christmas tree lights blaze bravely through unshuttered windows. Motor cars move to friendly places. There is food in abundance, and general good will over the land. This is Christmas—in America.



Gay Christmas Plants Will Appeal to Mother

Here is a suggestion for the young men and ladies, around 10 or 15, who have been saving their money for mother's Christmas present, yet don't know what to get for her. Get her a Christmas plant!

She'll enjoy it as much as any of the many others. Of all the Christmas plants, the one which truly reflects the season of the year (almost as much as the Christmas tree) is the poinsettia. This red-leafed plant has a soft, yet forceful beauty to it that has, as yet, failed to attract the eye of those who are susceptible to any form of color.

Other red flowers are popular, too, but not as easily obtainable as the pleasant poinsettia. There is the Jerusalem cherry, the red cyclamen.

If you do purchase mother a poinsettia set it in an attractive colored pot (wrap it in colored Christmas paper) and tie a little red ribbon with a bow on it. That will put the "finishing touch" to a Christmas gift that is different.

SCHOOL FOR SANTA

Last year at Buffalo, N. Y., a night school to train new recruits into a crop of finished Santa Clauses was opened. The time may come when every jovial, red-garbed street corner bell-ringer's whiskers mark a Bachelor of Santa Claus Psychology.

There'll Always Be A CHRISTMAS

Our nation is at war . . . the entire world is in turmoil . . . customs fade and fashions change—but amidst it all, Christmas is ever the same.

It is good for us all to be reminded that there is a time in our year when those we love become more important than anything else. There is no selfishness in this spirit—Amid the sorrow and pain that pervades the world at Christmas time. Indeed it's comforting and well to remember, "there'll always be a Christmas."

The Origin of Christmas Carols

Christmas Carols are heard each year at this time in every community. Many have been composed in America, while others were written in foreign lands. Below is presented a few better known songs, with illustrations and a few words about their origin.

O LITTLE TOWN

O little town of Bethlehem,
How still we see thee lie;
Above thy deep and dreamless sleep
The silent stars go by . . .

Following a visit to Palestine in 1868, Phillips Brooks of Philadelphia wrote these words.

I HEARD THE BELLS

I heard the bells on Christmas Day:
Their old familiar carols play,
And wild and sweet the word repeat
Of peace on earth, good will to men.

These words written by Henry Wadsworth Longfellow during the Civil War expresses the same thought today — "Peace On Earth."

IT CAME UPON THE MIDNIGHT

It came upon the midnight clear,
That glorious song of old—
From Angels bending near the earth,
To touch their harps of gold.

Rev. Edmund Sears wrote the words in 1849; Richard Willis composed the music in 1851.

PEACE ON EARTH

In troubled times the old Christmas greetings have a very special significance. To all of you we wish a happy Christmas and peace and prosperity in 1943.

MR. W. J. MANGOLD
Wetalene Laboratories, Inc.
[illegible] E. First Ave.

There is the living tree with no stain of blood upon it, that shall be the sign of your new worship. Let us call it the tree of the Christ Child. You shall go no more into the shadows of the forest to keep your secret rites of shame. You shall keep them at home with laughter and song and rites of love."

This is a statement attributed to St. Boniface, the English-born apostle of Germany who had saved a young child from sacrifice in the early days when Thor was worshipped by the Germanic peoples. The tree the Saint referred to was a young fir, growing nearby.

Such is just one of the many stories connected with the origin of the Christmas tree. The origin of the Christmas tree custom is obscure, notes Dr. Donald Bond, instructor in English at the University of Chicago, for he can quote authorities claiming the Christmas tree's origin in France, Scandinavia, Egypt, England and also Germany.

Only one of all the legends connects the Christ Child with the Christmas tree. This story goes back to the manger at Bethlehem where trees from all over the world had come to do honor to the new born babe. Very little attention was paid to the diminutive fir by the other more beautiful, statelier, and majestic trees. Suddenly, though, star upon star fell upon the little fir until it shone with all the brilliance of heavenly light.

A Scandinavian tale of woe traces the Christmas tree to that land. Two star-crossed, unhappy lovers dramatically died. From the spot where they died, it is related, a tree grew which on Christmas night gleamed with brilliant lights.

German immigrants to the United States in 1843 are said to have introduced the decorated Christmas tree. According to claims of historians, the practice of decorating the tree at Christmas time originated in Alsace in 1605. At that time the natives brought fir trees into their homes and decorated them with homemade decorations and sweets.

Despite the origin of the Yuletide tree, the sale of trees has developed into an extensive, profitable business. Likewise, tree furnishings becoming an enormous business in itself. From records available, it has been learned that over 111,000,000 electric Christmas tree bulbs were sold in America every year. Possibly the amount will not be as large this year as last, but you can be sure that Americans will have their Christmas tree with decorations and lights on them.

Not Santa, but 'Nisson' Visits Danish Children

The Danish children do not have a Santa Claus, but instead a Christmas brownie, called "Nisson," a little old man with a long, gray beard who supposedly lives under the ground.

The chief features of a Danish Christmas dinner are roast goose, rice and apple fritters.

When the storks have left their nests in autumn, boatloads of coarse brown crockery in the shape of little pigs, with a slit in the back, are brought to Denmark and bought by the children. They are savings banks into which the children drop their pennies. The image is not broken until Christmas time.

Here Is a Festive Hard Sauce to Go With Yule Pudding

Even the tasty hard sauce now comes to the table in a gala dress. For instance here are these holiday hard sauce pinwheels to serve with your favorite steamed pudding.

Hard Sauce Pinwheels.

¼ cup butter
1 cup sifted confectioners' sugar
¼ teaspoon grated lemon rind
½ tablespoon cream
2 teaspoons orange juice
½ teaspoon grated orange rind
Orange food coloring

Cream butter until soft and gradually beat in sugar. Divide mixture in half and add cream and grated lemon rind to one portion and the orange juice and rind to the other portion. Add food coloring to orange flavored portion to tint a delicate orange. Spread lemon flavored portion on a cold damp cloth and spread orange mixture over it. Roll as for jelly roll and place in refrigerator. When hard, cut in slices and serve with steamed puddings or mince pie.

The Spectator
By C. C. Hartley

From A Boy In The Service

We picked up the following bit and think it interesting enough to pass on:

Dear Mom—
Well, you know the Lexington was sunk.
So I know you'll be glad
For this word that I didn't sink.
Yes, I was in it, and all through it . . .
The Coral Sea stuff, and now that it's over
I'm no kid any more and I can see
Why this war is to save America.
Mom, I'd dry dishes for you for a month
For one quiet evening on our porch—
Hearing crickets and tree toads
Twanging away and smelling moss roses.
Are the strawberries ripe?
Does Kitty still come over after supper?
I wish I'd told her how swell she is.
When the bombers came at us first,
I felt goose-pimply and light all over.
Then I saw Toby get killed—
From California . . . my pal out here.
And that made me feel like iron
So I could lick the whole Jap fleet.
From then on I pumped lead like mad.
Dad licked me once
For shooting him in the pants
With a bee-bee . . . and I remember that
When my ack-ack caught a bomber square.
I guess you don't know what war is,
Till you see enemies coming to kill you.
I've been thinking about it.
It's not only us fighters
Our enemies want to kill.
They want to kill you and grand-dad.
They want to kill Uncle Jess and Kitty,
And even the kids . . .
. . . They want to kill America.
Do you see, Mom?
The Axis is all-out to win.
There is no halfway in their plan.
We have to be deadly tough
If we are to stop them soon enough.
When I think these thoughts,
I feel very old . . . do you see it too?
One man returned from home
Said it was like a bad dream—
So much awful war here,
And life so much like usual back there.
Are people at home fighting mad Mom?
Fighting mad and determined?
You feel awful helpless out here
If you get the idea
That ALL of America isn't fighting this war.
Did Jimmy pass into 6th grade?
Tell Kehoe I haven't had a decent
Chocolate sundae since I joined up.
I love you Mom.

BRAD.

P. S. I'll be home when I get better
Instead of glasses—please don't feel bad—
I'll only need a monocle now.

Ginther Baby Is Winner In Annual Record Baby Derby

Ralph H. Ginther, 1620 Union-av, was a very proud papa Wednesday when he was informed his wife and baby were to receive the varied selection of gifts which Hilltop merchants have offered the first baby born in 1943, in the annual Hilltop Record Baby Derby.

Young James Robert Ginther gave his first cry at 8:36 p. m. Jan. 1, in Chillicothe where his parents were spending the week-end. Weighing eight pounds at birth, James is a brunette and "looks just like his dad," according to his father.

Before he left for military service Dr. C. O. Cramer was Mrs. Ginther's physician. After he left she was attended by Dr. C. D. Leggett, family physician, at Chillicothe who delivered the baby.

James has a three year old sister, Malinda Sue, who celebrates her birthday on Jan. 19. Ginther expects to bring his wife home sometime next week.

The Ginthers have resided on the Hilltop three years and he is a salesman for the David Davies Packing Co.

Gifts the Ginthers will receive include:

Record To Become Paid Circulation Paper With Issue of Next Friday

This is the last week of guaranteed free delivery of The Hilltop Record to every Hilltop home.

Effective next Friday, Jan. 15, The Hilltop Record will be on a paid subscription basis and from then on will be delivered regularly each Friday to only those homes that have subscribed.

The first step in the subscription campaign was concluded Monday when West High students ceased their solicitations. Beginning today numerous other Hilltop church groups will start soliciting families that have not yet subscribed. These groups will receive a liberal commission for all subscriptions turned in. Any organizations interested in this plan are asked to contact The Record at once.

Persons who have not already subscribed are urged to do so immediately in order that their names may be placed on the list of paid subscribers before next Friday. Rates are $1.50 per year paid in advance, 90c for six months or 15c per month to be paid to a Record collector. Individual copies of the paper will be 5c each starting next Friday.

For over 25 years The Record has been delivered free to Hilltop homes. During that time we have consistently tried to improve the paper. In that time several thousand new homes have been built on the Hilltop and all have received the Record free.

Today, increased costs of production along with a decline in revenues due to the war have made it impossible to continue to give the paper to every Hilltop home. The hearty response already noted in our subscription campaign is indication that people of the community are interested in receiving their community paper weekly.

It is our sincere hope that we may be able to continue publishing the best possible Hilltop newspaper. We sincerely believe every Hilltop family that pays $1.50 for this paper will save far over that amount in less than a year from values advertised by local merchants in our display pages and by all residents of the community on the want ad page.

Jan. 15 will be the effective date of all subscriptions taken to date. All yearly subscriptions turned in to this date will expire one year later. Any subscriptions received after this time will be dated as of the date received at The Record office.

Beginning next Friday guaranteed delivery will be effective to all paid subscribers.

If you do not receive your paper by 10 a. m. each Friday please call The Record office, Ra. 1125, and a paper will be delivered to your home that day. If you do not call we will have no way of knowing if your home was missed. If you call later your paper will be delivered as soon thereafter as possible. However, it is our desire to see that all subscribers receive their papers before noon each Friday.

If you have not yet subscribed w[illegible] step to the phone right now and pla[illegible] order!

First Call For Talent For 14th Annual Hilltop Minstrel

It's time again for the Hilltop Minstrel.

Plans for the 24th annual show were made when the committee met Tuesday evening at the American Legion hall.

Dates set for the production are March 3-4-5. Admission price will be 35c with a charge of 15c being made for reservations. This will include state and federal tax.

Amateur song, dance and novelty acts must register soon and tryouts will be held in about three weeks. Applications for tryout should be mailed to C. H. Campbell, 2766 W. Broad-st, or C. C. Hartley, 2465 W. Broad-st. All persons making application for tryouts must furnish their own accompanist.

The regular minstrel edition of The Hilltop Record will appear on Friday, Feb. 26 and will be delivered to every Hilltop home. Harold Fox is in charge of advertising for the edition.

Musical background for the minstrel this year will be furnished by the Hilltop Chorus under the direction of Dale Gilliland.

Other members of the minstrel committee are Dr. E. E. McNamee, chairman; Joe Briggs, tickets; Curtis Wilcox, publicity; L. E. Saunders, arrangements; Dr. W. M. Baker, hosts; John Riepenhoff, costumes; Henry Mone, scenery; Dale Gilliland, music.

157 Women Active In Red Cross Unit

Among items completed by the unit were 34,000 surgical sponges, stitched dressings, 200 first aid triangulars, 70 shirts for the blood donor center, 1200 daubers and other smaller bandages.

During this period there were 157 women registered with the Hilltop unit to do the work.

Starting Tuesday of this week a new period was begun by the unit. Mrs. Wisker said the unit needs more ladies to help with the work. It is voluntary work and they meet two days a week, Tuesday and Wednesday, at West Broad Street School. Ladies who plan to do the work are not to wear jewels with sets in them and they must bring a fresh wash dress to put on when they get to the school. No nail polish is permitted.

Since the articles being made by the unit are government property they must be locked up. The American Legion Auxiliary of Camp Chase Post No. 98 has donated a chest to the unit for this purpose.

The G. Frederick Smith Chemical Co., 867 McKinley-av, received the following telegram Dec. 21 from General Douglas MacArthur via Washington, D. C.

"To the Men and Women of G. Frederick Smith Chemical Co.
Columbus, O.

"On this sacred day of our Lord, we, the soldiers on the firing line, give thanks to you, the soldiers on the production line, for the sinews of war that make victory possible. We are dedicating this Christmas day to the defeat of our enemies—yes, this Christmas Day—the day after and every day thereafter until we establish peace on earth and good will to men.

MacArthur"

PERMANENT PEACE

In homes and halls they see debating
Methods for permanent peace,
Many weird stories they are relating
Guaranteeing wars will cease.
Infallible plans for reconstruction
Quite a fluent pen some flip
Abolishing all methods of destruction
No need for a bomb or battleship.

When we abolish sin throughout the years,
Friends, only then can we pen
No more battleships, bombs nor tears
"Peace on Earth, Good Will To Men,"
If peace and love abides in our soul
Questions of state we can arbitrate
We can't abolish war while the years roll
Overflowing with greed and hate.

7-Yr.-Old Boy Turns Earnings Into Bonds

Three dollars to most little boys seven years old causes a lot of worry as to how to spend it but when Stanley J. Brown earned this amount from selling Christmas trees he almost had his problem solved before he got the money.

He bought three dollars worth of War Stamps. It took a good bit of work for Stanley, a 3-B student at Highland Avenue School, to sell these trees, his mother said. He is the son of Mr. and Mrs. Earl Brown, 317 S. Wheatland-av.

1942 Gas Tax Income Shows Sharp Decline

Highway "warning" signs affecting every county, city and village as well as the entire state highway system were put out today when the Ohio Department of Highways reported that gasoline tax income for the first 10 months of 1942 is $4,113,643 less than for the same period in 1941.

Director H. G. Sours said this decline of 11 1-3 per cent would be distinctly felt in the operation of the state highway department and in every county, city and village. The gasoline tax is used entirely for improvement of highways throughout the state and in the counties, cities and villages.

Reduce Personnel In Ohio Bureau

Officials of the Ohio Bureau of Unemployment Compensation, operating with federally allocated funds, announces the reduction of its personnel from in excess of 1,700 on Jan. 1, 1941, to an estimated 830 who will be on the payroll for the year of 1943.

The new personnel figure approaches "the emergency war period minimum," Administrator Herschel C. Atkinson told Governor Bricker. This deep cut in personnel has been obtained largely through making only "absolutely necessary replacements" from the drain of personnel to federal government agencies, war industries and the selective service draft. The reduction also was facilitated by a heavy drop in the number of persons filing claims for unemployment compensation due to the high peak of war employment, Mr. Atkinson said.

Ohio State Cagers Meet Indiana

Ohio State basketball team will open their Western Conference campaign Saturday at Indiana.

In spite of the loss of Bob Shaw, the Buckeye team has shown in their recent three game series that they are decidedly a threat in the Big Ten. They have two wins and one loss.

Speed Limit Is Not Observed By Trucks

As rapidly mounting truck traffic continues to pound Ohio's highways to keep pace with the all-out war effort, a survey by the Ohio Department of Highways revealed today that the 35 mile speed limit is being observed chiefly by passenger car drivers, Director H. G. Sours announced.

The report brought out the fact that violations of the 35 mile speed limit by trucks increased from 39.4 per cent to 44.1 per cent while violations by passenger car drivers dropped from 71.4 per cent to 65.2 per cent. It was noted that the number of trucks increased from 21.6 per cent to 38.9 per cent of the total number of vehicles, while the number of passenger cars decreased from 78.4 per cent to 61.1 per cent of all vehicles.

This is our philosophy of surrender: If it's less m eat . . . we can do. If no coffee . . . we can get a rope. If no sugar . . . we promise to be sweet anyway. If no chewing gum . . . always there's the rag. If no cabbage . . . it smells, anyway.

The Hilltop Record

In Its 26th Continuous Year Of Community Service

Vol. XXVI, No. 29 | The Hilltop, Columbus, Ohio, Friday, January 15, 1943 | Total No. 1244

The Spectator by C.C. Hartley

Time For Some Action On City Tax

City Council has put off the matter of a tax for needed city revenue so long that it is becoming more and more of a laugh as they rehash all their various pet proposals and never budge an inch in the direction of accomplishing anything.

Residents of Columbus, we believe, are aware of the situation and are willing to pay some kind of a tax if they will definitely get something in return.

They are willing that police and fire protection should be provided and they are anxious to have the necessary garbage and refuse collection.

In recent weeks we have had numerous calls from local people who have complained about the refuse collection and have stated they would be willing to pay a fee for such collection if the service would be provided by the city.

We sincerely believe some form of a refuse collection fee would not be too bitterly opposed by the public.

And of all the taxing proposals to date there seems to be none that has the merit equal to that of the utilities tax. This would provide the necessary funds, be easily collected and would be equitable.

Cowboys To Meet South Here Tonight

By Harold Mers

After blowing the lid off the city league with a devastating defeat of the highly touted Central basketball squad, the West Cowboys began preparation for their game tonight with the defending league champions.

Pre-season "dope" had rated Central, West and South as the best pennant possibilities, and a victory over the Bulldogs might go far in deciding the final standings.

The South team lost their opener to an underestimated Aquinas quintet, and will attempt to hit the comeback trail tonight at the expense of the Cowboys.

Central Shellacked 46 to 32

It as surprising a game as local basketball fans have seen in many years, a surprisingly good West team completely dominated the Central squad, which had been rated as tops in the city.

The Westerners opened the game's scoring when Dick Carter stripped a long one, and racked up fifteen more points by the end of the first quarter, while their air-tight zone defense held the Pirates scoreless. Not until several minutes had elapsed in the second period, and the score stood at 17 to 0, did Central score.

Leading 23 to 8 at half-time, the Cowboys really put the game "on ice" as they hit from all over the floor to score 19 points in about five minutes. Then Coach George Williams took out most of the varsity and played the reserves for the rest of the game, except for a few minutes when the Central attack started to click, but failed when Underman and Carter were reinserted in the line-up.

Outstanding shooting and passing by Carter and mastery of most of the rebounds by Jack Underman coupled with good teamwork gave West their victory.

Sensenbrenner Heads New Unit of Citizens Service Corps

M. E. Sensenbrenner, 22 N. Ogden-av, has been appointed a district leader of the Block Plan, under the Citizens Service Corps of the Franklin County Council of Defense, by D. S. Eyster, chief of the Citizens Service Corps. Sensenbrenner is widely known on the West Side for his many civic activities, and through his association with the State Civil Service Commission as chief clerk.

He will be assisted by John P. Merriman, vice-president of Seiller's Department Store.

The Citizens Service Corps of the Franklin County Council of Defense is composed of a number of committees, such as salvage, transportation, nutrition, consumers, family security, child care, education, recreation and many others. In order that the thinking and planning of these committees can be projected to many families in Columbus and Franklin County, the Block Plan was established to serve these committees in this manner.

West Columbus, from the river to the city limits, is being divided into three zones, over which there will be zone leaders. Each zone leader in turn will appoint a number of sector leaders, under whom will serve block leaders, each of whom will be responsible for projecting information to approximately 20 families.

The organization has particular merit and is receiving splendid enthusiasm on the part of Columbus citizens because of the fact that it represents a concrete method by which each individual family can be of specific service to their community and to the federal government, in efficient prosecution of the war effort.

Sensenbrenner is particularly anxious that all persons, groups and organizations who are interested in cooperating with him, in the development of this program, register their willingness to do so by calling the Franklin County Council of Defense offices, Ma. 7681, at his office at the State Office Building, Ma. 1265, or by calling The Hilltop Record, Ra. 1125.

Starling Pupils Buy War Bond

At a school assembly last Tuesday, the pupils of Home Room 33 at Starling Jr. High School presented a twenty-five dollar bond to C. W. Riggs, principal, to be held in trust for use of the Starling baseball team.

It took the pupils two semesters to obtain the money to purchase the bond, giving part of their lunch money each day. Every pupil contributed 100% in this effort.

Woody Owens

Wouldn't trade Broad St. for California

California is a long cry from the Philippines but still the people out there have an accurate idea of what this war means.

Woody Owens, former sports writer for the Hilltop Record, arrived home Saturday evening for a 16-day furlough and he told us what a strong impression the war has made on the people of the West Coast.

Outstanding comment from Sgt. Owens was the fact that 80% of the soldiers in the camp are buying a War Bond with their pay each month.

Owens, who was recently promoted to a sergeant, has been stationed at Stockton, Calif. where he has been guarding Japanese internees. Although he wasn't permitted to speak with the Japs Sgt. Owens did see a few interesting things and learned much about the Nipponese race from observation.

According to Sgt. Owens many of the Jap internees are quite wealthy. He calculated there must have been several million dollars among those prisoners. Among the internees were millionaires and movie stars who have been successful in this country. Before he came on his furlough the Japs had been moved to a camp farther inland.

Sgt. Owens commented highly on the Civilian Defense set up in Calif. Right after the start of the war they had many blackouts on the coast but they have subsided somewhat now, according to him.

"There is one thing you might put in that story," Sgt. Owens said after having to refuse to answer some questions due to strict military restrictions." You can tell everyone that I wouldn't trade W. Broad-st for the whole state of California."

One day when he was on a train going between camp and Los Angles Sgt. Owens said he met the first Hilltop boy he had seen in 22 months. It was Clay Kauffman who was active in bowling leagues on the Hilltop.

He will return to camp Monday. While in Columbus he is staying at his wife's home 208 N. Ogden-av. She is the former Dorothy Thornton.

Air Scouting Started Here

Southwest District Boy Scout officials met Tuesday evening in the American Legion Hall on W. Broad-st. At this meeting Charles Riggs was named commissioner for the new air scouting program. Only senior scouts over the age of 15 years are eligible for this.

First and second class and tenderfoot scouts will receive propellars with two, three or four blades for making models or various parts of aircraft.

At this same meeting Ted Webb was named head of leadership training. Councelor for air scouting will be Edward Arn of the Sullivant Ave. Airport.

Frank Mason and Troop 45 will establish new hiking arrangements and physical culture studies for the Southwest District. At a later date a safety and health commissioner will be selected. Tom Lewis was named counselor for archery.

Anyone interested in scouting is asked to contact Robert M. Draper, 74 N. Roys-av, as there is a great demand for men who are interested and desire to have Scout troops.

Howards Have Three Sons In Service

Mr. and Mrs. Elmer Howard Sr., 346 Guernsey-av, will have three sons in the armed forces after next week when two of their boys will leave for training camps.

The first boy in the family to enter the service was Elmer Jr., a second class seaman in the Navy, who has been stationed at New Caledonia since November. Before enlisting in the navy September 1942 he was employed at Ranco Inc.

Jesse J. will report to Ft. Thomas, Ky. Monday to start training in the army. He attended West High School and was employed by the Buckeye Pump Mfg. Co.

Dick who also attended West High will report to Great Lakes Naval Training Station, Ill. sometime next week.

Elmer Howard Sr. is employed in war work at Ranco Inc. and Mrs. Howard said with seven children she found it a little hard to be active in the women's volunteer services.

Vandals Enter Local Restaurant

Schmelzer's Restaurant, American Legion clubrooms and Draft Board No. 13, at 3178 W. Broad-st, were broken into early Monday morning. Money taken from the cash register in Schmelzer's amounted to $1.30, and food and furniture were thrown on the floor.

Not much damage was done in the draft board office other than throwing furniture around. Playing cards in the American Legion clubrooms were also thrown on the floor.

Ralph Schmelzer, owner of the restaurant, said this week that the police are working on the case now.

Shirley Springer Heads Scrap Drive

A scrap salvage drive for keys and old hose is being sponsored by Links, an organization at Ohio State University, from Jan. 21 through Jan. 30. Barrels for the collection will be placed in the main library of the school. All student organizations will take part in the drive. A "V" for victory trophy will be awarded to the group making the most contributions which will be determined by weight.

Chairman of the group is Shirley Springer, 144 S. Brinker-av. Assisting her are Helen Dunning, 467 S. Ogden-av; Frances Pinney, 856 Fairwood-av; Marjorie Cottingham, 103 Riverview-dr, and Evaline Stranahan of Cleveland.

Ulysses Grant Is Record Subscriber

Ulysses Grant is living on the Hilltop!

He is not the Gen. Ulysses Grant of the Civil War but instead Ulysses Grant Broyles, 40 N. Terrace-av, who is the general's name sake.

In 1863 Broyles' family, including six brothers and sisters, moved to Columbus from below Lancaster, O. At this time the war was in "full bloom" and General Grant's name was on every Northerner's tongue. Having a great liking for the general Mrs. Broyles named her infant son for him.

"I don't remember anything at all about the war. I don't even remember what I read about," Broyles remarked when he came in to subscribe to The Hilltop Record this week.

Robinson To Speak To Hilltonia Youth

Arthur Robinson, city editor of the Columbus Citizen and newscaster for WHKC, will speak to young people of the Hilltonia United Brethren Church Sunday at 6:30 p. m. He will use as his subject, "Behind the News," and relate some of his experiences as a newspaperman. It will be guest night and adults are invited to share in the program.

Prof. J. F. Smith of Otterbein College will speak at 7:30 p. m. The men of the church will have charge of the program with Girden Mugrage presiding. Prof. Smith is head of the speech department at Otterbein and is a vice-president of the National Otterbein Brotherhood. A male quartet composed of Rev. W. E. Jones, Howard Pennell, Gale Hamilton and George Roberts will sing and Dayton Blake will play the violin.

All trees have a period of youth when they grow rapidly, followed by a period in which growth slackens and is followed eventually by decay. The fastest growing tree in the world is the balsa which frequently attains a height of 75 feet in five years.

Piano Rolls

Provide Variety of Numbers For Boys In Tenn. Camp

The boys down at Camp Forrest, Tenn., have a player piano and no player rolls.

Now a player piano without rolls is about like the one horse shay without the horse, so say the boys. So they wrote home for music.

One mother passed the request on to The Hilltop Record and last week an appeal for player rolls was made through these columns.

Fifty five such rolls have been received and more are welcome.

In the numbers received to date are selections to appeal to all fancies. For the man patriotically inclined is "The Star Spangled Banner." To recall home is "Beautiful Ohio" and "Keep the Home Fires Burning."

Ironically enough to many of them will be "I Don't Know Where I'm Going, But I'm On My Way," and all will probably join in the chorus of "Then I'll Come Back to You."

On the classical side are such numbers as Schubert's Serenade, Tannhauser's Pilgrim's Chorus and Cavalleria Rusticana.

Stolen Car Caught Here

Patrolmen Robert Baus and Roland Werner, of the traffic control squad, gave chase Wednesday evenng, Jan. 6, to two out of town men who were driving a large car in W. Broad-st without one of the license plates. When the driver refused to stop at the order of the patrol car he sped out W. Broad-st up Westmoor-av and east in Steele-av at 60-miles-per-hour. The patrolmen fired several shots at the car.

When the car crashed into the fence of the State Hospital Grounds at Wheatland and Steele-avs the men left the vehicle and started running. One man got away and the other was captured by the patrolmen.

The man captured gave his name as James Hutter, 21, of Washington, Pa. and said they had stolen the car. He was taken to police headquarters pending investigation.

NIGHTINGALE WING 12

Wing 12 of the Nightingale Cottage will meet next Wednesday at 1:30 p. m. at the home of Mrs. Donald Martens, 609 Binns-blvd.

Drastic over-cutting of the forests in Nazi Germany began shortly after Germany's conservation forests organizations were taken over by the government.

MY DREAM

Snow was falling in seeming delight
Covering Russia like a sheet
Hitler's generals were having a fight
In their secret mountain retreat.
Specters were standing along the wall
Belgiums and Polish gaunt and thin
They seemed to be over ten feet tall
All wearing a ghastly grin.

Generals were fighting a fearful battle
Blood flowing free like water
Then in one corner I heard something rattle
And there stood a Mother and Daughter
Hitler made a leap for the dynamite switch
Emitting a blood curdling scream
And was buried alive like a European fitch
And that is the end of my dream.

New B-M Officers Are Installed

Newly elected officers of the Hilltop Business Men's Association were installed at their meeting Tuesday night. Dr. McNamee, new president, accepted the gavel from Judge Cecil J. Randall, installing officer.

Gifts were presented by the association to John Riepenhoff, retiring president, by Herbert Deems.

Free dinners were won by Dr. P. L. Cordray, Clarence Story and Dr. T. S. Fox.

Entertainment was furnished by the West High Brass Sextet under the direction of Charles Bennett. Included in the group were: Tom and Jack Dale, Roy and Robert Kimes, Bill Hagens, and Ralph Bowman.

Restrict Newspapers

A drastic restriction in the shipment of packages and mail to soldiers overseas was announced late last week by Secretary of War Stimpson.

The new provision allows newspapers and magazines to be mailed only by the publisher and then only if the soldier is a subscriber.

The Hilltop Record will be glad to cooperate with local families in mailing the paper to boys abroad. Many boys in the service abroad are receiving the paper and several have written back expressing their appreciation.

Receive Gifts From Soldier In Australia

Marlene and Diane Schiller received two Christmas presents last Saturday, but when they stopped to consider the distance the package had to cover before reaching them they weren't too critical with Santa's slow delivery service.

The gifts which came from Maj. Harold W. Allen who is serving with the U. S. Army in Australia, were a toy kangaroo and koala bear. Both were made of fur—and in the kangaroo's pouch was a baby kangaroo. The presents started their long journey in October.

Marlene and Diane are the daughters of Mr. and Mrs. Harold Schiller, 3103 Ellis-pl.

BOYS

We are going to establish routes for Carrier boys under our new Subscription plan and will accept applications from reliable Hilltop boys for such routes.

If your application is accepted and if you are assigned a route it will be an excellent chance for you to make some extra money for work that will not interfere with your school work in any way.

Boys accepted will be required to distribute their routes before going to school on the days the paper comes out and follow up complaints and misses, if any, immediately after school.

You will be paid for actual distribution and collection once each month and will receive in addition a commision on new subscriptions actually taken by you.

You won't get rich on this job but you will make good money for the hours it will require of you and your future income will depend on how hard you are willing to work.

Come to the Record office and secure a blank to fill out and we will advise you when we are ready to use you.

Huge Savings:

This week housewives started slicing their bread. There's nothing wrong with this and they aren't objecting.

But an inquiry into the matter does make it appear rather silly for the government to issue such a regulation.

Most bread as it comes from the oven to the wrapping machine passes right through an automatic slicer that requires no manpower for operation. One large bakery with a payroll of around $4000 per week will have a net weekly savings of $13 by not slicing bread.

On the other hand this has caused a great demand for steel knives and more steel will be wasted than under the previous process, to say nothing of the waste of bread by the home slicing method.

It looks like this might be another of the many government restrictions that sound like so much baloney no matter how thin you slice it . . . or whether it even gets sliced.

Life In 1943

From a U. S. Consumers Guide we glean the following important items on what to expect in the way of life in the USA in 1943:

OLD STANDBYS WILL BE HARD TO GET. Some of them, that is: foods like watermelons, celery, artichokes. We have to put our land, labor, and transportation to producing and transporting foods with the greatest food values per acre, man-hour, train. Watery foods will move last.

FAMILIAR FOODS WILL WEAR NEW FACES. More tin cans will go to war, less precious materials must be used for containers. More foods will have to be bought fresh and cooked at home. Cooks will have more need than ever to show skill, getting variety out of monotony.

THERE'LL BE LESS OF SOME FOODS. That will mean rationing. But even then we might be better fed. England's shown how you can take less food, divide it wisely, help people to buy it or get it free, and come out with healthier people. Perhaps we will prove we can, too.

LUXURY FOODS WILL DISAPPEAR. Put away your nickel, little girl. There'll be less ice cream, fewer fancy foods, to spend your money on. Sure, you need calcium for your bones; but you'll get it—or we'll have to see you get it—in foods that will give you best values for your nickel.

YOU'LL CARRY MORE. All the extra services your stores have been doing will be stripped to the bone, to save manhours, machinery, trucks, mailing. Besides carrying more things, you'll have fewer charge accounts, less chance to return goods, more self-service. It will take you longer to shop. Of course, the less frequently you shop the better for everybody.

YOU'LL GET DIRT IN YOUR FNGERNAILS, maybe calloused hands, doing more of your own housework, growing some of your food. More gardens than ever will blossom in and around cities. You'll work in one, to add extra foods to your family's and your neighbors' meals.

YOU'LL BE PROUD OF YOUR PATCHES. You'll mend and darn and patch and repair everything—clothing, utensils, rugs, furniture, automobiles.

Legion Wants Names For Honor Roll

Commander Elmer Young through the executive committee of Camp Chase Post No. 86, has appointed Past Commander Arthur J. Bellar as chairman of the committee which will arrange an Honor Roll for all men and women from the Hilltop who have gone into service.

Committee members are Past Commander Chet Wagner, D. C. Finneran and Larry Scales. It is the purpose of the committee to secure the names and address of these people living West of Central-av through The Hilltop Record.

This committee also plans to issue a certificate of merit to the families of all men killed in action and to those wounded. They will also volunteer their services to assist in any funeral arrangements for veterans of the present war and their families.

It is the general opinion of the committee to erect the Honor Roll in some suitable place on the Hilltop so that either the number of those in service or names can be changed from time to time. Camp Chase Post feels they can offer their services and cooperation to all veterans and their families in this war.

Names of persons in any branch of the armed forces including army nurses and all women's branches of the service should be plainly printed on a penny post card and sent to The Hilltop Record. The information should include the rank, name, service and complete address of the individual. Please do not call The Record office to give this information.

Cowboys To Meet East Here Tonight

By Harold Mers

Local fans will have their last opportunity tonight to see the West team in action on their home floor before the mid-year graduation. The hapless East squad will furnish the opposition and unless the Bengals pull some sort of a rabbit out of the hat, the Westerners should have no trouble in winning tonight's game.

The closing game of the first round will see the Cowboys traveling to North High to do battle with the Maroons who have lost two while winning one in league competition.

If the Cowboys are to have much of a chance for the city pennant, they must win the remaining two games of the first round, because mid-year graduation will take Jack Underman and Richard Carter from the lineup.

The Bucks will still have three veterans in George Ours, Dick Hoover and Bill Richards, each of whom can be expected to do yeoman service in the final round.

Lose One, Win One

After witnessing the last two games played by the West squad, local fans should never be worried about getting war nerves, for in standing the excitement of the last minute loss to South and the final period victory over Aquinas, they have proved themselves.

South's Bulldogs, the city champions defending, eked out a thrilling one point victory over West last Friday when forward Jack Biddle scored a foul in the final 15 seconds of play—with the score tied at 21 all.

The Cowboys' defense held fairly well during the game, but they couldn't seem to get their own scoring plays to click. Failure to make 12 or 13 foul shots probably lost the game.

With the Aquinas quintet leading all through the game, West staged a valiant comeback in the final minutes to break another 21 all deadlock and were moving away from the Aquinians at the final gun, 26-21.

First Aid Course

The Standard First Aid Course will be conducted at West Broad Street School, Hague and Broad-st, Tuesdays and Thursdays at 7:30 p. m., beginning Jan. 28. All Scouters and Cubbers who do not have this course are asked to attend. This is for ladies also. Parents of Cubs and Scouts are invited.

Another Girl

It's another girl born to Dr. and Mrs. W. O. Russell, 196 N. Terrace-av. The latest little lady, [illegible]ce, weighed in at four pounds at Doctors' Hospital, Jan 18. The Russells have another daughter Lynn, 5, and Laulie, 2. Dr. Russell has been in practice on the Hilltop for two years at 2446 W. Broad-st, and this is the second youngster born to them since they became Hilltoppers.

Conduct Revival

Rev. W. C. Graves

Hilltop Community Church started a revival service Wednesday which will continue through Jan. 31. Rev. W. C. Graves is conducting the meeting. This is the third time he has met with the congregation. George Millen is the singer. The church is located at 179 Huron-av. Services will be held each night at 7:30. Rev. J. L. Dean is pastor of the church.

Youth Dies From Burns In Explosion

Burns which he sustained last Thursday evening when the Sunoco Service Station at Burgess-av and W. Broad-st exploded proved fatal to 15-year old Wayne Neff, 130 N. Warren-av early Friday morning in Mt. Carmel Hospital.

Neff was in the station alone at the time and was cleaning his clothing with gasoline which became ignited by a gas stove in the office. A burst of flame and then an explosion blew the boy into the washroom at the station. He was taken to Mt. Carmel Hospital in a private ambulance.

Damages were estimated to be [illegible].

Richard D. Duhm, 16, 46 N. Burgess-av, a friend of Neff said:

"I had just walked out of the station. I looked back and saw the whole place light up. I just heard a big 'pop' as all the glass blew out.

"I ran across the street and called the fire department and when I got back two men were squirting water on Wayne. All his clothes were burned off except his shoes and shorts."

Neff had been employed at the station for six months, working nights as an attendant. He was a pupil at West High School.

Surviving him are his parents, Mr. and Mrs. J. Price Neff; three brothers: one sister and grandmother, Mrs. Walter Ridwell.

Funeral services were held Sunday afternon at Spears Funeral Home after which the body was taken to Plain City for burial in the Forest Grove Cemetery.

Fined For Speeding

John T. Miller, 18, 321 S. Wayne-av, was fined $15 and costs this week when he was brought before Judge Ben L. Pfefferle in traffic court on charges of driving 50 miles an hour in W. Town-st. The judge warned Miller that if he is brought into court again on such charges he will recommend that his ration card be taken from him.

Legion Wants Old Jalopies

Junk Cars Needed To Supply Scrap For Needed War Materials

Ohio Legionnaires started their state-wide Jalopy Round-Up Jan. 10, which is expected to convert thousands of useless junk cars into fighting equipment for Uncle Sam's boys on the battle lines, Commander Elmer Young of the Camp Chase Post, announced today. As American steel plants are faced with a serious shortage of steel scrap, the War Production Board has requested the Legion to comb the entire state, in an effort to move idle jalopies, no longer useful as transportation, into the junk yards where they can be processed into steel plant scrap. Thousands of Legionnaires will participate in this house-to-house and farm-to-farm round-up.

"It is our job to spot every jalopy, contact the owner and ask him to sell or donate the car to an auto-wrecking yard immediately, so it can be scrapped and sent to the steel mills. WE DO NOT WANT ANY USEFUL CAR SCRAPPED.

"The scrap from one jalopy will make a jeep," Young said. "It will make 27 20-millimeter aircraft cannons, three 2000-pound aerial bombs, or 30 .50 caliber machine guns."

"We anticipate splendid cooperation, once owners understand the importance of their useless cars to the war effort," he declared.

Asked what would happen in case owners refused to cooperate he said: "The Legion had no power to requisition jalopies. However, we are required to make a full report to the War Production Board on each jalopy we spot. The date the car is taken to the junk yard is the final item on the report. It will be up to the War Production Board to deal with owners who won't cooperate."

Commander Young urged any patriotic citizen who knew where any jalopies were located to notify the Camp Chase Legion Post.

Assisting the Legion in this drive are: E. Ames Alden, district chief of the War Production Board, Scrap Processors' Branch, and Robert O. Weible, executive secretary of the General Salvage Branch for Ohio.

THE FILLING STATION MAN

The station man doesn't have to worry
About making up his income tax
But Brother he is expected to hurry
Not one minute can he relax.
His fingers bent resembling meat hooks
Must treat auto drivers like a thief
Always looks for crooks and ration books
And nothing but death can bring relief.

Trying to help our soldiers and marines
In his low humble position
Must scrutenize tires, all parts of machines,
"Please pass the amunition.
He is just one of the vast assembly
Silently helping our Nations cause
There's millions the same unknown to fame
Obeying laws without applause.

Hilltop Boy In India Shares His Christmas

Mrs. Lawrence Seibert, 181 Lechner-av, received this letter from her nephew, S/Sgt. Arles L. Mauck. He made his home with his grandmother, May Taylor, 181 Lechner-av. He was graduated from West High School and joined the Air Corps in April 1941. Sgt. Mauck took his training at March Field, Calif. Left the States in Jan. 1942. The letter follows:

December 25, 1942
Some Place in India

There is not much that I can write about, so I will tell you how we spent Christmas Day. I have already told you that there is a large group of refugees from Poland camped near here. They are mostly women and children. So our Squadron invited 25 of the children to our camp for Christmas Day. We took up a collection and raised a large sum of money, as we know what hardships they have had, and are having. We gave each child a gift, which was clothes, we then gave the women $60, to use as they saw fit for Christmas.

We had a swell program arranged for them and the mess hall was decorated, tree and all. We made the trimings in our spare time.

The meal was the same as we had in the states last year, which was very good. The children sure did have a good time. The ages were from 4 to 18 years old. They were dressed up in their best with lots of bright colors. Then in return they had a program for us. Of course it was all in Polish. We have a group of fellows in our Squad that can speak Polish, so they kept us well informed of what was being said.

It would have been a very sad Christmas if it hadn't been for the children, because without children you just can't get the spirit.

My thoughts were home with you most of the day and I know yours were with me, but maybe next year we can have Christmas together.

Adult Nite School Registrations Taken

The Adult Evening School of Ohio State University is still receiving registrations for the winter quarter at the Horticulture and Forestry Building. Many new courses have been added having to deal with war work. Besides these emergency courses there are many others which are strictly academic or commercial that are offered this quarter, it was announced by officials of the school.

Registration will close next week. Students may elect as many courses as they are able to carry for a very low fee. There is no fee if registration is for Nutrition, Home Nursing and First Aid classes only.

Rationing Dates

Rationing dates for the last part of January and the first part of February are as follows:

Today—First page of "A" gasoline coupons expire.

Jan. 22—Second page of "A" gasoline coupons good.

Jan. 31—Last day to use sugar stamp No. 10.

Feb. 1—Sugar Stamp No. 11 becomes valid for three pounds of sugar.

Feb. 8—Last day to use Stamp No. 28 in War Ration Book No. 1 for one pound of coffee.

A BY-PRODUCT OF WAR

We should be planning for reconstruction
Employing our wisest brain,
We've been using our ingenuity for destruction
Let's us it when we get peace again.
Men we have plenty who have the ability
Efficient, sincere and devout
To guide us back safely towards prosperity
Without any question of doubt.

One situation will be hard to regulate
Vast as our country in scope
In Country and State dangerous to subjugate
A serious coalition to cope.
I am referring to gangsters, Man and Woman
Law breakers from shore to shore
Conscience seared by war, one half inhuman
A by-product of every war.

Limit Number of Road Maps Issued

The Ohio Department of Highways road map for 1943 will be a reprint of last year's map, and the supply will be limited to 60,000 it is announced by Hal G. Sours, director.

Distribution of the maps is to be held "to an absolute minimum," Mr. Sours said. The department does not anticipate a heavy demand for the maps this year as was the case in the past due to gasoline rationing and limited use of automobiles.

Winter Driving Rules Prevent Accidents

With nearly three hazardous winter driving months remaining, the news warning that America nautos are leaving highways for the junk pile at the rate of more than three a minute, Chief of Police Otto C. Kaffits today issued rules approved earlier by the War Department for winter driving.

Citing practical prevention methods to minimize winter hazards—inadequate traction and reduced visibility—the chief emphasized that traffic tie-ups and accidents can be cut by co-operation of essential drivers and certain portions of the public which must "get there safely and on time."

Approved winter rules are as follows:

1. If you must drive this winter, fill your vehicle to comfortable capacity and go prepared to get through, regardless of conditions Share your car whenever possible, but drive extra careful.
2. Reduce speed on snow or ice.
3. Use chains on snow and ice.
4. Have your brakes checked as skids on snow or ice frequently start by unequalized brakes.
5. Windshield wipers or defrosters that don't work cause winter accidents. Make sure yours are in good working order.
6. Faulty headlights lead to winter accidents.
7. Sudden slowdowns and stops are a primary cause of skid wrecks. Slow down gradually in gear and "pump" brakes on-off-and-on to point of impending skid on snow or ice. Keep wheels from locking particularly if not safeguarded by anti-skid chains. Maintain plenty of stopping space between your car and the car in front. Don't try to pass on hills or curves. This is risky enough on dry pavement. It's foolhardy on snow or ice.
8. Beware of odorless carbon monoxide gas.

"Remember, accidents and delays help the Axis," and "an ounce of precaution is worth a pound of cure," Chief Kaffits added.

Now Is A Time To Show Our Loyalty

More and more we who have made up a nation on wheels are going to make up a nation on foot. The war and rationing is changing our way of life. No family and no business will remain uneffected by this slowing down of our past high speed.

In this slowing down process people are having time to get acquainted with their neighbors and are finding they are not such bad folks after all.

We are also finding our interests are served best when we depend on our neighborhood merchants.

Some shops have closed because of inability to get merchandise. Others are facing a real struggle, but on the whole we have found an optimistic spirit on the part of Hilltop business people.

They have felt that Hilltop people have been loyal throughout the years and they are doing all in their part to continue to give them the best service possible under these adverse conditions.

Today there is a greater need of cooperation than ever before on the part of both the public and local business people. The two have a dual obligation of keeping the home front campaign progressing so that the boys on the battle fronts will have something worthwhile to which they can come home.

Thanks

Many copies of The Hilltop Record were delivered by mail to local residents last week for the first time. This will be continued.

The service by local mail men last Friday was excellent and we acknowledge their cooperation with a hearty "thank you."

We again remind those who receive their paper by carrier boy that they should call us not later than noon if they do not receive their paper by that time.

In the meantime, to those who have not yet subscribed: You will be helping your carrier boy make a commission and help him build up his route by signing up with him when he calls on you.

Your subscription order will also be taken by calling Ra. 1125.

Depreciation

Ed Melvin claims it's a simple matter of depreciation.

Cowboys In Two Tough Road Games

By Harold Mors

In an attempt to whip the West team into shape after the loss by graduation of Jack Underman, high scoring center, and Richard Carter, flashy little forward, George Williams has scheduled two tough road games to polish up the new team.

The Cowboys will travel to Greenfield this evening to play the McClain cagers, who are undefeated, to date. On Saturday evening, the Bucks will be the guests of Urbana's basketball squad.

Cowboys Finish Strong

One of the characteristics of the West ball club this year has been its ability to tighten up its defense, which was one of the city loop's strongest, and open up its offense in the final minutes of the game.

And that was just what the Westerners did in both of their games during the past week, coming from behind or breaking a half-time to win easily in the final quarter.

Although the Bucks had not anticipated much trouble from the East Bengals, they found themselves tied up in the first half, only matching the Tigers' scoring of 14 points. But it was the final half that really saw the Bucks get under way, scoring from all over the floor, to make the final score 48 to 28.

Victory was sweet to the Hilltoppers Wednesday evening when they took the North Polar Bears over the hill to the tune of 43 to 34. Jack Underman and Dick Hoover were high point men with 15 each.

The Westerners trailed 19 to 17 at half-time, but turned on the pressure in the last frame to score 18 points and put the game on ice.

The two victories leaves West tied for first place with Central, whom they will meet in the opening game of the second round. Unless the West reserves can produce some to fill the shoes of Underman and Carter, West chances will not be so bright.

Unique Banquet At Church Tonite

Headlining social events among Hilltop people for this week will be the merrh rabbit banquet in the basement of the Hillcrest Baptist Church this evening. Governor Bricker, Mayor Green, H. A. (Buck Rider) and Columnist Clyde Moore have been invited to have a part on the program and enjoy the meal which is being served free to all Hillcrest members and friends of the church.

"Fellowship and social adjustment of a church's members must not be overlooked if one wants to build a better church—so, we're hoping to make this affair unique in the way of fellowship banquets," said the pastor when asked what it was all about.

Chefs from Lake Erie who specialize in preparing marsh rabbit are coming to take charge of the kitchen; Hillcrest young men will act as waiters; while the young women will plan the table settings. A number of the church's organizations are cooperating as sponsors. E. Ray Evans, superintendent of the Ohio State Construction Co., will act as toastmaster of the evening. Mr. Rider will introduce the courses of the meal, while Mr. Moore prefers to reserve his comments until he has tasted the food.

Arch Skipper, prominent Hilltop plumber, says that no tickets are being sold and no admission is being charged, but those planning to come must be at their places promptly at 7 p. m.

Hoge Choir To Join In Victory Sing

Sunday evening at 7:30 a victory song service will be held at the Miami Avenue Presbyterian Church under the leadership of the choirs of Miami Ave. and Hoge Memorial Church.

The song service is an adaption of the traditional Welsh "Gymanfa Ganu" and hymns of praise, prayer, faith and devotion will be sung by the congregation, assisted by two choirs with Dal V. Gilliland and W. H. Jones directing.

The public is invited to participate in the service.

Change Firm Name

Announcement was recently made that the former Gem Coal Co. has been changed in name to the J. M. Jackson Fuel Co., 197 Dana-av. J. M. Jackson is he manager. They will sell bonded coal and have wood fire logs of all sizes, according to Jackson.

Three Councilmen Re-elected

Three councilmen were re-elected Jan. 25 at the congregational meeting of Hilltop Lutheran Church. They are, W. B. Dilsaver, H. E. Geshwilm and William Hallsteine.

Bill Epperson Reads Local News From Record In Pacific

Following is a V-Mail letter received by The Record this week from Bill Epperson, a former Hilltop boy now in the armed services, probably in the Pacific area:

Dear Friends:

Just a short note to let you know I received your Xmas greetings and to thank you for your cordiality.

I really appreciate your paper over here, you see I don't have to wade through a lot of war news to find out what my friends are doing for the war.

I haven't lived on the Hilltop for a little over five years now as I went to New York after graduating from West, and while there my parents sent me the Record quite often. So you see I haven't missed much of the home town news.

I don't know how the new Postal Regulations will effect my receiving your paper from now on but here's hoping it won't stop.

Thanks again for your greeting and the best of everything for you and yours throughout 1943.

Sincerely,
Bill Epperson.

Gas Stations On New Hrs.

Starting Saturday, service stations began operating the new nation-wide war-time order allowing them to sell gasoline only 72 hours a week. Stations must observe strict opening and closing hours under these new regulations.

The operators may distribute their 72 hours a week any way they choose but cannot have more than 12 hours in any one day. Provisions have been made that gasoline may be sold after hours only to cases involving health or loss of property, with certain provisions for vehicles with "T" ration stickers.

There is a penalty for those who disregard the provision of the order and the opening and closing hours of each station must be posted in a prominent place.

Seek More Aux. Police

An appeal for volunteers in the Auxiliary police units of the Hilltop was issued in the following statement from local defense units this week.

Mister Hilltopper, are you doing your share for Civilian Defense? Even if you are working in a defense plant this is not enough. We want you to become an Auxiliary Policeman in case of an emergency to help protect homes, lives, and to keep order.

"Pease do your part and enroll in the next Auxilliary Police and Red Cross class. Call Company C 2 Headquarters, Ra. 7308, from 7 to 10 p. m. or see your nearest auxiliary police officer and he will give you information on how to enroll in the next auxiliary police class. A recruiting campaign is now on in Ward 11, Company C 2."

Draft Delinquents Must Report To Boards By Feb. 1

All men in the State of Ohio, between the ages of 18 and 45, single or married, are advised this week by Col. C. W. Goble, State Director of Selective Service, to communicate at once with, and keep their local boards fully informed at all times of their present address. Also, registrants must report immediately any changes in their status, particularly any changes relative to dependency or occupation.

The director pointed out that many registrants have been reported as delinquents because they have neglected to notify their local board of changes of address. This has resulted in their failure to receive questionnaires, notices from their local board, and other important selective service papers. Under the Selective Service Act, such violators are subject to a fine of $10,000 or five years in prison, or both.

All registrants who report, voluntarily, to their local board during the remainder of Jan. 1943, will be given every opportunity to comply with the provisions of the Selective Service Act and, thereby, remove delinquency charges without penalty, Col. Goble said.

He warned all registrants that, beginning Feb. 1, a concerted drive will be conducted by federal, county and municipal law enforcement agencies and officers to round up all delinquents. No leniency will be accorded to those delinquents who have not voluntarily reported to their local boards, and vigorous prosecution of all such cases has been asured by the Department of Justice.

Names of all delinquents remaining after Feb. 1, 1943, will be furnished local papers after that date, for publication.

Rationing At A Glance

This is a regular weekly feature designed to aid you in your current purchases of items rationed by the government. This newspaper believes this service will enable individuals to cooperate more fully in winning the war on the home front.

Coffee: Coupon 28 good for one pound valid through Feb. 7.

Sugar: Stamp 10 good for three pounds through Jan. 31. Both coffee and sugar coupons are from the same War Ration Book One.

Gasoline: Stamp No. Four from Basic Mileage Ration A Book, worth four gallons of gasoline, good beginning Jan. 22 and through Mar. 21. Stamps in B and C books, also valued at four gallons, good for the period as noted on the front of such books.

Tires: New inspection deadlines, A, Mar. 31, every six months; B, Feb. 28, every four months; C, Feb. 28, every three months; T, Feb. 28, every two months.

Tire engineers say inspections and consequent stitch-in-time repairs and recappings greatly extend tire life. Any motorist with a stake in this country's well being will best protect the rubber on his car by not waiting until the last minute for tire inspections.

Fuel Oil: Coupon three now valued at 11 gallons.

Ration Banking—Effective on and after Jan. 27: Business concerns which must open ration banking accounts: Sugar and coffee, primary distributors and wholesalers, retailers who own more than one store, and retailers whose gross volume of food sales was $5,000 or more in December, 1942; also chain retailers.

Those who may open ration banking accounts: Retailers who own only one store and whose gross food volume in December, 1942, was under $5,000. Restaurants, industrial and their bulk users may also open such accounts. In a ration banking account you deposit ration stamps, certificates or ration checks with our own local commercial bank. Then you write ration checks against your deposit whenever you wish to restock a rationed item. Purpose is to simplify the keeping of accurate records and to relieve the local ration boards of considerable detail.

Leffler-Broome Vows Exchanged

Rev. Richard S. Zeisler, assistant pastor of Trinity Episcopal Church, read the 5:30 ceremony there Saturday evening, Jan.9, uniting Miss Norma Ellen Leffler and Mr. Harld B. Broome in marriage.

For the wedding the bride wore a gown of antique ivory Dutchesse satin with deep ruffles of Chantilly lace trimming the heart shaped neckline of the snugly fitted bodice and the wrist length sleeves. Chantilly lace also was down each side of her skirt and around the bottom, terminating in a wide sweeping train. A ruffle of starched lace formed a coronet and held her fingertip veil of ivory illusion in place. She carried a white prayer book topped with a white orchid. Her only jewelry was a gold heart locket.

The bride is the daughter of Mr. and Mrs. Walter T. Leffler, 183 Southampton-av

Miss Olive Broome, sister of the bridegroom, was maid of honor and only attendant for the bride. She wore a princess gown of cameo rose taffeta and net which was fashioned with a petal shaped neckline from which a panel extended to the bottom of the skirt. Full double bell skirts accented the front and back panels. She wore a pompadour hat of matching net and carried a white prayer book, gift of the bride, with a lavender orchid on top.

Mr. Robert Broome, served as best man for his brother and ushers included Mr. Andrew Andrasko and Mrs. Karl Wagner.

A reception for 35 guests was held at the couple's new home, 101 N. Brinker-av, following the ceremony. The couple took a brief wedding trip to Cleveland.

The new Mrs. Broome was associated with the Ohio Farm Bureau. Mr. Broome, who is the son of Mr. Harold E. Broome, 1827 Sullivant-av, and the late Mrs. Broome, is with the Curtiss-Wright Corp.

You Pays Your Money..And Your Points

That's The New Kind of Rationing We're Going To Have, To Divide Up Scarce Goods, And To Give People As Much Choice As Possible

You pays your money . . . and your points. That's the new kind of rationing we're going to have, to divide up scarce goods, and to give people as much choice as possible.

Points rationing is new to Americans. So's 1943.

We'll get used to both of them, in time. But since you've probably had at least one new year before, but never points rationing, we've accumulated a few facts about the latter that may help you get acquainted with this stranger.

Let's start by listening to an imaginary grocer.

"Yes, Mrs. Jones; that's right, 79 cents. 76, 77, 78, 79 . . . correct; thank you, Mrs. Jones."

"Well" you say, "Nothing new there. Mrs. Jones has just bought food for tomorrow's breakfast. She's done that for years. The grocer's added up her bill. He's done that before. He's counted the money, found it all there. The whole thing is as familiar as an old sweatshirt."

But the grocer's still talking. "Yes, Mrs. Jones," says the grocer, "I'll take 16 points for that purchase. Just let me have your book and I'll detach the stamps. Let's see . . . an "8" . . . a 4 . . . a 3 . . . that makes it. Good day, Mrs. Jones."

"Good night!" you say. "What's this about points? Are they money? Do they come in books?"

Nope, folks, they're not money. Yup, they come in books. Little red and blue pages. The government has a book for you. War Ration Book Two, to call it by name.

If you haven't got your copy yet, you can see what it will look like, in the book below.

War Ration Book Two is full of points stamps, and you will be called on to "spend" them right along with your cash money when you go to buy certain kinds of goods that will be rationed in the near future.

Let's get the hang of this points rationing. It's not so hard. People in England have learned about it already. They have been using rationing for more than a year now.

You are an old hand at coupon rationing. You've been living with that ever since last May when the government started rationing sugar.

Every man, woman, and child who is entitled to a sugar book should have one now. War Ration Book One is its right name.

When you buy sugar, you pay cash for it, as always; but you also have to give up a coupon from your ration book or you can't buy sugar, however much cash you may have.

Now sugar is an easy thing to ration. The ordinary everyday kind of granulated sugar—and that's what most people want—is just about the same, wherever you buy it. It's easy to divide up supplies, too, into little or big bags, whatever size the ration comes to. There isn't anything, either, that quite takes the place of sugar for most householders. Of course there are other sweeteners, good ones, too; but they don't compete much with sugar.

That's why coupon rationing works so well with sugar.

But let's look at some other foods that are harder to ration.

Suppose, for a long minute, that a great fire should sweep across the country, burning up vast quantities of cereals.

Suppose this terrible fire should sweep across our fields, into warehouses and factories, even into our grocery stores, until finally, when we caught up with it, we had only a small cereal supply left.

"Nonsense" says Mr. Jones. "That couldn't possibly happen."

You're right, Mr. Jones. We're just supposing.

By the way, Mr. Jones, whats your favorite breakfast cereal?

"Me? Why, oatmeal's my favorite. Never eat anything else at breakfast."

Well, now that's too bad, we'd have to tell Mr. Jones. On account of the great fire there just isn't enough oatmeal left to give you and every other oatmealers enough for breakfast every morning.

"By golly, then, I'll buy some other breakfast food," Mr. Jones says.

What kind would that be?

"I'd probably buy wheatomeal," says Jones.

But the fire that destroyed so much of our oatmeal destroyed lots of our wheatomeal, too. Not as much as oatmeal, but the losses were serious. If all you oatmeal fans start buying wheatomeal, that would clean what little there is off the shelves. Lickety-split.

"Well," says Mr. Jones, "you can't stump me. I'd buy me some grits. Never cared much for them, but believe me I'm not going to work on an empty stomach."

And Mr. Jones is right. He can't go to work on an empty stomach. We have to see that he doesn't.

We have to break the news to Mr. Jones, however, that even the grits supply is low. There is more grits than wheatomeal, and more wheatomeal than oatmeal, but not nearly enough of each one of them so people can go on buying all they'd like of their favorites.

"Then there's only one thing for us to do," says Mr. Jones.

"If all cereals are scarce, one way or another, the government ought to ration them all together. Then everybody who wants cereal would have a chance to buy some kind."

You're right, Mr. Jones. That's good logic.

Mind you, this is only a make-believe example. Our cereals, fortunately, are not scarce. We have bountiful supplies. But we're trying to picture what we would do if we were hard up.

How's the government going to ration these cereals, Mr. Jones?

Give you a "Cereals Rationing Book?"

Make each stamp good for the purchase of a pound of oatmeal, or a pound of wheatomeal, or a pound of grits, say?

Just let everybody spend their stamps anyway they choose?

"Nope. Won't work," says Mr. Jones, "because everybody who likes oatmeal the way I do would still use his stamps to buy oatmeal. That'd get us right back into the same trouble we had before we started rationing."

You're absolutely right, Mr. Jones.

"Shucks, you've got people in the government that could figure that thing out fine, so we wouldn't all flock out, fighting among ourselves to see who'd get his favorite cereal."

Well, then, let's see if this would work:

The government says to you and everybody else: "Since some cereals are shorter in supply than others, we'll make the shortest ones cost more stamps. Like this, say: it'll cost you 4 times as many stamps to buy oatmeal as it costs to buy grits; and twice as many to buy wheatomeal as grits cost."

"Makes sense to me," says Mr. Jones. "Let's try it."

And that in a nubbin, is points rationing.

Thats the point, of points, anyway. There are more reasons behind this kind of rationing; some refinements, too. We'll talk about them a bit. But you've got the idea by the tail, now. Don't let go.

Let's see the government set up a list like this, showing how many stamps it would take to buy each type of cereal (mind you, this is still make-believe):

1 pound of grits .....2 stamps
1 pound of wheatomeal 4 stamps
1 pound of oatmeal .....8 stamps

Then say the government gives you a little book full of stamps. It tells you you can use 8 of these stamps for cereals during the next month.

"Now," says the government to each of us, "go into any store you like, buy any one of these cereals with your stamps (and cash money, too, of course). Maybe you'd prefer to buy oatmeal. But look out. If that's all you buy, your stamps will be gone mighty quick. You'll get only one pound of cereal if you spend all your 8 stamps on oatmeal. But you can get more than one pound of cereals if you spread your stamps over other kinds."

Still hanging on?

Okay.

Well, there you have the points rationing idea, all wrapped up for you, except for one little detail.

When you shop, you don't always pay for the things you buy in pennies, do you?

You shell out quarters, dimes, nickels, as well as pennies. Don't you?

Just so with points rationing.

Instead of making every stamp worth one point, the War Ration Book Two you're going to get has in it 8-point stamps, 5-point stamps, 2-point stamps, and 1-point stamps.

They're simply for convenience, like quarters, dimes, or nickels. If you buy something that costs 24 points, the grocer will simply detach 3 of the 8-point stamps, or any other combination of stamps that would add up to an even 24. (You don't get change in stamps.)

The government's points list, then, for these 3 cereals we've been talking about (but always just as a make-believe example) would really read like this:

1 pound of grits .....2 points
1 pound of wheatomeal ..4 points
1 pound of oatmeal .....8 points

Are you still with us? Because there are a few more things you ought to know about points rationing.

England has found it full of surprises, but flexible, useful, effective.

Here's one of the surprises, and it demonstrates how flexible, useful, and effective the point system really is.

People in England, like lots of us here, are very fond of canned salmon. But canned salmon was scarce, so the government said, "Here's a food we ought to ration, along with other scarce canned proteins. We'll give canned salmon a value of 24 points a pound. Anybody who buys a pound, whatever kind it is—red or pink—will have to pay 24 points."

Now it happens that people had more of a liking for red salmon than for pink even though nutritionally they are pretty much equal. (One advertiser built up sales by telling people his canned salmon didn't turn white.) With both pink and red salmon costing the same number of points, the red salmon disappeared much faster than the pink kind. So the British Ministry of Food—they're the people who handle food rationing there—raised the point value of the red salmon to 32, and didn't raise the point value of the pink. That fixed it so that a person who wanted red had to pay 8 points more for it than he paid for pink. That very quickly swung the demand back to the pink salmon, and gave the grocers a chance to stock up on the red again.

How does that strike you, Mr. Jones?

"Sounds smart to me," says Mr. Jones. "Now I know why we're paying you people to figure things out. You're in a spot to know what foods we're longest on, and what ones we're shortest on. You can set the number of points so people can buy more of the plentiful stuff, and so they'll steer clear of the scarcest stuff."

Right again.

OPA hasn't announced (up to the time we went to press) what commodities it intends to ration with War Ration Book Two. But it's pretty certain that when we ration by the points system, we'll not follow the British pattern exactly. Their points-rationing covers some foods that aren't exactly staple; some might even be considered luxury items. If we point-ration foods here, we'll include more of the staple items.

Take a good look at War Ration Book Two, when you get it. Read it from "kiver to kiver."

OPA has had 150 million copies printed up. They are being shipped to every county in the country, and distributed to local War Price and Ration Boards in each of the counties.

Here are some things you'll notice in the new book:

War Ration Book Two has stamps printed in 2 colors, red and blue. Each color will be good for one group of foods—foods that are closely related to each other in food value. So remember, the COLOR stands for the FOODS that are rationed. OPA will tell us which foods.

Then you'll notice letters printed on the stamps. These letters refer to the TIME during which the stamps may be used for rationed foods. They may represent weeks, or months, or days, even. OPA will tell us how long each letter is food for.

Finally, you'll see big bold numbers on each stamp. All the way through the book they run, from the top of the page down, 8 .... 5 .... 2 .... 1. 8 .... 5 .... 2 .... 1. Over and over again. These NUMBERS are the POINTS you own. When foods are rationed on the points system, these are the points you can spend for the rationed foods. OPA will tell us how many points each rationed food will cost.

How should you shop, when point rationing gets started?

With your pocketbook and your ration book, in hand. That's rule No. 1.

The fattest pocketbook in the country won't buy you more than your share of rationed foods. And don't expect your grocer to wink an eye at you, and say how he understands why you happened to forget to bring your ration book to market. He has to turn in all the stamps you pay him, or he won't be able to stock up again. He'll be rationed on his supplies, just as you'll be rationed on your purchases. So if you want to come back tomorrow, and find these foods on your grocer's shelves, you must pay your points.

Second rule is this:

Make a POINTS budget.

You've been budgeting your food money since the beginning of time. But you've never budgeted "points" before. Now, you have to have 2 kinds of budgets, a money budget, and a points budget. Just remember this: your stamps have to last so long. If you spend them fast, you'll run out of them. And that's just as bad as running out of cash. Just as you have to wait for payday, you'll have to wait for stamp-day.

Here's a third rule that might help: Before you shop, talk things over with your family.

As soon as the list of rationed foods is announced, gather your family together. Ask everyone to help you figure out how much of each kind of rationed food you should buy. Suppose meats were rationed. There will be some who don't like lamb, but do like beef; there'll be some who do like chops, but don't like stew meat. We don't know just which group of foods you'll have to struggle with. But we do know that there will be plenty of choice, among tastes, points, and prices.

And it's a wise buyer who knows his family's first, second and third choices, before he shops.

Carry your list of point-values for each food to market with you, when you shop. There's rule No. 4. Sure, your store will have a list, or markers. But you have a double check if you have a list of your own. Your newspapers and radio will keep you informed on "point values."

Pay your biggest bills with the stamps that have the biggest value. That's rule No. 5. That way you save the low-point stamps for little purchases.

Finally, don't tear stamps out of your ration book until you are right at the counter where you pay your bill.

Your grocer will help you figure out how many points you owe. You will have figured this out too. Be sure you both agree. Then pay your money, AND YOUR POINTS.

Of course it's a bother, learning something new; But when the bother gets most bothersome, try to remember back to the days when you went to market to buy something and you couldn't buy it. The store didn't have any. Other people got theirs. You got none.

Well, point-rationing is a system your government has worked out to make sure your share is tehre when you go to get it.

Maybe the price will be too high and you won't buy it. Rationing doesn't take care of that.

While you are struggling with your points and your money, you might give a thought to the people who have points but not enough money. Their problem is lots harder than yours.

Something else will have to be done for them.

The numbers show the "POINT VALUE" of each stamp
The letters show the time period in which the stamps may be used

HOW POINT RATIONING WORKS

- Point Rationing is a method of rationing similar or related foods by groups. Under Point Rationing each item within the group will be given a point value.
- For example, suppose it became necessary to ration canned foods. Let us say that the group included:

Let's suppose, also, that the supply of canned peas was about as plentiful as usual, and at the same time the supply of canned beans was very small.

- Under these circumstances, canned beans might have a "point value" of 8 points per package.
- On the other hand canned peas being plentiful, would have a low point value—perhaps as low as 1 point per package of the same size.
- In such a case you would be able to buy 8 packages of canned peas for the same number of points it would cost you for 1 package of canned beans.
- In other words, with the WAR RATION BOOK TWO "Point" system you are free to buy what you choose. You can obtain a larger portion of the rationed foods that are plentiful, or you can use your "points" for the scarce items and receive a smaller share.
- "Point Rationing" means Share and Share alike.

For at least three of the growing thousands of aircraft workers at the Columbus, O., Curtiss-Wright plant there is a "special" reason for wanting to turn out the Helldiver dive bombers as fast as possible. Jean Blanc (this is not his real name) has a wife somewhere in France and Georgia Conlon (circle) has a sweetheart who marched away with the French Army. Maxene Heyerdahl hopes to return to her beloved Norway when the Nazis are crushed. All three were in Europe when the German invaders occupied their countries. They managed to reach the U. S. where they immediately took jobs building dive bombers to smash the enemy.

Mrs. G. W. McDonald

During the last war, Mrs. G. W. McDonald was very active in Red Cross work. She knitted sweaters and socks and did what any energetic person could do in the war effort.

This war brings women in full swing in many more activities. Mrs. McDonald, being handicapped because of arthritis is not able to go outside her home to share the burden of increased war activities with other women. Therefore she has started a telephone calling system, awakening war and defense workers and anyone who likes to be on time for work, especially in this emergency.

Mrs. McDonald believes she is the first person in Columbus to start a calling system. She began several months ago and has many satisfied customers.

If you can't buy alarms,—or if you find it difficult to get up in spite of clocks, call Mrs. McDonald at Ra. 5797 for full particulars.

Mrs. McDonald lives at 2497 Steele-av. She sends the Record to a former Hilltop boy now in the armed service.

TYRANNY

Every veneer seared away of civilization
Its capacity for hate untold,
Its slaves do the fighting, suffer starvation
While it seeks power and gold.
It caters to no one except the rich classes
Devestating as pestilence and flood
When hatred and Tyranny rule the masses
There shall flow rivers of blood.

Traveling together are war and Tyranny
It rules with a bayonet and gun
Depriving honest people of their liberty
No brotherly love for any one.
Beware lest it get a hold on our Nation
By camouflaging its blend
Establish by fraud an artful organization
Encroach disguised as a friend.

— Letters — To the Editor

To The Editor:

I am a visitor here and become more amazed every day at the indifference of some of the people to the requests and wishes our government.

One very outstanding thing is the way some people use the phone. The people with whom I am staying happen to be on a four party line and we tried to get a call thru for one hour and forty minutes and recognized the same voice was staying on that long.

We had an occasion to need a doctor one night and asked them to give us the line for just three minutes, they became very indignant. One of the family had to dress and walk four blocks to a public phone.

We are asked to use the phone as little as possible and only for five minutes, which wish is complied with in most places I have been.

Another outstanding thing is the amount of cars that pass up defense workers on the corner waiting for an over crowded bus or street car. That just isn't done any place I have been but Columbus "no one rides alone."

Please do not misunderstand me there are some lovely people in Columbus and it is a nice city and I like it, but am greatly disappointed at the attitude of some of the people. Perhaps they just need to be made to realize that we need cooperation and consideration. In most places if it is not given willingly, the people who are not cooperating are made to do so.

Good Americans just do not use the phone unnecessarily and do not ride alone and do not horde.

—A Dissapointed Visitor.

Meats You've Never Tried

In making meat go farther and keeping food bills down, many housewives are turning to the small meat organs, which are just as high in food value as muscle meats. In addition to liver, kidneys, sweet-breads, tongue and heart, there are several other meat organs, some of which you may never have tried? Beef lung and heart, cooked together? Tripe? Spleen? Bone marrow? Here are some recipes for cooking these meats in different ways.

Beef Heart and Lung

Beef heart and lung go well together in stew, loaf and pickle. To prepare heart and lung, wash thoroughly, then remove gristle and the larger blood vessels. Simmer in water to cover. A beef heart and an equal weight of beef lung will probably require four to five hours to cook tender. If possible, let the cooked meat cool in the broth.

To make a stew with onion gravy, cook a finely choppen onion for a few minutes in one tablespoon of fat. Then stir in three tablespoons of flour. Add gradually two cups of the broth in which the heart and lung were cooked. Dilute the broth with water if the flavor is strong. To the onion gravy add three pints of diced cooked heart and lung and heat the mixture thoroughly. Season to taste with salt and pepper, and if desired add also several peppercorns, about ¼ teaspoon of thyme, and a dash of red pepper. Serve piping hot.

To make a loaf or pudding, cook a finely chopped onion for a few minutes in two tablespoons of fat in a large pan. Add five cups of ground cooked heart and lung and one cup of the broth in which the meat was cooked. Stir in two egg yolks, beaten, and cook slowly a few minutes longer. Season to taste with salt and pepper, and if desired add a little ground mace and chopped parsley. Place the hot mixture in a greased bread pan and chill. Turn out and serve in slices.

Tripe—Fried, Broiled, Creamed

Select pickled or fresh tripe that has already been cooked, or simmer uncooked tripe in water for about six hours or until tender. Cool in the broth.

To fry, cut the cooked tripe into pieces for serving. Dip in a thin batter, or in egg and bread crumbs. In the latter case, let the coating dry well before frying. Brown in two or three tablespoons of fat. Serve hot.

To boil, cut in serving pieces, dip in melted fat, and brown on both sides in the broiler.

To cream, cut the cooked tripe into inch squares or into finger lengths, brown lightly in one or two tablespoons of fat and serve in medium white sauce.

Nourishing Soups For Winter Days

Soup can be the main dish of a meal if it has enough good nourishing foods in it—meat, or dried beans or peas—vegetables, rice, barley, noodles, or some other starchy ingredient—and plenty of flavor. Each substantial soups simplify the homemaker's job of meal preparation, and are easy on the food budget. Most of them take a little time and trouble to prepare carefully, but the later job of dishwashing [illegible]

1 cup diced carrots
1 cup diced turnips
2 cups diced potatoes
Salt and pepper to taste.

Select a beef bone or kunckles of veal and crack the bone to get out all the good flavor and fodo value. Wash the bone, being careful to remove any small slivers, cover with water in a large kettle, and simmer for about four hours, or until the meat on the bone is tender. Then add the onions, celery, tomatoes, carrots, turnips and potatoes to the broth. Simmer gently until the vegetables are tender, but not broken. Season to taste with salt and pepper. Serve the meat with the soup, either left on the bone or ground and added to the soup. Or save the meat to make hash or croquettes.

This recipe makes about three quarts of soup. The soup is equally good reheated and served another day.

To make the soup even more substantial add rice, or short pieces of macaroni or spaghetti, or pearl barley, or cracked wheat.

Custard Royale

2 egg yolks, slightly beaten
1 whole egg, slightly beaten
½ cup stock or milk
salt
cayenne pepper

Mix and bake as for Baked Custard, making a layer only ½-inch thick. Cool. Cut into fancy shapes with a vegetable cutter. Serve in a clear soup adding them just before serving. Handle carefully to avoid breakage.

Peanut Butter Soup

2 cups scalded milk
4 tablespoons peanut butter
salt and pepper

Add peanut butter to milk and season to taste.

Scouts Prepare For Service To Country

In an article, "Toughen Up and Buckle Down," by Dr. James E. West, Chief Scout Executive, Boy Scouts of America, states "America must win this war. Yes, if we appreciate the value of democracy, if we appreciate our privileges, if we appreciate all of the splendid progress of our country, we have just got to put everything we have, regardless of sacrifice, into a cooperative effort to win the war. Scouting has a very definite share in this effort.

Ambassador Grew who served for many years in Japan tells us that the Japanese people have for some time sized up America and particularly our youth on the basis of our activities as being soft. We need to "toughen up" and "buckle down."

The Scout program was originally developed to toughen up those who were needed by their country. Most people know that the task that Baden-Powell, the founder of Scouting, had before him when he was in charge of a large army of untrained men in South Africa, was to help recruits acquire the fundamental qualities of a soldier or a man—resourcefulness, self-reliance, initiative.

Every boy and indeed every girl should feel the importance of knowing how to take care of himself or herself so that they can be better insured against disaster should an emergency require skill in maneuvering, or in avoiding danger, knowledge or proper living.

In a few years, some of the boys now serving in our Scout Troops may be in the front line of battle. Now, through the vigorous program of Scouting, is the time to prepare ourselves for service to our country.

OBITUARY

Mason Sealock

Mason Sealock departed this life Sunday, Jan. 17, aged 62 years. The deceased is survived by his wife, Mrs. Emma Sealock, two sisters, Mrs. Noble Beavers, Mrs. Emma Burchnell, and one brother, James.

He was united in marriage to Miss Emma Karnes in 1908. To them was born one son, John Delno, dying in infancy. For many years he was an employee of the Bell Telephone Co. But for the past 17 years had been employed by the Board of Elections in Columbus.

During the many years the deceased lived in Alton, through his philosophy of life he created a large circle of staunch friends. He was a good husband, a kind neighbor, hospitable in his home and always greeted his friends with a smile. Wherever Mason joined a circle of friends for a chat, he was always warmly welcomed. For he always added brightness and cheerfulness in conversation with a group of friends.

Through different periods he served his township as a member of the school board, justice of the peace and for 30 years or more as central committeeman. He was a member of the Masonic order, believed in the church and always contributed to its financial support.

Wherever there was need for kindness and mercy in our community, Mason was always found helping in all the ways he could. Hence through his fine service in citizenship, he has rendered to his community countless golden deeds. In this memorial I'll mention one of recent date.

The Reeces were an outstanding pioneer family in our community. A short time ago, Joseph Reece, the last of his family, died here and his nearest relatives, a nephew and a niece were living in other states and could not come here. Mason immediately sensed the circumstances and took charge of every detail of the funeral which was held in this church and burial in our cemetery on the family lot.

A real brother could not have shown more interest, nor deeper respect than Mason did in performing this deed of mercy for the last member of the most highly respected Reece family. The following stanza portrays a life our brother sought to achieve:

If I can stop one heart from breaking,
I shall not live in vain;
If I can ease one life the aching,
Or cool one pain;
Or help one fainting robin unto his nest again,
I shall not live in vain.

Respectfully submitted,
W. N. Doherty, M. D.

Don't Blame The Ration Board

One of the most difficult tasks yet to face the ration boards is that of reviewing an application for gasoline for a soldier home on furlough.

We have had instances of boys home from the actual war front, wounded, who wanted a little extra gasoline to visit friends while here for a short time.

The regulations say these boys cannot be taken care of. The local board has sought an interpretation whereby there would be some leniency for such cases.

The same applies to funerals. No matter what relative dies, you are not permitted any additional gasoline for funeral arrangements or services.

This week came definite instructions to the boards that all such rations are definitely out.

Members of the local ration board feel there certainly should be some exceptions to meet emergencies. They regret however, that their hands are tied, so when they say "no," please understand that they are merely following regulations that are made in Washington.

Do You Have A War Garden Spot.

In recent weeks there has been an expression that some local agency should serve as a clearing house in assigning vacant lots for community war gardens this summer.

The Record is glad to assume that responsibility and so will gladly accept offers for the loan or rental of vacant properties for war gardens. If you have such a spot suitable for a garden and want it used this summer please call Ra. 1125 giving your name, address, phone number and description and location of your garden spot.

We will then in turn attempt to find someone to wield the hoe and rake to produce more food for local tables this summer.

Harry Hopwood comes forward with the first offer, stating he has eight such lots available. More are welcome. Thanks, Mr. Hopwood.

'Marsh Rabbit' Substitutes For Meat And Moore For Governor At Banquet

A "marsh rabbit" supper was enjoyed by 220 Hillcrest people last Friday night when the men of the church made their monthly meeting a churchwide social affair.

When it was discovered that Governor Bricker would not be able to make connections from Akron in time to attend, Clyde Moore of the Journal was asked to make the governor's speech. He hesitated then said, "Well, when the governor goes to the White House someone will have to take his place so I might as well get used to it."

Other speakers of the evening were H. A. Rider of the state conservation department, Mrs. Gilbert Coffman who represented the women of the church, and the pastor, C. L. Hawk.

The tables were decorated in red and white and at intervals thorny branches of some bushes which presumably grow along the marshes served as center pieces. After-dinner mints were in the form of gum drops stuck on the thorns of those branches.

It was the best attended social program that the church has sponsored for years, according to Arch Skipper, chairman of the men's committee.

The poet of the evening was E. Ray Evans, who furnished the meat, and who acted as toastmaster. According to Clyde Moore's Tuesday column, "Marsh hares are still just plain muskrats," so there is little likelihood that he will be flooding his basement very soon as means of overcoming the meat shortage

Liberal Arts Student Takes Intense Course In Accounting at OSU

A Hilltop girl is one of eight Ohio State University co-eds who have found their own answer to the question, "What can a woman liberal arts student do to directly aid in war industry?"

She is Mary Seip, 247 N. Oakley-av, who is taking an intensive nine months course in accounting, topping off three years she has had previously in liberal arts programs not closely related to the war.

Along with their classroom work, the girls are getting laboratory experience better preparing them for immediate usefulness in war industry when they graduate this spring. The three in statistics are serving internships in Ohio State's Bureau of Business Research for further practical work.

Ohio State expects increasing number of co-eds, and also of recent women graduates, to "top off" their college work in this way, so they may be of more help in winning the war, at the earliest possible time.

To Proceed With Injunction Suit

The case pertaining to the construction of low cost homes in the Westgate community took on new life this week with all motions filed by attorneys for Sam Roessler and the Able Construction Co. being rejected in Judge Robert P. Duncan's court on Tuesday.

This now means that the injunction suit filed by Roy Chapman can be brought to trial soon. Chapman is being represented by A. J. White of Knepper, Dempsey and White and W. B. Cockrell.

The original injunction suit sought to have the construction of low cost homes in the Westgate area stopped.

Residents of that community point out that numerous homes have been built in that section in a price range far below that originally outlined as restricted when they bought property there.

The court ruled that "the plaintiff may bring the action on behalf of other owners of the same and similar class. There is sufficient community of interest to warrant this and the action is for injunction and not for the recovery of money."

The original injunction also named the Pavey-Johnson Co. and attorneys for Roessler sought to have this name eliminated from the injunction but the court also overruled this motion.

Investigate Need For More Doctors In This Community

Possibility that the Hilltop and West Side may have some of their physicians now serving in the army returned for duty on the home front was in sight following a report of local conditions to Washington by a representative of the community this week.

Cooperation of Congressman John M. Vorys and those high in military circles was promised C. W. Vance, 3023 Palmetto-st, when he called on them Tuesday and Wednesday in Washington to explain that Ohio has furnished more than its share of physicians to the army and that there is a distinct need for more of these men back on the home front.

This was especially borne out in high circles in Washington when it was pointed out that numerous of these professional men have been inducted and then turned into other fields of activities far from their professional careers.

The surgeon general of the United States Army was advised of such instances as that of a local doctor who is now teaching aerial photography and a local dentist serving in a clerical capacity in a Tennessee camp.

The whole matter is being reviewed by the procurement and assignment committee for doctors and will no doubt receive some action within a short time.

Congressman Vorys expressed the desire to go the limit to get relief from this situation for the Hilltop and West Side. He stated he was personally acquainted with the condition and that there should be sufficient relief to guard against any epidemic that might strike the community.

Issue No. 2 Ration Book In Week of February 22

Point rationing of food is scheduled for Mar. 1, according to an announcement this week by OPA, in which it was stated sale of all canned fruits and vegetables will be stopped at midnight Feb. 20, and be resumed on ration basis Mar. 1.

INGENUITY

Now stalking forward is our ingenuity
Which some have said was dead,
It has full charge of our war industry
An efficiency our enemies dread.
Signs on all zones pointing to victory
In the air on land and sea
Ingenuity has been resting in lethargy
But soon it will set us free.

Slow in starting but now it is sailing
Through bleak and boundless space
Bravely forging ahead no fear of failing.
It has never retreated in disgrace.
From Alaska to Japan, Germany and Algiers
Sailing over and under the sea
It hasn't any fears of Satans frontiers
And soon it will set us free.

Up to last year girls were taboo as members of Ohio State University's concert band of 70 members. In 1942 a shortage of men began to develop, and two girls were admitted. This year, when the band gives its annual home concert on Feb. 14, ten girls will be on the stage. Next year? Director Manley R. Whitcomb wonders.

Sometime after the war, a "victory bell" will be installed at Ohio State University to be rung after each athletic victory, as a memorial to this year's graduating class. In the meantime, the memorial fund will serve double purpose by being invested in war bonds — thus helping to "ring in" another kind of victory.

Hi Neighbors
By Kay Kameron

Several weeks ago a very small neighbor boy, came to my door and asked for my cookie pattern. Since then I have always thought of recipes as patterns, so I am sharing with you some of my really good "patterns."

Candy Like Oatmeal Crisps
½ cup butter (melted)
1 cup brown sugar
¼ teaspoon salt
1 teaspoon baking powder
2 cups quick cooking oats
½ teaspoon vanilla
Melt butter, add sugar, mix. Mix oats, salt, baking powder. Add to melted butter and sugar. Blend thoroughly, add vanilla, bake in shallow pan, greased, in moderate oven, 30 minutes, cut in desired shape while warm.

Brown Sugar Cookies
1 cup brown sugar
½ cup vegetable shortening melted
2 eggs
1¼ cups flour
1 teaspoon B. P.
½ teaspoon salt
1 teaspoon vanilla
1 cup chopped nuts
4 cups wheat flakes.
Add sugar to melted shortening, mix well, add unbeaten eggs one at a time, beating well after each is added. Sift flour, baking powder and salt, stir in first mixture. Blend in vanilla and nuts, carefully fold in wheat flakes. Drop by teaspoonfuls on greased cookie pan, about three inches apart. Bake in quick moderate oven about ten minutes.

Starting next Thursday, Feb. 11, the Ohio will show as a single feature Noel Coward's great story of the Royal Navy, "In Which We Serve."

Loew's Broad
Loew's Broad this week is showing the martial comedy-drama, "Three Hearts For Julia" starring Ann Southern and Melvyn Douglas. Ann is more interested in her women's symphony orchestra than in her husband, a war correspondent just returned after two years abroad. Added feature is. Enclosed is money for my subscription for the Record. Thanks so much for notifying me. I would be lost w[illegible] The Record, as is keeps me in touch with all my friends. I have lived on the Hilltop practically all my life.

Give A Pint Of Blood To Save A Life

Members of the Hilltop Business Men's Association have inaugurated a plan whereby they hope to be able to assist in getting donors for the Franklin County Blood Bank.

By giving a pint of your blood to the Red Cross you may be making it possible to save the life of an American boy overseas, or even here at home.

When you take your next inventory of what you have done for the war effort recall that this is one thing that will prove most valuable.

Anyone interested in making an appointment for a blood donation can have arrangements made for same by contacting C. H. Campbell, secretary of the Hilltop Business Men's Association.

Congratulations, Jim

It goes without saying that the selection of Jim Cooper as the Hilltop Man of the Year was very popular in all quarters.

Jim's homey philosophy has added a touch to the news that gives it something his vast radio audience looks forward to each day.

But Jim's big job of the past year has been his sale of war bonds. And in selling over two million dollars worth he says he has merely done what he felt he should do to aid an American victory.

Our congratulations are added to those you have received from so many, Jim. The Hilltop is proud to have you as a genial neighbor and friend.

Sixty-Second Rent Story

Naval heroes from the Pacific battlefront, including Commander Bruce McCandless of the famous cruiser "San Francisco," have found themselves engaged in a "home front" battle with profiteering landlords in war-crowded Vallejo, Calif.

Officers and enlisted men reported exorbitant rents ranging from $65 for two rooms, each nine feet square, in an auto court, to $420 a month for one room and meals for an officer, his wife and child.

Result—one rent violator has been convicted in a criminal action—69 landlords have been forced to refund more than $5,000 to 154 tenants—injunction proceedings have been started against hotels and other rental units. And set-back orders already issued will result in at least a $10,000 reduction in Vallejo's monthly rental bill.

Minstrel Tickets Go On Sale

Tickets for the fourteenth annual Hilltop Minstrel show on Mar. 3, 4, 5, went on sale this week in practically all Hilltop business houses. The reserved seat sale will open at noon, Saturday, Feb. 27, at Shank and Saunders, 2459 W. Broad-st.

End men for the show were announced this week by C. C. Hartley, director, as follows: Leo Phillips, Billy Southworth, Marvin Southworth, Joseph McLinn, Sam Russell and Herbert Davis. Mayor Floyd Green will act as interlocutor again.

Musical background for the show will be furnished again by the Hilltop Chorus under the direction of Dale Gilliland.

Several dance numbers have been selected and the list will probably be headed with a fast routine by Berniece Goodchild and a cake walk by Miss Keith Lovewell and Sue Ann Elleman.

Music for the show will be furnished by Mac Toolll's orchestra.

Burglars Enter Homes

Several Hilltop homes were entered during the past week by intruders.

Mrs. Carolyn Renner and daughter, Anna, 109 S. Burgess-av, were threatened Saturday night by a burglar who entered their home. While they were in an upstairs locked bedroom the burglar tried their door and said he would kill them if they didn't tell him where he could find money. He fled when Anna screamed for help.

Police later found that the wall telephone had been torn out and a $20 wrist watch was missing.

A short time later police had a report that the home of George Copeland, 193 N. Hague-av, and that of Carl Seymour, 300 N. Hague-av, had been entered. A watch valued at $45 was stolen from the Copeland home and at the Seymour home groceries from the refrigerator had been thrown on the floor and two rings and six pair of hose were missing.

Country Needs Music To Settle Nerves--Poike

The country needs more music to settle its war torn nerves.

That is the belief of A. R. Poike, 123 S. Westgate-av, who for the past 34 years has been keeping pianos in tune for music lovers.

Poike believes that music is essential to the war effort. "It relaxes your nerves, keeps your mind off your troubles," he says.

If you don't play a piano or other musical instrument, he believes you should listen frequently to the radio.

Poike himself, plays the violin and his wife plays piano. Gardening is his hobby.

As for piano tuning he says any piano should be tuned in order to preserve its good tone. "A person's ear becomes accustomed to a bad tone, and unless an outsider notices it the piano may be neglected. A piano should be tuned at least twice a year, or more often, depending on atmospheric conditions."

Poike was born in Philadelphia where he studied for his trade at a piano factory and come to the Hilltop 16 years ago.

JIM COOPER IS NAMED HILLTOP MAN OF YEAR

Genial Jim Cooper, 185 Binns-blvd, was named Hilltop Man of the Year for 1942 at a joint meeting of Camp Chase Post of the American Legion and the Hilltop Business Men's Association Tuesday evening at Schmelzer's Restaurant.

The selection is based on general service to the community and outstanding accomplishments during the year for which the award is made.

The annual award is sponsored by Camp Chase Post and the selection is made by a committee of two from the post and one member of the Hilltop Business Men's Association.

Selection of Jim Cooper was based on his outstanding accomplishment of selling over a million and half dollars worth of war bonds in 1942, which amount is now over two million dollars.

In receiving the award he said, "I did no more than I felt was my duty to aid in securing an American victory."

The award to Cooper is the sixth that has been made. It started in 1936 with the plaque going to Rev. Talmadge Magann. In 1937 Ray G. Hauntz was the recipient. In 1938 it went to Dr. J. F. Bateman, superintendent of the state hospital. In 1939 C. Carlton Hartley, publisher of the Record received the award and in 1940 it was awarded to C. H. Campbell, secretary of the Hilltop Business Men's Association. There was no award in 1941.

The committee making the 1942 selection was made up of D. C. Finneran, chairman, Dr. A. C. Myers and C. C. Hartley.

A transcription of the program was made and broadcast over station WBNS at 10:45 p. m. following Jim's late evening newscast.

Jim told those present of some of his experiences in selling war bonds. He stated he had driven 7500 miles since last August in following through on sales.

Commenting on the purchase of bonds he said, "Your bonds are just as good as the money you have and use every day. They are made by the same firm and printed on the same printing presses and across the top of both are printed the same inscriptions."

Jim Cooper

He said he believed there is more money in cash boxes and around homes than deposited in banks. He told of such instances as selling a lady 73 years of age her quota of bonds and having her pay him off in nearly $4,000 in $20 bills which she had been keeping in a bag at her home. And there was the instance of a man who bought $3,750 in bonds and paid off in small bills and it took Jim an hour and 15 minutes to count the money.

"We who buy bonds are benefitting most," he said. "Not the boys at the front. We should all do all we can. If you don't know what to do to help, just look around."

A program of magic was presented by Don Doran, and William Middendorf, representing the Red Cross spoke on the forthcoming war fund drive. Elmer Young, commander of the local legion spoke briefly conveying greetings from Camp Chase Post. Ray Hauntz, chairman of the program committee presented the speakers.

Need of More Doctors For Community Is Investigated

Representatives from the Procurement and Assignment Committee for Doctors are this week conducting an investigation into the need of more medical men for the Hilltop and West Side.

Dr. Paul C. Barton, assistant executive officer of the committee, has taken a friendly attitude toward the plea from local residents and it is believed some relief may be forthcoming.

Numerous reports of serious conditions confronting the community were received this week. One lady reports calling a doctor all afternoon and when she finally contacted him at 7 p. m. was told he could not possibly get to her call until sometime the next day.

Another man reports he started calling a doctor at 7:18 p. m. and at 11:50 p. m., after having made 32 calls had not yet been able to get through on the line.

Following is a copy of the report submitted this past week by C. W. Vance to the procurement and assignment committee:

I wish to call to your attention a condition existing in the City of Columbus, Ohio., regarding medical protection and necessary care of the health of approximately 61,000 citizens residing in a district bounded by the Scioto River on the east, Grandview on the north, the city limits west of the Scioto River on the south and not only to the west city limits, but to West Jefferson, Ohio, which is in Madison County, and a large rural district within which there are villages with no physicians.

The district mentioned above furnishes a large number of workers in National Defense industries in Columbus. And it is felt that medical protection by physicians has been reduced to a dangerous low level account a large number of physicians from this district entering the U. S. Army. The ones remaining have either been rejected by the Army or have reached the prohibitive age, with the exception of one, as investigation reveals.

While in Washington, D. C., recently I was advised by Dr. Paul C. Barton, Assistant Executive Officer of the Procurement and Assignment Committee for doctors to take care of communities with insufficient medical care, that you are State Chairman for Ohio. And that I should file a report with you for investigation of existing conditions and relief.

The district above mentioned and the undersigned will appreciate your interest and investigation of conditions now existing and possible relief and facilities to guard against an epidemic which would seriously hinder production and movement of defense materials and equipment.

Play For Police

Denny Beckner

City police this week were busy passing out yellow tickets —but they were not the familiar tags used for parking violators.

Saturday evening at the Columbus Auditorium the police hold their eleventh annual ball, proceeds of which will be used for the sub-relief fund for the widows and orphans of officers deceased or killed in action.

Detective Ed Love is chairman of the affairs and is being assisted by Police Captains William Murphy, Joe Creek and Ralph Waugh and Patrolmen Dale Garver and Howard Newman.

Denny Beckner and his Musical Madcaps have been engaged to play the one night stand. Beckner has filled engagements at some of the nations leading resorts and hotels and his popular orchestra will be welcomed in Columbus.

A committee headed by Floyd Green, mayor; city council, Chief of Police Otto Kaffits and Dudy Hoffstetter, Clare Penfield, Roy B. Weed, Pete Freemus, Fred Lazarus and Dr. Earlin J. Sims will also assist.

A sell-out is predicted for the ball with ticket sales having already reached the $7,000 mark, Love said. Dancing will start at about 9:30 and will be scheduled so that late shift defense workers may attend.

West Seeks Win Over South Tonite

By Harold Mors

The big game of the season is on the books for the members of the West basketball team this evening, when the Westerners go to South in an attempt to avenge their only city league loss, suffered at the hands of the Bulldogs in the first round.

At present, the Cowboys occupy the number one spot in the league all by themselves, but a loss to South would probably throw two or three teams into a first place knot-up.

If the Bucks continue to play aggressive, heads-up brand of ball, the Bulldogs should not offer as much trouble as in the first round when they defeated West by one point.

Cowboys Stampede Pirates

Playing one of the fightin'est games seen around the city loop in some time, a revamped team of West Cowboys corralled the Central Pirates and branded them with a loss for the second time this year.

Although "experts" had picked the Bucks to drop out of the running after they had lost Jack Underman and Richard Carter by graduation, Coach George Williams overlooked their opinions. He scheduled two out-of-town games in the 10 days between semesters, lost them both, and then came back into the red-hot city league race to trounce a highly-touted Central quintet.

Dick Hoover, West captain, was the highlight in scoring putting 16 points in the nets. Ira Blackwell, who started his first game as a regular, gave a sparkling performance on defense and scored 15 points with very few attempts at field goals missing the basket.

But it was George Ours who tied up the Pirates scoring by grabbing the ball from the bankboard right out of the arms of taller Central players. Hoover's defensive floor play was almost phenomenal; the sterling forward got the ball from Central players almost as often as from his own teammates.

Bill Richards played his usual good game, and Bob Watkins, filling the center position, showed the fighting spirit that [illegible] West the victory.

Buys New Hearse

Noble Allen, of the Allen Funeral Home, announces the purchase of a new Packard Henney Hearse this week. The hearse is one of the most modern in Columbus. It has an electrically operated table upon which the casket lays, that automatically ejects the casket to the pallbearers convenience. It is also equipped with electrode stabilizers which lets the hearse body drop to one side in case of a lower elevation.

The Noble Allen Funeral Home has been located on the Hilltop for the past 12 years at 2586 W. Broad-st.

CONSTANCE

Curtains are drawn that the gold wings of light
Shall be clipped least they chart droning skies;
But the genuine candles of tonight
Shine in constance from millions of eves.

Impostors can never extinguish that flame;
Nor oppressions, its steadfastness mar;
For but One is the Master, all power in whose name
Frees the spirit . . . illumines a star.

Housewives Reminded That Ration Foods To Be Frozen Feb. 20

Residents of the Hilltop and West Side were reminded today by C. C. Hartley, chairman of the local War Price and Rationing Board, to begin preparing for the rationing of canned foods which will begin Mar. 1.

The Office of Price Administration has announced that beginning Feb. 20 there will be a "freeze" of sales to the public of the foods to be rationed to permit retailers to prepare for the new program. The freeze period will be the week of Feb. 20 and during that week War Ration Book Two will be issued to everyone.

Foods to be rationed under the point system at the start will be canned and bottled fruits, vegetables and juices; canned soups; frozen fruits and vegetables and dried fruits.

Residents are urged not to buy more canned goods than they need between now and the beginning of rationing. Hoarding, it is pointed out, defeats the whole purpose of a rationing program and means that the hoarder is trying to get a bigger share of scarce items than his friends and neighbors.

Persons who have B or C gasoline books that expire near Feb. 23, are requested to cooperate with the local ration board by securing a renewal application form at the ration board, filling station or Hilltop Record office and mail it to the ration board. Sandusky and Broad-sts. as soon as possible, accompanied by the tire inspection record for the car.

Many people have asked why food rationing is necessary. In answer to this question the public must recall a familiar saying, "An army fights on its stomach."

The fact that a person has stocks of canned goods to declare at registration time does not mean that person is a hoarder.

Neither is the removal of stamps for these stocks a penalty.

Procedure evens up supply and gives everyone an equal start.

Some complaints are being made by people who think they have to give up cans over five. They merely have to declare them. They give up stamps for all cans over five—but keep the cans.

No shopper should be inconvenienced during "freeze" period from Feb. 21 to Mar. 1. Allowance of five cans per person, for which no stamps will be deducted, plus supplies of fresh fruits and vegetables, should provide ample food during the week.

In addition to the official table of point values which must be displayed, every store must also post point values in one of the following ways: on the shelf, counter, bin or rack where the item is displayed, or else on the container itself.

Missionary From China Visits Here

Miss Phoebe Pierce, Chinese missionary, is visiting Mrs. H. C. Hensley, 1482 Sullivant-av.

A former resident of the Hilltop in 1903-04, Miss Pierce will relate some of her experiences in China, and she has recent news of the trying experiences of seven missionaries and a small child, who almost starved to death in a Japanese concentration camp in Hong Kong.

She was fortunate to get back to the homeland before the war which resulted in the British colony of Hong Kong falling into the hands of the Japanese. This colony had been her home for over 13 years. She had many thrilling experiences, having spent about 17 years in Hong Kong and Canton, China.

Her first address was given last evening in the Hansberger Methodist Church. She will be located in Columbus for several weeks and will be open for calls for missionary meetings.

On Friday night, Feb. 12, additional music will be provided by the young people's orchestra of Jackson Chapel, Grove City. On Feb. 17, Mrs. B. C. Wintringham, gospel chalk artist, will assist.

Next Sunday, Feb. 14, Mr. Hone will speak in the morning unified service at 10:30 on the subject, "What Manner of Love the Father Hath Bestowed Upon Us," and in the evening service on the subject, "Christ's Three Greatest Promises."

A V-Home follows the air raid precautions recommended by its Local Defense Council. Are you still turning out lights or fussing with blackout makeshifts when the air raid warning sounds? This reminder of the need for real preparations was drawn for OCD by Gluyas Williams. Make your home a V-Home!

— Letters — To the Editor

Columbus, O.,
Feb. 8, 1943.

Dear Mr. Hartley:

Your article in the last issue of The Record voices the opinion of a great many Hilltop residents. I refer, of course, to the deplorable situation we find ourselves in concerning the lack of proper medical facilities. The few doctors who are left to us are so overburdened that it is physically impossible for them to do more and yet a lot of folks are compelled to do without medical care simply because they cannot get a doctor.

Under these circumstances it seems to me we would be justified in asking for the return of some of our medical men.

So that there is no misunderstanding, I would like to say that I am not in favor of returning any doctor who is serving in the capacity for which his training and experience have fitted him. However, there are men who are sadly needed on the Homt Front whose talents are being wasted in some minor capacity.

Sincerely,
Mrs. H. L. Heinzelman.

UNCONDITIONAL SURRENDER

The fourteen point treaty at Versailles
Was the biggest blunder we've made.
And to follow now its foolish details
Would be a disastrous escapade.
Twas incompetent, immaterial and irrevalent
A failure in every respect
With the wicked we should make no covenent
Warped by sin is their intellect.

And, is unconditional surrender the answer?
We should go very slow indeed.
It is easy to aggravate a hereditary cancer
By sowing the wrong kind of seed.
We can't set up a government for all Nations
Force down their throat our creed
They must assemble their own organizations
According to environment and breed.

NOSTALGIA

Remember the Turbulent Twenties? Well, those gay days of flappers and speakeasies and whatnot are recalled for the oldsters of another post-war generation in CBS' new program, "Only Yesterday," with Mary Small (above) lending her golden voice in the songs of that era.

County Red Cross Goal Is $520,000

Columbus and Franklin County will be asked to contribute $520,000 of the hundred and hundred and twenty-five million dollars which is to be sought nationally by the American Red Cross to carry on its great work on all fronts in 1943.

Announcement of the quota is being made by the chairman of the directors of the Franklin County Chapter, E. M. Tharp. The drive will start Mar. 1, with Paul Brown, Ohio State football coach, as chairman.

Cobb Speaker At O. State Museum

In connection with the new exhibition "Ohio In The Wars," Director Henry C. Shetrone of the Ohio State Museum, Fifteenth-av, and High-st, announces that Prof. Samuel H. Cobb will discuss informally "Ohio in Two World Wars," in the Museum Auditorium at 3 p. m. on Wednesday, Feb. 17.

Prof Cobb is a former state commander of the American Legion whose World War service was with the navy and who is now Associate Professor in the Department of Physical Education, Ohio State University. A comparison of Ohio service men in 1917-1918 and 1942-1943 will be given as to forces, type of arms, planes and ships, supplies and medical care and training on the home front. Types of warfare and casualties and approximate losses will also be contrasted. Finally, he will consider the effect on industry, farms and women in these wars. The lecture is open to the public, all Legion members, service men and parents of men in the service are especially invited.

The Museum collection of 400 valentines, is still on exhibition in History Hall, first floor. From early hand-cut examples of 1830 and 1850 with original verse, through the 1860's, 1870's and the changes in design, printing and early 1900's, one can trace the manner of expressing sentiment.

The Museum is open on weekdays from 8 to 5 and on Sundays from 1 to 5.

Fewer Fires In City

A sharp reduction in the number of Columbus fires is noted in the 1942 report of the fire department which shows 2,009 fires compared to 3,229 for 1941, Lieut. John E. Jordan announced today. throughout the country had anticipated a fire increase of about five per cent in the nation, due to the rapid conversion and expansion of factories doing war work. It was stated that fires in residences, as usual, lead the list in number of fires.

The percentages of fires in private homes in Columbus is much below the national average for fires of that type. The fact that 1,145 of the 3,009 fires were of that nature, indicates that much educational work can be done in this field. Private homes are not subject to fire prevention inspection, except upon request by the occupant.

Thirty-five Ohio State University students are studying Japanese, a new course offered this quarter, in preparation for possible military service.

Medical Corps Needs You

EDITOR'S NOTE: The following appeal for workers was issued this week by Juanita Campbell, representing the local Emergency Medical Corps.

Are you doing your part? If you are buying war bonds, saving tin cans, rubber, or working in defense factories you are doing your part for war over there but there is much to be done on the home front to protect us. This means you and your family and it is up to you, not your neighbor to enter into this work of protecting our homes and lives. After all our boys are over there fighting for us but if we don't protect ourselves over here they will come home to empty houses. It behooves every man and woman to get into some sort of civilian defense work if we are to win this war, which we must do.

This emergency medical corp needs more volunteers. It needs you. Our squads are scheduled to serve different hours so regardless of the time of day you are free we have a place for you.

We are appealing to you to offer your services before it is too late. If our army can get over there the enemy can come here.

If you are not connected with other civilian defense work and are over the age of 17 cut out the coupon at the bottom of this article and mail immediately or phone Ha. 2096.

There will be a ward meeting for ward 11 on Friday, Feb. 19, at Hilltop Lutheran Church at Terrace and Broad-st. The meeting is called for 8 p. m. You are urged to be at this meeting.

Hi Neighbors

By Kay Kameron

Our president says: Food is no less a weapon than tanks, guns and planes. So here are some more patterns.

Hickory Nut Bread

3 cups baking powder
3 ts baking powder
1 cup sugar
1 ts salt
1 cup chapped hickory nuts
1 egg (beaten light)
1 cup sweet milk.

Sift dry ingredients, add chopped nuts, then beaten egg mixed with the milk, mix to a smooth dough. Pour into a well greased baking pan, let stand 15 minutes. Bake 45 minutes.

Scalloped Cheese

2 cups stale bread (diced
1 cup grated cheese
1 pint milk
2 eggs

Salt and pepper to taste.

Put bread and cheese in baking dish, in alternate layers. Beat eggs and add to milk with seasoning, pour over cheese and bread. Bake half an hour in moderate oven.

THEIR PRAYERS ARE TOO LATE

Our war equipment is rolling
Spreading distruction and gloom,
The bells of Hell are tolling
Beckoning them to their tomb.
Old Satan is standing grinning
Holding open his gate
An idle God can't pardon sinning
Their prayers are too late.

They killed our boys while sleeping
We thought them loyal and true
To the cocoanut trees they're creeping
Hiding from the Red, White and Blue.
Their finish we'll see in forty three
And it may be an earlier date
An idle God can't set them free
Their prayers are too late.

Aquatic Meet Heads Ohio State Schedule

Composed of a field containing all of the aquatic stars in the state, the annual Amateur Athletic Union swimming championships will be the main attraction on the Ohio State University campus Saturday afternoon. The regular schedule of events will be supplemented by an aquatic show presented by the Swan Club of the university.

The Ohio State team will be a decided favorite to take the lion's share of the honors. Local fans will be given their first opportunity to see State's sensational freshman, Bill Smith, in action. The young Hawaiian lad now holds firt world records and will be out Saturday to grab off a few state and pool marks. He will be swimming unattached.

Two other teams, the relay team will be in East Lansing Saturday to take part in the annual Michigan State Relays, and Ohio State's fencing team will resume activities Friday evening in Cleveland when it meets the Case swordsmen. The basketball team, due to the war time schedule, will remain at home preparing for its two games with Michigan the following week-end.

PROPRIETOR
In my woodlot, one warm afternoon,
Was a long downward streak, so arrowy and sinuous
It looked continuous.
It flowed, it poured, it was gone,
Almost an illusion, a sham
Like a line in a diagram.

Clean as a flame it sped,
With a pinpoint eye in its head
And hid unsociable in the honeysuckle brake
(Fearing the Bibical damn?)
But I was proud, and said
My snake—MY snake!
—Christopher Morley, in ATLANTIC MONTHLY

SOLILOQUY
Some time you will come
quietly, when the light grows dim
out of the darkness of the fading day,
and into the path the setting sun has flung across my door step,
I shall forget the lonely hours of the night, with their silences profound.
I shall know the exultation
I had thought to find;
my heart will bid my tired feet to stop.
I will rest and dream contentedly,
and each sunset will be beautiful.
—To Pvt. Howard Inges,
Somewhere in the South Pacific, — by his Mother.

TRAFFIC DEATH DECLINE
Deaths and accidents in traffic on state highways outside municipalities last year dropped 37 and 32 per cent, respectively, as motor vehicle travel over these roads fell 23 per cent. There were 550 fatalities reported to the Ohio Department of Highways division of traffic and safety, and 10,979 accidents.

Cooperate With Your Grocer

Housewives will get their first taste of point rationing this next week when they register for War Ration Book No. 2.

On March 1 certain rationed canned fruits and vegetables will be sold by the grocers only on receipt of your "points."

Point rationing is going to mean a very great burden to an already overtaxed groceryman. Today most local stores are operating with skeleton staffs and are doing their best to keep up their service in an appreciable manner.

When point rationing goes into effect it will mean that housewives and those who do the shopping must give still further cooperation if they expect the grocer to be able to serve them.

One of the best ways to do this is to become educated in the matter of point rationing. Don't take up the time of your grocer when you call him on the phone to determine how many points this item or that item takes. Study all the material available so that you thoroughly understand point rationing.

Then when you order groceries by phone have the points ready for the boy and be sure that he takes the proper number with him. Remember, your grocer can replenish his stock of merchandise only by surrendering coupons he has received from his customers. Each time he loses a few coupons he will be forced to reduce his inventory thereby.

Local housewives can best cooperate with their grocer by visiting the store in person to buy and deliver her groceries. Grocers can give no assurance as to how long they will be able to continue delivery service.

Time . . . . .
It is Valuable

Time has a greater value today than it has ever had.

That is especially true in your community newspaper.

Today we are operating with four less employees than we had eight months ago and three of the present staff are new with us.

We appreciate your calls, and your visits in person, but along with our activities in the rationing program and other community interests, please pardon us if we try to satisfactorily answer your questions and then proceed to the next job at hand. We cordially invite you to come in and chat awhile . . . after the war is over.

Bits and Bits: A common expression of the times was overheard in this office this week when Dave Cornwell phoned his wife, "Well mother, put another star on the service flag." It was occasioned when daughter Mary enlisted in the WAVES . . . Paul Detrick who leaves soon for the army received a large cake from a customer over the week-end . . . a replica of the American flag . . . Like pancakes? Charley Kent will provide them Saturday at his store when Aunt Jemima is there in person. You are welcome . . . George J. Smith 184 S. Eureka-av, received his pilot's wings at graduation exercises at the Air Force Training Center in Texas Tuesday . . . Miss Edna Richmond, well known to the Hilltop as a representative of Midland Mutual Insurance Co., will be leaving the Hilltop soon . . . has sold her home here . . . Hilltopper Geo. Sinclair has been named vice-president of the War Veterans Republican Club and Chubby Coyle has been named treasurer.

Jean and Jane Stroup, twins, will celebrate their 22nd birthdays on Washington's birthday, Feb. 22, the second month of the year. Jean is in California and Jane is in Columbus.

Three Grads Meet

Time passed quickly the last two weeks in a certain maternity room at Mt. Carmel Hospital when three West High grads found themselves in the same room together with three lovely babies . . . The mothers were Mrs. Harry Yank (Joyce Blackburn), with son named David Lee . . . Mrs. Ralph Elliot the former Loretta Davis with daughter named Carolyn Ann and Mrs. Eugene Kaderly, graduate of 1941 who lives in Galloway and has a daughter named Carolyn Sue.

Family Goes Into Action To Aid Son

Andrew Schlereth

Wishing upon a star that his son Howard will be liberated from a Jap concentration camp at St. Thomas University, Manila, and that his other two sons and one daughter will return from war, has become a habit with Andrew Schlereth, 247 S. Terrace-av. Schlereth is a tool designer at the local Curtiss-Wright plant and the stars he swears by are the insignias of the Helldiver and Seagull warplanes.

When the Japs captured Howard Schlereth the entire family went into action. Herbert and George are now in the army, their sister Dorothy is a lieutenant in the army nursing service and their father works on warplanes.

The only news they receive from Howard are brief cablegrams relayed through Switzerland.

Urge B and C Gas Users To Renew

Holders of B and C gasoline ration cards that expire on Feb. 28 or soon that time are urged to make application for renewal at once.

Ira Claggett, chairman of the gasoline panel of the local ration board pointed out this week that applications for renewal will be accepted by mail. Forms for the renewal are now available at the ration board, Sandusky and Broad-sts, at some filling stations and The Hilltop Record office.

The form, when completely filled out, should be mailed with the tire inspection record for the car, to the ration board office, Franklinton School, and after being reviewed by the board the coupons will be mailed to the owner.

Over 3,000 such renewals are due on Feb. 28. At present very few have made application for renewal. If more applications are not received immediately it will be physically impossible for the board to grant the coupons in time for their use Mar. 1.

Parents Hear of Son's Safety After His Ship Is Sunk

Announcement of the sinking of the cruiser Chicago came over the radio Tuesday afternoon. The ship had been sunk by the Japanese in action in the Solomon Island area beginning Jan. 29.

Donald Fouche, 17-year-old son of Mr. and Mrs. Ronald Fouche, 3274 W. Broad-st, was on that ship and his parents heard the news of its sinking.

Three hours after such news came in over the air they received a letter from their son saying he was safe and in a hospital.

Apparently the boy was injured in the battle and taken to a hospital and had written from there. The letter was dated Feb. 9, and was received coincident with the release of the news of the sinking of the Chicago.

His mother explained this week that he had written that a boy from their home town, Warren, Pa., had been taking care of him in the hospital.

Fouche enlisted on his seventeenth birthday. He formerly attended West High School.

Register For Ration Book At Schools Next Week

Hilltoppers will go to their nearest public school building one day this next week to register for War Ration Book No. 2, according to C. C. Hartley, chairman of the local ration board. Registration will start on Tuesday, Feb. 23, and will be in charge of the school teachers.

All local schools will be used for the registration including West High and West and Starling Junior High Schools.

The present plan extends the period of registration for four days beginning Tuesday, Feb. 23, in order not to overcrowd the schools any one day, it was announced.

Persons whose last names begin with "A" through "E" will register from 1 to 6 p. m., Feb. 23; "F" through "K" from 1 to 9 p. m., Feb. 24; "L" through "R" from 1 to 9 p. m., Feb. 25, and "S" through "Z" on Feb. 26, from 1 to 6 p. m.

Registration must be made on the designated days, otherwise it will be necessary to wait until some time in March to apply for the new book at the rationing board at Franklinton School.

As in the previous registration, one adult will sign for the entire family unit and should bring along ration book No. 1 for each person for whom he is registering. A "family unit," rationing officials announce, includes all persons related by blood, marriage or adoption who regularly reside in the same household. It does not include employes of a household. They must make a separate application. In addition the applicant must declare the number of pounds of coffee the entire family had on hand on Nov. 28, 1942, and the number of cans, eight ounce or larger, of commercially packed canned fruits and vegetables on hand Feb. 21.

For every pound of coffee over one pound per person held Nov. 28, a stamp will be removed from the rationing book before it is issued. Five cans of commercially packed fruits and vegetables will be permitted each person in the family.

Beginning Mar. 1, the new book will be used as a part of the "point rationing" system which covers canned and frozen fruits and vegetables, canned soups and canned baby foods.

During the four-day period, schools will not be in session during the afternoons in order to allow teachers to assist with the registration.

Want Musical Instruments For Boys In Fifth Corps Area Camps

Have you a musical instrument around your home that is not being used but would be of service to some soldier in an Army camp?

If so you can send it on its way to the service man through the agency of the Clintonville Civilian Defense Center, which is sponsoring the collection of musical instruments of all kinds to be used in Army posts of the Fifth Service Command area.

This campaign is part of a nation-wide effort to obtain musical instruments for recreational use in the army camps. The national campaign was started in November in a coast to coast broadcast, "Music for America's Fighting Men," given under the auspices of the Music Industries War Council.

Music is regarded as one of the best of morale builders, and the best of martial music is made by army bands. Post and regimental bands are part of the army program, but the lack of instruments has prevented the organization of small dance bands, orchestras, and small instrumental groups in many army posts.

The army cannot appeal for contributions such as this, so the Clintonville Civilian Defense Center was asked to undertake the project. The center is a volunteer organization of residents of the northern section of the city and is located at 4070 N. High-st. The phone number is Je. 3845.

These instruments are accepted by the Army only as outright gifts to the Army, and the donor of each instrument will receive a letter of acknowledgement, with thanks for the gift.

Instruments will be picked up by truck from the center and taken to the headquarters at Fort Hayes, from which point they will be distributed to fill the particular needs of each camp in the Fifth Service Command area.

Benefit Party

The West Side Home Front Club will hold a party at the V. F. W. Hall, Wayne-av and Broadst, Saturday, Feb. 27, for the benefit of boys in the service. Admission will be 25c. Numerous prizes will be awarded. Cran Williams is chairman, assisted by Mrs. Earl Bell and Agnes McVay.

Cowboys Meet Aquinas Here Tonight

By Harold Mers

If the West Cowboys are to remain tied for first place in the city league basketball race, they must defeat the Aquinas team for the second straight time this season, when the two teams tangle tonight on the West floor.

In their first round game, the Cowboys barely edged the Terriers, coming from behind in the last quarter, after trailing throughout the game.

West's heighth advantage of the first round is gone, and the Bucks will have to rely on their good defense, and a fighting offense with good ball handling.

After Central's defeat of North Wednesday, the Pirates went into an undisputed lead.

South Trips West Again

Showing signs of nervousness and too much tension, the Cowboys fell prey again to the South Bulldogs, defending champions, by a close 30 to 27 score.

Failure to move the ball cut the efficiency of West's offense, and with Captain Dick Hoover "off the beam" on his usually deadly hook-shots, the Bucks couldn't muster enough points to match the Bulldogs.

Ira Blackwell playing his second game as a regular, stole the offensive show, although he was on the losing team, by racking up 14 points, and playing a bang-up defensive game.

The defensive play of George Ours was outstanding, as the stalwart guard grabbed many rebounds from the bankboards, and Bill Richards with Bob Watkins, held off the South scorers, but couldn't hit the nets for the necessary points to better those made by the long shots of the South forwards.

Firemen Rescue 4 Women Who Shiver On Roof

Four women, clad only in night clothes, were driven into the zero air, when a midnight fire at 94 N. Eureka-av, resulted in $1500 damage and took the life of their pet dog, "Toots," last Thursday.

An overheated furnace was believed to have caused the blaze, which firemen fought for more than an hour. Mrs. Wilfred Richards and her 21-year-old daughter, Betty, and Mrs. Thelma Bliss and Joy Bliss, 17, were in the duplex preparing for bed at the time.

When they discovered the fire they rushed upstairs and climbed out on the slate roof over the front porch, staying there until the firemen rescued them. Mr. Richards, an employee of the New York Central Railroad was in Toledo at the time.

Nursing Course Open To Mothers

The present Home Nursing classes of West Broad Street School will be completed this week, and registration for new classes is asked.

It is hoped that in the coming class there will be mothers of younger children, as there is a trained nurse available to care for them while the class is in progress. The aim of this group is to see that at least one member of every Hilltop family has a course in home nursing. Anyone interested in this should call Mrs. Benton, Ra. 9494.

Boys Wanted

Columbus Retail Coal Merchants Credit Association will replace wheel-in men with high school boys. Due to the labor shortage this has become necessary. Boys are wanted to work in their own neighborhood. This work for boys not only offers a chance to make money, but is a patriotic duty. Anyone interested in this should call Mr. Brown, at Ad. 3892.

Rainbow Vets. To Have Reunion

Ohio doughboys of the 166th U. S. Inf., Rainbow (42nd) Division receive their first actual combat duty in the trenches—and through the years that followed the survivors of this world famous division relive those memories by assembling at designated places throughout the nation.

Columbus Chapter, Ohio Rainbow Division Veterans will hold its twenty-fourth annual "trench entry" banquet at the Southern Hotel Saturday, Feb. 20, at 6:30 p. m.

Col. David Newman, commander, engineering section, Columbus Q. M. Depot, will be the speaker. Col. Newman will relate his experiences while participating as a member of the construction forces who made the U. S. to Alaska highway a reality. Colonel Newman plans to have "slides" showing the enormity of the task in making such a highway possible in such record-breaking time.

ATTENTION HOUSEWIVES!

Your local Independent Hilltop Grocer wishes to call your attention to the fact that during the week beginning Feb. 22 (Monday) all canned foods listed by OPA to be rationed will be "frozen." During that week you will register at your nearest school for your No. 2 Ration Book in order to be able to buy rationed foods on and after March 1.

When Point Rationing goes into effect March 1, your grocer will attempt to continue to give all the service possible. However they don't know as yet just how rationing will affect their service.

Today your local business firms are working with skeleton staffs and are unable to get additional help. You will therefore be doing a big favor to your grocer as well as yourself if you will give him every cooperation.

We do suggest that in purchasing rationed items that you come to the store to make your selections. Local grocers have no assurance as to how long they will be able to continue delivery service.

Then, too, make a special effort to study and understand point rationing. When you order an item you can save the grocer much time if you know its point value as well as the price.

IN MEMORIAM
In memory of MILDRED HOCKMAN who passed away one year ago, February 22, 1942.

Why from the world that needs them
Thou callest the best away,
Though hosts beseiged Thee for them
And they are fain to stay,
We ask, but find no answer
We cannot understand,
But thine is perfect knowledge,
And our times are in Thy hand.

In loving memory of our wife and sister,
—Ross Hockman,
Jeanette Thatcher.
